African American postal workers and the critical role they played in the U.S. labor and black freedom movements. Historian Philip Rubio, a former postal worker, integrates civil rights, labor, and left movement histories that too often are written as if they happened separately. Centered on New York City and Washington, D.C., the book chronicles a struggle of national significance through its examination of the post office, a workplace with facilities and unions serving every city and town in the United States. Black postal workers--often college-educated military veterans--fought their way into postal positions and unions and became a critical force for social change. They combined black labor protest and civic

traditions to construct a civil rights unionism at the post office. They were a major factor in the 1970 nationwide postal wildcat strike, which resulted in full collective bargaining rights for the major postal unions under the newly established U.S. Postal Service in 1971. In making the fight for equality primary, African American postal workers were influential in shaping today's post office and postal unions.

Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish

enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement

officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for

(1922)

The Risen Phoenix charts the changing landscape of black politics and political culture in the postwar South by focusing on the careers of six black congressmen who served between the Civil War and the turn of the nineteenth century: John Mercer Langston of Virginia, James Thomas Rapier of Alabama, Robert Smalls of South Carolina, John Roy Lynch of

Mississippi, Josiah Thomas Walls of Florida, and George Henry White of North Carolina. Drawing on a rich combination of traditional political history, gender and black history, and the history of U.S. foreign relations, the book argues that African American congressmen effectively served their constituents' interests while also navigating their way through a tumultuous post-Civil War Southern political environment. Black congressmen represented their constituents by advancing a policy agenda encompassing strong civil rights protections, economic modernization, and expanded access to education. Local developments such as antiblack

aggression and violent electoral contests shaped the policies supported by newly elected black congressmen, including the tactical decision to support amnesty for ex-Confederates. Yet black congressmen ultimately embraced their role as national leaders and as spokesmen not only for their congressional districts and states but for all African Americans throughout the South. As these black leaders searched for effective ways to respond to white supremacy, disenfranchisement, segregation, and lynching, they challenged the barriers of prejudice, paving the way for future black struggles for equality in the twentieth century.
