Immerse yourself in this utterly addictive forbidden love story that has captivated thousands of readers around the world. “We are not meant to be together. I should’ve known better. And yet…” Petra, a seventeen-year-old Dutch-American and the only heir of finance tycoon Roy Van Gatt, has always had her life rigorously planned and supervised by her strict father. From her internship at his hedge fund firm on Wall Street to her degree in Economics at Columbia University, Petra is all set for a bright future in finance. But everything falls apart when she develops a dangerous relationship with her father’s business partner and utmost confidant, Alexander Van Dieren. A Dutch nobleman, known as an unrepentant heartbreaker, twenty-three years her senior, and who is, above all else, her beloved godfather. A twisted obsession for some, unconditional love for others, but one thing is sure: it’s a relationship that might cost them everything… This book is for mature audiences. ￼￼￼￼ "A Must Read for Romantic Thriller Enthusiasts. Blossom in Winter is a beautifully wrought and expertly woven story of forbidden love, desire, dark pasts, and the lengths one will go to protect everything that matters most to them." -- Payton H, Amazon UK ￼￼￼￼ "This dark romance is just what you need to keep you warm on the cold winter nights that are coming our way, it even has a simmering slow burn going on." -- Cassandra W., Amazon UK ￼￼￼￼ "This book has been an absolute pleasure to read. There's puppy love, genuine romance, dark and twisted erotica and moments that will leave you shocked." -- Victoria Spaulding, Goodreads ￼￼￼￼ "I don't even have words, got to be one of the most intense books I've read in a while." -- Obsidian, Goodreads ￼￼￼￼ "This was the most amazing book I've read in a while, it was so gripping, I really couldn't stop reading it even at 2 am when I had a Uni class the next day!" -- Sabrina, Goodreads ￼￼￼￼ "No lies, this is the best book I've ever read! I've felt so many emotions while reading it! Can't wait for the second book!!!" -- Mariska, Goodreads ￼￼￼￼ "This book was exceptional, it captivated me instantly." -- Christina, Goodreads ￼￼￼￼ "A captivating page-turner of a book that you literally will not put down." - Jojo, Goodreads ￼￼￼￼ "This was by far the most refreshing, exciting, thrilling, adventurous, and sexy book I've read." -- Amy Shaw, Goodreads ￼￼￼￼ "Pure intensity from the very first word to the very last!" -- Dionne McCarten, Goodreads ￼￼￼￼ "This is by far one of the best books I've read in a long time!" -- Jade, Goodreads

This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been cus tomarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the in terest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

Following the Pulitzer prize-winning collection Stag’s Leap, Sharon Olds gives us a stunning book of odes. Opening with the powerful and tender “Ode to the Hymen,” Olds addresses and embodies, in this age-old poetic form, many aspects of love and gender and sexual politics in a collection that is centered on the body and its structures and pleasures. The poems extend parts of her narrative as a daughter, mother, wife, lover, friend, and poet of conscience that will be familiar from earlier collections, each episode and memory burnished by the wisdom and grace and humor of looking back. In such poems as “Ode to My Sister,” “Ode of Broken Loyalty,” “Ode to My Whiteness,” “Blow Job Ode,” and “Ode to the Last Thirty-Eight Trees in New York City Visible from This Window,” Olds treats us to an intimate examination that, like all her work, is universal, by turns searing and charming in its honesty. From the bodily joys and sorrows of childhood to the deaths of those dearest to us, Olds shapes the world in language that is startlingly fresh, profound in its conclusions, and life-giving for the reader.

The ocean and its inhabitants sketch and stretch our understandings of law in unexpected ways. Inspired by the blue turn in the social sciences and humanities, Blue Legalities explores how regulatory frameworks and governmental infrastructures are made, reworked, and contested in the oceans. Its interdisciplinary contributors analyze topics that range from militarization and Maori cosmologies to island building in the South China Sea and underwater robotics. Throughout, Blue Legalities illuminates the vast and unusual challenges associated with regulating the turbulent materialities and lives of the sea. Offering much more than an analysis of legal frameworks, the chapters in this volume show how the more-than-human ocean is central to the construction of terrestrial institutions and modes of governance. By thinking with the more-than-human ocean, Blue Legalities questions what we think we know—and what we don't know—about oceans, our earthly planet, and ourselves. Contributors. Stacy Alaimo, Amy Braun, Irus Braverman, Holly Jean Buck, Jennifer L. Gaynor, Stefan Helmreich, Elizabeth R. An expert guide to wine from the publishers of Larousse Gastronomique. This completely new and updated edition offers wide-ranging coverage of the key wine-producing regions of the world, with particular reference to French vineyards. A short history and analysis of each region is followed by a survey of the types of wines produced, the specific properties that make the region unique, and the appellations of the area. New to this edition are more than 60 features on key wine producers around the world, affording a fascinating insight into what is involved in high-quality wine-making. Boxes and features throughout also cover a vast range of subjects such as how to read a wine label and whether to decant wine, through to organic wine-growing and bio-dynamics.

John Yolton seeks to allow readers of Locke to have accessible in one volume sections from a wide range of Locke's books, structured so that some of the interconnections of his thought can be seen and traced. Although Locke did not write from a system of philosophy, he did have in mind an overall division of human knowledge. The readings begin with Locke's essay on Hermeneutics and the portions of his Essay Concerning Human Understanding on how to read a text. The reset of the selections are organized around Locke's division of human knowledge into natural science, ethics, and the theory of signs. Yolton's introduction and commentary explicate Locke's doctrines and provide the reader with the general background knowledge of other seventeenth-century writers and their works necessary to an understanding of Locke and his time.

