95% of your cycling performance depends on the single most important component on your bicycle; you! It's fun to upgrade to the latest cycling gear, but nothing comes close to improving your comfort, safety, and performance like upgrading the very muscles you use with each pedal stroke. Trouble is, who has the time and energy to practice lengthy strength workouts in addition to a taxing cycling program? That's why calisthenics is the perfect solution. Its holistic approach to conditioning ensures you develop all of the functional assets you need to be at your best including strength, mobility, and stability. The simple and efficient nature of calisthenics training means you don't need to spend money on fancy equipment or endure long and exhausting workouts. The best rides of your life are still out there and the methods with this book will help you find them all for less than the cost of a simple water bottle.

Quick Calculus 2nd Edition A Self-Teaching Guide Calculus is essential for understanding subjects ranging from physics and chemistry to economics and ecology. Nevertheless, countless students and others who need quantitative skills limit their futures by avoiding this subject like the plague. Maybe that's why the first edition of this self-teaching guide sold over 250,000 copies. Quick Calculus, Second Edition continues to teach the elementary techniques of differential and integral calculus quickly and painlessly. Your "calculus anxiety" will rapidly disappear as you work at your own pace on a series of carefully selected work problems. Each correct answer to a work problem leads to new material, while an incorrect response is followed by additional explanations and reviews. This updated edition incorporates the use of calculators and features more applications and examples. ".makes it possible for a person to delve into the mystery of calculus without being mystified." --Physics Teacher

Grammatical terms - Characteristics of Japanese grammar - Basic conjugations - Verbs - Connection forms of important expressions - Numerals and counters - Compound words.

All the fundamentals. No fluff. Learn more with less! A truly revolutionary American Government textbook, Christine Barbour's AmGov: Long Story Short, responds to the needs of today's students and instructors through brevity and accessibility. The succinct ten chapters are separated by tabs that make it easy to skim, flip, revisit, reorient, and return to content quickly. Reading aids like bullets, annotations and arrows walk students through important facts and break up the material in short, engaging bites of information that highlight not only what's important but why it's important. Though brief, this core book is still robust enough to provide everything that students need to be successful in their American Government course. Whether for the on-the-go student who doesn't have time to read and digest a lengthy chapter, the instructor who wants a book that will stay out of their way and leave room for plenty of supplementary reading and activities, AmGov is a perfectly simplified foundation for a successful American Government course.

Improve Your Time Management: Teach Yourself

A Self-Teaching Guide

Essential Japanese Grammar

Essential Japanese Grammar is an indispensable study guide for students of the Japanese language at all levels. Long the standard in Japanese language education, it provides clear, jargon-free explanations of how Japanese grammar works and offers hundreds of example sentences. It is an essential handbook for self-study or for the classroom and should be a valued resource for years to come. A strong foundation in grammar is vital to those wishing to learn Japanese as a whole. Essential Japanese Grammar presents a number of unique features. First, grammatical terminology has been kept to a minimum so that extensive prior knowledge of grammar is not required. Second, abundant example sentences written in Japanese characters (kana and kanji) followed by romanji and English translations. Third, the authors have tried to reveal aspects of grammar that may not be found in comparable grammar books such as rare Japanese verbs, adjectival nouns, clauses adverbs, etc. This Japanese grammar book contains: parts of speech. sentence constructions. conjugations forms. speech styles and tones. accentuation rules. essential words and functional elements. an appendix for referencing and cross-referencing Japanese words.

A leveled reader featuring Nickelodeon's Shimmer and Shine! When a sneezy bug causes Nickelodeon's Shimmer and Shine to get sick and sneeze uncontrollably, it's up to Leah to find the cure for her two favorite genies! Boys and girls ages 3 to 7 will love this leveled reader. It's perfect for a read while sick at home—or anytime! This Nickelodeon read-along contains audio narration.

Essential Japanese Kanji uses a natural approach to learning the most basic kanji encountered in everyday situations in Japan. This new edition is packed with fun quizzes and useful exercises for those wishing to improve their Japanese ability. It has been repackaged in a more compact, value-for-money size while losing none of the content that has made it a long-selling favorite. Key features of Essential Japanese Kanji include: Introductory quizzes to introduce everyday situations in which the Kanji are used A vocabulary section to help you understand the readings and meanings of each Kanji New character charts presenting all the Kanji clearly and systematically Definitions, readings, stroke orders and compounds for each character Practice sections help you to improve your skills Advanced Placement Exam practice questions follow the format of the College Board exam Everyday tasks like finding a street address or buying a train ticket in Japan require a basic working knowledge of kanji—the Japanese system of writing based on Chinese characters. Essential Japanese Kanji, teaches you the kanji you'll need in everyday situations in lessons prepared by teachers from the prestigious University of Tokyo. Improve your Time Management is the definitive guide to the basics of time management - the art of organising your life so that you are in control. You don't need complicated equipment, dozens of staff or a six-month break to learn how to save time and achieve more. All you need is a willingness to try some of the ideas in this book and the energy to start now. Improve your Time Management starts by asking you what you want to do with your life and explains how to work out how you really spend your time. It helps you to find out what you do that wastes time and tells you how to eliminate it then shows you how to plan your life better so that you deal with important activities and tasks at the most appropriate times. It tackles time-wasting activities such as paperwork, phone calls and meetings. And just to make sure that you aren't the only person in your office working at optimum efficiency, it explains how to instil good time management practices in your staff. By the

time you finish the book, you will not only be using your time more effectively but will have more of it. This book will help you turn time into your best friend rather than your worst enemy. NOT GOT MUCH TIME? One, five and ten-minute introductions to key principles to get you started. AUTHOR INSIGHTS Lots of instant help with common problems and quick tips for success, based on the author's many years of experience. TEST YOURSELF Tests in the book and online to keep track of your progress. EXTEND YOUR KNOWLEDGE Extra online articles at [www.teachyourself.com](http://www.teachyourself.com) to give you a richer understanding of time management. TRY THIS Innovative exercises illustrate what you've learnt and how to use it.

