The Complete Private Pilot

2021 FAR/AIM - Printed Manual

Private Pilot FAA Airmen Knowledge Test Guide for Computer Testing

One of the most significant books on Aviation History that has been published to date.

Aviation History is an exciting new full-color book that gives both new and experienced pilots a unique perspective on international aviation history. Each of the ten chapters is packed with information containing over 950 photographs and color graphics. Aviation History explores the question \*what was aviation\* from its birth in Annonay, France, in 1783, to the exhilarating accomplishments in space. Through personal profiles, you are able to meet the people who made significant contributions to aviation. You will explore historical evidence and see how historians use the artifacts of aviation to confirm what happened. 636 pages. ISBN# 0-88487-235-1

An updated edition of the essential FAA resource for both beginner and expert pilots.