Over two hundred and thirty years ago the Fallocaust happened, killing almost everything that lived and creating what is now known as the greywastes. A dead wasteland where cannibalism is a necessity, death your reality, and life before the radiation nothing but pictures in dog-eared magazines. Reaver is a greywaster, living in a small block controlled by a distant world he was raised in and prides himself on being cold and cruel. Then someone new to his town catches his eye, someone different than everyone else. Without knowing why he starts to silently stalk him, unaware of where it will lead him.

West is a high school senior who has everything going for him until an accident leaves him paralyzed. Strapped down in his hospital bed, slipping in and out of consciousness, West is terrified and alone. Until he meets Olivia. She's the girl next door-sort of. A patient in the room next to his, only Olivia can tell what West is thinking, and only Olivia seems to know that the terrible dreams he's been having are not just a result of his medication. Yet as West comes to rely on Olivia—to love her, even—certain questions pull at him: Why has Olivia been in the hospital for so long? And what does it mean that she is at the center of his nightmares? But the biggest question of all comes when West begins to recover and learns that the mysterious girl he's fallen in love with has a secret he could never have seen coming.

The Remedy

OdesKnopf

Intended as the primary text for introductory courses on medical anthropology, this book integrates human biological data relevant to health and disease with both evolutionary theory and the social environments that more often than not produce major challenges to health and survival. Becausestudents who take this fastest-growing anthropology course come from a variety of disciplines (anthropology, biology, especially pre-med students, and health sciences, especially), the text does not assume anything beyond a basic high-school level familiarity with human biology and anthropology. Theauthors first present basic biological

information on a particular health condition and then expand their analysis to include evolutionary, historical, and cross-cultural perspectives. Among the topics covered are nutrition, infectious disease, stress, reproductive health, behavioral disease, aging,race/racism and health, mental health, and healers and healing.

" An enraged elephant flips a car onto its roof. A lioness prises open the door of a terrified couple. A leopard helps itself to a family's picnic breakfast. A fleeing impala leaps through an open car window. A lion charges around inside a busy rest camp. A hyaena snatches a baby from a tent. A tourist takes a bath in a croc-infested dam...These are just a few of the 101 jaw-dropping sightings, scrapes and encounters in this collection of extraordinary true stories from the roads, camps, picnic sites and walking trails of South Africa's Kruger National Park, as told by the very people who experienced them. There are no game ranger tales here - each and every story happened to an ordinary Kruger visitor doing what over a million tourists do in this spectacular reserve each year." -- Back cover.

Borges On Writing In 1971, Jorge Luis Borges was invited to preside over a series of seminars on his writing at Columbia University. This book is a record of those seminars, which took the form of informal discussions between Borges, Norman Thomas di Giovanni--his editor and translator, Frank MacShane--then head of the writing program at Columbia, and the students. Borges's prose, poetry, and translations are handled separately and the book is divided accordingly. The prose seminar is based on a line-by-line discussion of one of Borges's most distinctive stories, "The End of the Duel." Borges explains how he wrote the story, his use of local knowledge, and his characteristic method of relating violent events in a precise and ironic way. This close analysis of his methods produces some illuminating observations on the role of the writer and the function of literature. The poetry section begins with some general remarks by Borges on the need for form and structure and moves into a revealing analysis of four of his poems. The final section, on translation, is an exciting discussion of how the art and culture of one country can be "translated" into the language of another. This book is a tribute to the brilliant craftsmanship of one of South America's--indeed, the world's--most distinguished writers and provides valuable insight into his inspiration and his method.

Global Weirdness summarizes everything we know about the science of climate change, explains what is likely to happen to the climate in the future, and lays out, in practical terms, what we can do to avoid further shifts. In sixty easy-to-read entries, Climate Central tackles basic questions such as: -Is climate ever “normal”? -Why and how do fossil-fuel burning and other human practices produce greenhouse gases? -What natural forces have caused climate change in the past? -What risks does climate change pose for human health? -What accounts for the diminishment of mountain glaciers and small ice caps around the world since 1850? -What are the economic costs and benefits of reducing carbon emissions? Illustrated throughout with clarifying graphics, Global Weirdness enlarges our understanding of how climate change affects our daily lives, and arms us with the incontrovertible facts we need to make informed decisions about the future of the planet, and of humankind.

To remedy means to heal, to cure, to set right, to make reparations. The Remedy invites writers and readers to imagine what we need to create healthy, resilient, and thriving LGBTQ communities. This anthology is a diverse collection of real-life stories from queer and trans people on their own health-care experiences and challenges, from gay men living with HIV who remember the systemic resistance to their health-care needs, to a lesbian couple dealing with the experience of cancer, to young trans people who struggle to find health-care providers who treat them with dignity and respect. The book also includes essays by health-care providers, activists and leaders with something to say about the challenges, politics, and opportunities surrounding LGBTQ health issues. Both exceptionally moving and an incendiary call-to-arms, The Remedy is a must-read for anyone—gay, straight, trans, and otherwise—passionately concerned about the right to proper health care for all. Contributors include Amber Dawn, Sinclair Sexsmith, Francisco Ibanez-Carrasco, Cooper Lee Bombardier, Kara Sievewright, and Kelli Dunham. Zena Sharman is a passionate advocate for queer and trans health. She has over a decade's experience in health research; currently she is Director of Strategy at the Michael Smith Foundation for Health Research. Zena is also co-editor of Persistence: All Ways Butch and Femme. She lives in Vancouver, British Columbia.
