One of the most widely-read thinkers writing today, Slavoj Žižek's work can be both thrilling and perplexing in equal measure. *Žižek: A Guide for the Perplexed* is the most up-to-date guide available for readers struggling to master the ideas of this hugely

influential thinker. Unpacking the philosophical references that fill Žižek's writings, the book explores his influences, including Lacan, Kant, Hegel and Marx. From there, a chapter on 'Reading Žižek' guides the reader through the ways that he applies these

core theoretical concepts in key texts like *Tarrying With the Negative*, *The Ticklish Subject* and *The Parrallax View* and in his books about popular culture like *Looking Awry* and *Enjoy Your Symptom!* Major secondary writings and films featuring Žižek are

Slavoj Zizek is no ordinary philosopher. Approaching critical theory and psychoanalysis in a recklessly entertaining fashion, Zizek's critical eye alights upon a bewildering and exhilarating range of subjects,

from the political apathy of contemporary life, to a joke about the man who thinks he's a chicken, from the ethicial heroism of Keanu Reeves in Speed, to what toilet designs reveal about the national psyche. Tony Myers provides a clear and engaging guide to

Zizek's key ideas, explaining the main influences on Zizek's thought (most crucially his engagement with Lacanian psychoanalysis) using examples drawn from popular culture and everyday life. Myers outlines the key issues that Zizek's work has

tackled, including: What is a Subject and why is it so important? The Imaginary, the Symbolic and the Real What is so terrible about Postmodernity? How can we distinguish reality from ideology? What is the relationship between men

There are few figures more important in literary and critical theory than Jacques Derrida.

Whether lauded or condemned, his writing has had far-reaching

ramifications, and his work on deconstruction cannot be ignored. This volume introduces students of literature and cultural studies to Derrida's enormously influential texts, covering such topics as: deconstruction, text and

difference; literature and freedom; law, justice and the 'democracy to come'; drugs, secrets and gifts. Nicholas Royle's unique book, written in an innovative and original style, is an outstanding introduction to the methods and

significance of Jacques Derrida. In this book, Sean Homer addresses Slavoj Žižek's work in a specific political conjuncture, his political interventions in the Balkans. The charge of inconsistency and contradiction is

Get Free Jacques Lacan Sean Homer

frequently levelled at Žižek's politics, a charge he openly embraces in the name of "pragmatism." Homer argues that his interventions in the Balkans expose the dangers of this pragmatism for the renewal of the

Get Free Jacques Lacan Sean Homer

Leftist politics that he calls for. The book assesses Žižek's political interventions in so far as they advance his self-proclaimed "ruthlessly radical" aims about changing the world. Homer argues the Balkans can be seen as Žižek's

symptom, that element which does not fit into the system, but speaks its truth and reveals what the system cannot acknowledge about itself. In Part II Homer explores Žižek's radicalism through his critique of Alain

Badiou, arguing that Badiou's "affirmationism" provides a firmer grounding for the renewal of the left than Žižek's negative gesture analyzed in Part I. What distinguishes Žižek from the majority of the contemporary Left

today is his valorization of violence; Homer tackles this issue head-on in relation to political violence in Greece. Finally, Homer defends the utopian impulse on the radical left against its Lacanian critics.

Karl Marx is the most important modern philosopher. His work has radically changed the course of world history, continental philosophy, political theory, literary criticism, and cultural studies.

The sheer range of his achievements, and

examples drawn from William Shakespeare, Herman Melville, Leo Tolstoy, Bertolt Brecht, Theodor Dreiser, Thomas Pynchon, Toni Morrison, Sally Rooney, Claude McKay, Tennessee Williams, Mad Men, and Margin Call. Key ideas discussed in this

Lacan without the jargon! Jacques Lacan was one of the most important psychoanalysts ever to have lived.

Building upon the work of Sigmund Freud, he sought to refine Freudian insights with the use of linguistics, arguing that the structure of unconscious is like a language. Controversial throughout his lifetime both for adopting mathematical concepts in his

Defending Lacan from his numerous detractors, past and present, Bailly guides the reader through Lacan's canon, from l'objet petit a to The Mirror Stage and beyond. Including coverage of developments in Lacanian

- The figures section discusses

the work of major psychoanalytic theorists who have considerably influenced the development of psychoanalytic political theory. • The traditions section genealogically recounts and critically reassesses the many attempts throughout the 20th century of

examples of how psychoanalytic political theory can be productively applied in the analysis of racism, gender, nationalism, consumerism, and so on. • The challenges/controversies section captures how psychoanalytic political theory can lead the way towards theoretical and

Opening a new debate on ethical reasoning after Kant, Drew Dalton addresses the problem of the absolute in ethical and political

Get Free Jacques Lacan Sean Homer

thought. Attacking the foundation of European philosophical morality, he critiques the idea that in order for ethical judgement to have any real power, it must attempt to discover and affirm some conception of the absolute good. Without rejecting

Get Free Jacques Lacan Sean Homer

the essential role the absolute plays within ethical reasoning, Dalton interrogates the assumed value of the absolute. Dalton brings some of the most influential contemporary philosophical traditions into dialogue with each other:

Get Free Jacques Lacan Sean Homer

speculative realists like Badiou and Meillassoux; phenomenologists, including Husserl, Heidegger, and Levinas; German Idealists, especially Kant and Schelling; psychoanalysts Freud and Lacan; and finally, post-structuralists,

specifically Foucault, Deleuze, and Ranciere. The relevance of these thinkers to concrete socio-political problems is shown through reflections on the Holocaust, suicide bombings, the rise of neo-liberalism and neo-nationalism, as

Get Free Jacques Lacan Sean Homer

well as rampant consumerism and racism. This book re-defines ethical reasoning as that which refuses absolutes and resists what Milton's devil in Paradise Lost called the "tyranny of heaven." Against traditional ethical reasoning, Dalton

Get Free Jacques Lacan Sean Homer

sees evil not as a moral failure, but as the result of an all too easy assent to the absolute; an assent which can only be countered through active resistance. For Dalton, resistance to the absolute is the sole channel through which the

psychoanalytic interpretations have been applied that have privileged the psychosexual over the psycho-linguistic elements of his work. The wealth of sexual and pseudo-sexual imagery has acquired a
