How engineers in the mining and oil and gas industries attempt to reconcile competing domains of public accountability. The growing movement toward corporate social responsibility (CSR) urges corporations to promote the well-being of people and the planet rather than the sole pursuit of profit. In *Extracting Accountability*, Jessica Smith investigates how the public accountability of corporations emerges from the everyday practices of the engineers who work for them. Focusing on engineers who view social responsibility as central to their profession, she finds the corporate context of their work prompts them to attempt to reconcile competing domains of accountability—to formal guidelines, standards, and policies; to professional ideals; to the public; and to themselves. Their efforts are complicated by the distributed agency they experience as corporate actors: they are not always authors of their actions and frequently act through others. Drawing on extensive interviews, archival research, and fieldwork, Smith traces the ways that engineers in the mining and

oil and gas industries accounted for their actions to multiple publics—from critics of their industry to their own friends and families. She shows how the social license to operate and an underlying pragmatism lead engineers to ask how resource production can be done responsibly rather than whether it should be done at all. She analyzes the liminality of engineering consultants, who experienced greater professional autonomy but often felt hamstrung when positioned as outsiders. Finally, she explores how critical participation in engineering education can nurture new accountabilities and chart more sustainable resource futures.

Abandoned by her mother and neglected by her scientist father, timid Elizabeth Murmur has only her fearless friend, Zenobia, for company. And Zenobia's company can be very trying! With Zenobia's constant pushing, Elizabeth investigates the history of the house and learns that it does hold a terrible secret: Her father's younger sister disappeared from the grounds without a trace years ago. Elizabeth and Zenobia is a wonderfully compelling middle-grade story about friendship, courage, and the power of the imagination.

The award-winning television series Mystery Science Theater 3000 (1988–1999) has been described as “the smartest, funniest show in America,” and forever changed the way we watch movies. The series featured a human host and a pair of robotic puppets who, while being subjected to some of the worst films ever made, provided ongoing hilarious and insightful commentary in a style popularly known as “riffing.” These essays represent the first full-length scholarly analysis of Mystery Science Theater 3000—MST3K—which blossomed from humble beginnings as a Minnesota public-access television show into a cultural phenomenon on two major cable networks. The book includes interviews with series creator Joel Hodgson and cast members Kevin Murphy and Trace Beaulieu.

Written in taut, mesmerizing, often hilarious scenes drawn from 2004 through 2009, Night Moves captures the fierce friendships and small moments that form us all. Drawing on her personal journals, Jessica Hopper chronicles her time as a DJ, living in decrepit punk houses, biking to bad loft parties with her friends, exploring Chicago deep into the night. And, along the way, she creates an homage to vibrant corners of the city that have been muted by sleek development. A book birthed in the amber glow of Chicago streetlamps, Night Moves is about a transformative moment of cultural history—and how a raw, rebellious writer found her voice.

York Times best-selling author and Tapping expert Jessica Ortner. "The Tapping Solution to Create Lasting Change gets right down to the heart of what it takes to change and have a better, healthier, and more love-filled life." -- Christiane Northrup, M.D. Why do we fear the unknown so intensely that we're willing to shy away from our deepest desires and settle for playing small? Why do we get enthused when we first start something, only to burn out the moment things feel challenging? And why, even when we get the outcomes we desire, do we often struggle to sustain them and instead slip back into old, self-sabotaging patterns? In The Tapping Solution to Create Lasting Change, available for the first time in paperback, New York Times best-selling author Jessica Ortner shares the lessons she's learned about what it feels like to flow through change and how to bring about real transformation in ways that are both authentic and empowering. Her gentle, relatable guidance shows you how to use Tapping, also known as EFT, as a tool for finding the clarity and the ease you crave to move forward; how to navigate the unknown with new energy, hope and an open heart; and how to release the doubts and fears that are clouding your judgment so you can rediscover your true path. It's a new way to look at the one unavoidable constant in life--change--not as an obstacle in our path but as a doorway to joy.

game-changer when it comes to leading women out of weight loss hell.” — Cheryl Richardson, New York Times best-selling author of *The Art of Extreme Self-Care*

Placing conditions on our lives and our happiness has become the norm. We see it all the time: We must establish ourselves before looking for a relationship. We must find love before feeling fulfilled. We must feel less stressed out until we finish everything on our to-do list. But by far, the most common conditions we put on ourselves revolve around our weight—no love until we lose the weight, no peace until we lose the weight, no dream until we lose the weight, no happiness until we lose the weight. But now there is a new option. Using tapping, also known as EFT, Jessica Ortner walks you through a process that helps you drop stress so you can drop pounds—without dieting, deprivation, or extreme exercise. Tapping, a tool that is based on the principles of both ancient acupuncture and modern psychology, helps you address the underlying issues that make your body hold on to weight. It gives you the ability to overcome some of the most common weight loss obstacles. Say goodbye to the cravings, panic, and self-doubt that keep you in a constant fight against your body. From her own struggles with weight loss, along with success stories of some of the thousands of women she’s worked with, Jessica teaches you not only the basics of tapping but also how to use it to address the deeper facets of your weight and self-worth challenges. This process is based on extensive research into the effects of tapping on stress hormones, and it includes simple, step-by-step instructions throughout and easy tapping meditations at the end of each chapter. With this loving and supportive guidance you can learn to create a more empowered relationship with food, find pleasure in exercise, and implement self-care into your life.

