Poetry. Drawings by Paul Blake. Originally published in 1977 by Good Gay Poets of Boston. "A book whose page has come. ruth weiss has been sounding these poems, alone or with jazz accompaniment, for many years. It's now ocheny chorosho that they appear for the senses of those potential poets searching for new modulations of expression; for her poems are of the rhythms of our time and the interlaced, repetitive subtleties are sewn by that 'thread for those who breathe in rags' (Vallejo) which bespeaks and sings the deep loom of the bronze lotus."—Jack Hirschman

A 365+ Day Biblical Devotional After 15 years of attending a Men's Bible study with my friends Wheeler and Paul, I decided to do an independent study of my own. I spend an hour each morning investigating real, tough, modern day biblical questions. After I get done, I try to distill the answers into a "Bible Minute" with a short introduction of the topic, a Bible verse or two or three and a short conclusion. I began posting these Bible Minutes on my Facebook page and before long I began to see true miracles. I heard stories of conversions, breakthroughs and restoration of relationships as a result of my studies. Make no mistake; I'm an average guy who just likes reading the Bible. I attended Bible College but after less than a year, I decided that my true calling was being a chiropractor so I'm no biblical scholar. I hope that my compiling the many studies I have done over the last few years and creating this book helps heal your soul, brings you closer to God, and allows you to grow a deeper relationship with Jesus. It is my prayer that this book provides the manna for your spirit, sets your soul free and becomes a true blessing in your life and in the lives of the people you gift this book to. In Health and Faith, Jay

An incisive, groundbreaking book that examines how a biological concept of race is a myth that promotes inequality in a supposedly "post-racial" era. Though the Human Genome Project proved that human beings are not naturally divided by race, the emerging fields of personalized medicine, reproductive technologies, genetic genealogy, and DNA databanks are attempting to resuscitate race as a biological category written in our genes. This groundbreaking book by legal scholar and social critic Dorothy Roberts examines how the myth of race as a biological concept—revived by purportedly cutting-edge science, race-specific drugs, genetic testing, and DNA databases—continues to undermine a just society and promote inequality in a supposedly "post-racial" era. Named one of the ten best black nonfiction books 2011 by AFRO.com, *Fatal Invention* offers a timely and "provocative analysis" (Nature) of race, science, and politics that "is consistently lucid . . . alarming but not alarmist, controversial but evidential, impassioned but rational" (Publishers Weekly, starred review). "Everyone concerned about social justice in America should read this powerful book." —Anthony D. Romero, executive director, American Civil Liberties Union "A terribly important book on how the 'fatal invention' has terrifying effects in the post-genomic, 'post-racial' era." —Eduardo Bonilla-Silva, professor of sociology, Duke University, and author of *Racism Without Racists: Color-Blind Racism and the Persistence of Racial Inequality in the United States* "Fatal Invention is a triumph! Race has always been an ill-defined amalgam of medical and cultural bias, thinly overlaid with the trappings of contemporary scientific thought. And no one has peeled back the layers of assumption and deception as lucidly as Dorothy Roberts." —Harriet A. Washington, author of *and Deadly Monopolies: The Shocking Corporate Takeover of Life Itself* Pitman's Journal of Commercial Education

"Throwing It" is a novel written by Jay Tando. It is a fictional story about a football player's life spanning his high school years finding romance in the Seattle dance clubs and following him through his professional football career taking him all over the world 1984 - 2013 Also available as an e-book on Amazon here: <http://www.amazon.com/Throwing-It-ebook/dp/B00APRS5ZA/>

A Blank notebook (unruled) made with soft, matte paperback cover. It contains 102 pages in total. It is perfect for anyone wishing to write journal, notes or draw. The paper is 60 lb, which prevents ink leakage. The size of paper is 6 by 9 inches, so large enough to jot down thoughts or writing down notes for your classes. Price for this notebook is unbelievable!

The book is helpfully structured with its central chapters broadly following the shape of a typical psychodrama session' - Journal of Critical Psychology, Counselling & Psychology As with all Paul Wilkins writings the book is thorough and well-researched, with a wealth of information arising from wide readership and personal communication.... My own view is that the book fulfils its aim as an introduction to psychodrama for the audience it addresses. It also is packed with information about areas which experienced psychodramatists and sociodramatists will wish to debate' - British Psychodrama Association Journal The text unfolds in such a way that the central feature of psychodrama as an action therapy is spontaneously made manifest. The book is good for students of this method and would be a challenging refresher for practitioners in the field. All the special terms used by psychodramatists are defined in a succinct glossary so that the uninitiated will not be bewildered on first encountering "auxilliary egos", "surplus reality", "social atoms" or even the titillating idea of "act hunger"! The "Guide to further reading" and the section on psychodrama and the internet ensure that old-fashioned book- and journal-worms are as well catered for as cybersleuths' -New Therapist This fascinating book introduces the rationale, theory and psychotherapeutic practice of psychodrama. It provides an insight into its

origins, outlining its techniques and bringing to life the dynamic interrelationships that form the core of the practice. Following the theatrical process that lies at the heart of psychodrama, the book shows how the enactment of scenes from the past, present or future, real or imagined, can benefit the group of individuals involved, leading to unexpected insight and growth through creativity and spontaneity. Psychodramatic terms and processes are explained and illustrated using numerous examples from practice.

Jay's journal reveals his growing involvement with witchcraft before his suicide at age 16.

Jay was a sweet, bright high school student who cared about his grades and his friends. He had ambitions. He was happy. And he thought he could handle anything. He was wrong. When Jay falls in with a crowd that's dabbling in drugs and the occult, he finds himself in over his head and doing things he never thought possible. Fascinated by the dark arts and in love with a dangerous girl, Jay falls deeper and deeper into a life he no longer recognizes...and sees no way out.

In the past decade, the field of comparative cognition has grown and thrived. No less rigorous than purely behavioristic investigations, examinations of animal intelligence are useful for scientists and psychologists alike in their quest to understand the nature and mechanisms of intelligence. Extensive field research of various species has yielded exciting new areas of research, integrating findings from psychology, behavioral ecology, and ethology in a unique and wide-ranging synthesis of theory and research on animal cognition. The Oxford Handbook of Comparative Cognition contains sections on perception and illusion, attention and search, memory processes, spatial cognition, conceptualization and categorization, problem solving and behavioral flexibility, and social cognition processes including findings in primate tool usage, pattern learning, and counting. The authors have incorporated findings and theoretical approaches that reflect the current state of the field. This comprehensive volume will be a must-read for students and scientists who want to know about the state of the art of the modern science of comparative cognition.

Two families are fated to come together. Emerald and Sybil, two sisters, run an offbeat coffee shop in New York. Emerald has a small child to raise alone. She can't seem to move on after having lost her husband in a freak accident three years earlier. Sybil, somewhat of a clairvoyant, saw the accident in a dream. What she can't see is her own fate. John, a doctor, has what most would consider the perfect life: a wife, two children, a nice house, and a successful medical practice. But he is at the point in his life where he is questioning everything, and so is his wife, Allison. Then, there is Mark, Allison's younger brother, a struggling musician with a stream of failed relationships and the complete opposite of his OCD sister. It is color and cold that lead them on a world of discovery from New York to Amsterdam and back.
