The potato–humble, lumpy, bland, familiar–is a decidedly unglamorous staple of the dinner table. Or is it? John Reader’s narrative on the role of the potato in world history suggests we may be underestimating this remarkable tuber. From domestication in Peru 8,000 years ago to its status today as the world’s fourth largest food crop, the potato has played a starring–or at least supporting–role in many chapters of human history. In this witty and engaging book, Reader opens our eyes to the power of the potato. Whether embraced as the solution to hunger or wielded as a weapon of exploitation, blamed for famine and death or recognized for spurring progress, the potato has often changed the course of human events. Reader focuses on sixteenth-century South America, where the indigenous potato enabled Spanish conquerors to feed thousands of conscripted native people; eighteenth-century Europe, where the nutrition-packed potato brought about a population explosion; and today’s global world, where the potato is an essential food source but also the world’s most chemically-dependent crop. Where potatoes have been adopted as a staple food, social change has always followed. It may be “just” a humble vegetable, John Reader shows, yet the history of the potato has been anything but dull.

A History of the Propitious Esculent

The first major history of Chile's most significant peasant rebellion and the violent repression that followed In 1934, peasants turned to revolution to overturn Chile's oligarchic political order and the profound social inequalities in the Chilean countryside. The brutal military counterinsurgency that followed was one of the worst acts of state terror in Chile until the military dictatorship of Augusto Pinochet (1973–1990). Using untapped archival sources, award-winning scholar Thomas Miller Klubock exposes Chile's long history of political violence and authoritarianism and chronicles peasants' movements to build a more just and freer society. Klubock further explores how an amnesty law that erased both the rebellion and the military atrocities lay the foundation for the political stability that characterized Chile's multi-party democracy. This historical amnesia or olvido, Klubock argues, was a precondition of national reconciliation and democratic rule, which endured until 1973, when conflict in the countryside ended once again with violent repression during the Pinochet dictatorship.

The author recounts his experiences hiding in Nazi-occupied Netherlands and surviving two years at Auschwitz, and describes changes in his life after his liberation.

"This collection of essays brings together some of the finest pieces Hitchens published over the last two decades for the first time in one book, addressing with characteristic wit and erudition the subjects he is best known for, including: the case against God, faith and religious observance; the case for intervention in Iraq; indictments of towering political figures like Bill and Hillary Clinton, Tony Blair, and Henry Kissinger; and celebrations of the writers and thinkers whose work meant most to him"--

What happened at 10 Rillington Place was so shocking and gruesome that even today everyone over a certain age still remembers the case with a shudder. In 1950, Timothy Evans was hanged for the violent murder of his baby daughter; he was also assumed to have murdered his wife. Then, less than three years later, another tenant, John Christie, was found to have killed at least six women, hiding their bodies in the garden, under floorboards and in a concealed kitchen alcove. Christie followed Evans to the gallows. It seemed unlikely that two murderers were living at 10 Rillington Place, and the evidence that emerged in the Christie case eventually led to Evans receiving a pardon. But there was also circumstantial evidence that Evans had indeed killed his wife and child. Crime student Edna Gammon firmly believes that Evans was guilty. In A House To Remember, she explains why.

For two decades, The National Gallery Companion Guide has introduced art lovers to one of the richest collections of Western European paintings in the world, including famous works by the greatest painters--Piero della Francesca, Titian, Rembrandt, Rubens, Velázquez, Ingres, Degas, and many others--as well as masterpieces by less familiar artists. Through Erika Langmuir's insightful commentaries on over 200 pictures, readers can trace the history of Western European painting from the 13th to the 20th century. Combining acute observation with persuasive prose, she enables the reader to develop an eye for style and technique, and to appreciate continuity and innovation in imagery and genre. This revised edition upholds the publication's tradition of erudition and beautiful design, and reflects the most current scholarship on the National Gallery's collection, including entries on recent acquisitions, such as Titian's magisterial Diana and Actaeon and Diana and Callisto, and George Bellows's Men of the Docks.

Two hundred years before Hardy disguised it as Casterbridge, Dorchester was a typical English county town, of middling size and unremarkable achievements. But on 6 August 1613 much of it was destroyed in a great conflagration, which its inhabitants regarded as a ‘fire from heaven’, the catalyst for the events described in this book. Over the next twenty years, a time of increasing political and religious turmoil all over Europe, Dorchester became the most religiously radical town in the kingdom. The tolerant, paternalist Elizabethan town oligarchy was quickly replaced by a group of men who had a vision of a godly community in which power was to be exercised according to religious commitment rather than wealth or rank. One of this book’s most remarkable achievements is the re-creation, with an intimacy unique for an English community so distant from our own, of the lives of those who do not make it into history books. We glimpse the ordinary men and women of the town drinking and swearing, fornicating and repenting, triumphing over their neighbours or languishing in prison, striving to live up to the new ideals of their community or rejecting them with bitter anger and mocking laughter. In it subtle exploration of human motives and aspirations, in its brilliant and detailed reconstruction, this book shows how much of the past we can recover when in the hands of a master historian.