"A woman in the 1950s sets out on a road trip from LA to New Jersey, unknowingly to reverse the path her mother traveled thirty years prior on her way to reclaim a lost love. Two friends, Ethel Wild and Florrie Daniels, embark on a cross-country adventure in Florrie's Model T. They head west from New Jersey, each with an important destination: Florrie is moving to Hollywood in hopes of becoming a screenwriter, while Ethel is trying to catch her husband in Nevada before his residency period is complete and he's able to start court proceedings. 1952: Movie star Louise Wilde is summoned to an apartment in Hollywood where she learns she's inherited screenwriter Florence Daniels's entire estate. The two barely know each other, and she's baffled; her confusion only grows when she discovers a cache of old photographs of Ms. Daniels with her mother, who died when Louise was six. She drives to her father's house in New Jersey, hoping he can provide some answers to the mystery. It's 1952, and she's hoping, too, that the time away will give her a chance to decide what to do about her current marriage to a war correspondent home from Korea and fighting his PTSD"--]cProvided by the publisher.

The New Cambridge Shakespeare appeals to students worldwide for its up-to-date

scholarship and emphasis on performance. The series features line-by-line commentaries and textual notes on the plays and poems. Introductions are regularly refreshed with accounts of new critical, stage and screen interpretations. This second edition of The Merchant of Venice retains the text and Introduction prepared by M. M. Mahood and features a new introductory section by Charles Edelman. Where Mahood focuses in her Introduction on the expectations of the play's first audience and on our modern experience of seeing and hearing the drama performed, Edelman explores the play's sexual politics. He also foregrounds recent scholarship on the position of Jews in Shakespeare's time and surveys the international scope and diversity of theatrical interpretations of the text in the 1980s and 1990s. He pays particular attention to the ways in which directors and actors tackle the troubling figure of Shylock.

“Another irresistible thriller” (Entertainment Weekly) from Jessica Knoll—author of Luckiest Girl Alive—the New York Times bestselling story about two sisters whose lifelong rivalry combusts when they join the cast of a reality show—resulting in murder. Brett and Kelly have always toed the line between supportive sisters and bitter rivals. Brett grew up as the problem child, constantly in the shadow of the beautiful and brilliant Kelly—until Kelly tarnished her reputation by getting pregnant while in college and keeping the baby. Now Brett—tattooed, body-positive, engaged to a powerful female lawyer, and only twenty-seven—has skyrocketed to meteoric professional success through a philanthropic cycling business. Untethered by children of her own, she’s fueled by the bitter resentment of her youth. Brett’s become the fan favorite on a reality show featuring hyper-successful, beautiful, and hugely competitive entrepreneurial

women—think *Real Housewives* meets *Shark Tank*. *Goal Diggers*' success means Brett is the object of vitriol and jealousy among her cast mates. Meanwhile, Kelly, penniless and struggling to raise her daughter alone, finds herself crawling back to Brett to beg for a job. When Kelly is cast alongside Brett and her three shameless costars—Stephanie, Lauren, and Jen —shocking secrets come to light. And Brett and Kelly will do whatever it takes to keep the world, and their cast mates, in the dark. The show's executives expect a season filled with the typical catfights and posturing that makes these shows catnip for the viewing public. But no one expects that the fourth season of *Goal Diggers* will end in murder... “Engrossing...Deliciously savage and wildly entertaining” (*People*, *Book of the Week*), *The Favorite Sister* is “a twisty, sexy thriller, jam-packed with wit and snark” (*Glamour*). This “binge-worthy beach read” (*USA TODAY*, 3 out of 4 stars) offers a scathing take on the oft-lionized bonds of sisterhood, and the relentless pressure to stay young, relevant, and salable.

The Legal Environment of Business

An investigation into the nature of violence, terror, and trauma through conversations with a notorious war criminal by Jessica Stern, one of the world's foremost experts on terrorism. Between October 2014 and November 2016, global terrorism expert Jessica Stern held a series of conversations in a prison cell in The Hague with Radovan Karadzic, a Bosnian Serb former politician who had been indicted for genocide and other war crimes during the Bosnian War and who became an inspiration for white nationalists. Though Stern was used to interviewing terrorists in the field in an effort to understand their hidden motives, the conversations she had with Karadzic would profoundly alter her understanding of the mechanics of fear, the motivations of violence, and the psychology of those who perpetrate mass atrocities at a state level and who—like the terrorists she had previously studied—target noncombatants, in violation of ethical norms and international law. How do

leaders persuade ordinary people to kill their neighbors? What is the “ecosystem” that creates and nurtures genocidal leaders? Could anything about their personal histories, personalities, or exposure to historical trauma shed light on the formation of a war criminal’s identity in opposition to a targeted Other? In *My War Criminal*, Jessica Stern brings to bear her incisive analysis and her own deeply considered reactions to her interactions with Karadzic, a brilliant and often shockingly charming psychiatrist and poet who spent twelve years in hiding, disguising himself as an energy healer, while also offering a deeply insightful and sometimes chilling account of the complex and even seductive powers of a magnetic leader—and what can happen when you spend many, many hours with that person.

A book that readers new to the subject can actually understand, this non-intimidating treatment about very complex subject matter contains cases that are extremely topical and interesting. The emphasis is on ethics, allowing readers to identify the values that influence how cases are decided. Authored by experts in the field, this exciting compilation of today’s hot-button issues will prove an excellent introduction to business and legal issues. The legal environment of business is thoroughly treated in an extremely reader-friendly manner; various topics include: the American legal system, dispute resolution, constitutional principles, cyberlaw, white-collar crime, contracts, sales, product and service liability, the law of property, agency law, labor-management relations, environmental law, securities trading and issuance, antitrust laws, and debtor-creditor relations. An excellent desk reference for the legal departments of any business, this book also provides an interesting read for anyone interested in business and ethics.