□□□

The Workbook for the Revised 3rd Edition

For every student, a time eventually comes when basic grammar is no longer the problem. You can say a few words about the weather, or the fact that, yes, you are feeling hungry, or explain that you are going out for the day — and actually be understood. Beyond that, however, the going gets tough. You cannot make pertinent comments about philosophy, politics, art, science, law, or business — simply because you lack the necessary vocabulary. In fact, you may not be able to say that you are interested in "philosophy" at all, because you don't know the Japanese word for it. How do you go about acquiring this specialized vocabulary (most of which consists of kanji compounds)? Usually by spending hundreds of hours reading Japanese books or picking through a dictionary. This book is an attempt to shorten that process by collecting a good number of the more commonly used key words from crucial areas of human endeavor. Now, without spending years mastering the written language, you can occasionally come up with the right word at the right moment in a conversation that is striving toward comprehensibility. This can even be done by students who do not have a strong grasp of kanji, for they can learn the words as sounds. The areas covered in the book are ideas and theories; philosophy and religion; politics and government; the fine arts, humanities, and social sciences; science and technology; law and justice; and business and economics. This division allows the student to go the category where vocabulary is needed and learn the key words given there, rather than floundering around in a dictionary and hoping one has found what is needed. A further advantage of this arrangement is that certain kanji tend to be repeated over and over in certain categories: for example, the kanji read "gaku" in the science section of the book. This type of repetition allows the student to get a feeling for certain kanji and usages. Beginning students can pick up individual words and put them in sentences of their own making, no matter how simple, and advanced students can get a better understanding of context by reading the sample sentences in the book. Since no one, even in their native tongue, can hope to be proficient in every field, advance students can quickly pick up key words in areas they are unfamiliar with. Previously published in the Power Japanese series under the same title.

Japanese for Busy People is the most popular Japanese language textbook series in the world. With over 20 components including texts, workbooks, CDs, videos and teacher's manuals, it is also one of the most comprehensive. Now, a decade after its first revision, the entire series is being redesigned, updated and consolidated to meet the needs of 21st-century students and businesspeople who want to learn natural, spoken Japanese as effectively as possible in a limited amount of time. The book features not only a sleek, new design but also a unit structure that groups thematically linked lessons together, making it easier than ever to learn Japanese. Moreover, it now comes with a CD containing audio for the dialogues and listening exercises from the text. The exercises in the book have also been thoroughly revised to incorporate more comprehension and production tasks. Many of these exercises are illustrated, making for a stimulating learning experience, and the purpose of each one is clearly stated. This first of three volumes introduces "survival Japanese"—the absolute minimum amount of Japanese needed to live in Japan. Thus, the vocabulary and grammatical items it introduces are limited to about a third of what is typically introduced in a first-year course. In addition, the book features notes on Japanese culture intended to expand the learner's understanding of Japan, its customs and people. Japanese for Busy People I is available in two formats: romanized and kana. The Romanized Version uses romanized Japanese throughout, with kana in the Opening Dialogues of each lesson. The Kana Version—exposing students to hiragana and katakana from the very beginning—uses only kana. The content of the two books is otherwise exactly the same. The companion volume, Japanese for Busy People 1: The Workbook for the Revised 3rd Edition contains a variety of illustrated exercises for mastering the basic sentence patterns presented in the main text. Students who have completed a year of German read Brecht in their second year, those of Spanish read Cervantes. Teachers of first and second-year Japanese can often find nothing comparable. "Why aren't your students reading literature?" they are asked. "Why not Soseki? Or Murakami?" What are instructors of Japanese doing wrong? Nothing, according to the authors of this volume. Rather, they argue, such questions exemplify the gross misunderstandings and unreasonable expectations of teaching reading in Japanese. In Acts of Reading, the authors set out to explore what reading is for Japanese as a language, and how instructors should teach it to students of

Japanese. They seek answers to two questions: What are the aspects of reading in Japan as manifested in Japanese society? What L2 (second-language) reading problems are specific to Japanese? In answering the first and related questions, the authors conclude that reading is a socially motivated, purposeful act that is savored and becomes a part of people's lives. Reading instruction in Japanese, therefore, should include teaching students how to work with text as the Japanese do in Japanese society. The second question relates more directly to traditional concerns in L2 reading. The authors begin with a general theory of reading. They then offer a welcome glimpse into the rich and complex perspectives—sometimes conflicting, other times symbiotic—on what reading is and how it is performed in L1 and L2, and, most importantly, on the web of interconnections between the phenomenology of reading and the demands it places on teaching approaches to reading in Japanese. With essays by Charles J. Quinn, Jr., Fumiko Harada, and Chris Brockett Foreword by J. Marshall Unger

A dual-language edition of Chinese stories—many appearing in English for the first time This new volume of eight short stories, with parallel translations, offers students at all levels the opportunity to enjoy a wide range of contemporary literature from the world's most spoken language, without having to constantly refer back to a dictionary. The stories—many of which appear here in English for the first time—are by well-known writers as well as emerging voices. From a story by Li Rui about the honest simplicity of a Shanxi farmer to one by Ma Yuan exposing the seamy underside of contemporary urban society, they are infused with both rural dialect and urban slang and feature a wide range of styles and points of view. Complete with notes, the stories make excellent reading in either language.

Japanese for Busy People I

**Collocations are word combinations that occur in natural speech more frequently than can be explained by chance. In English, we say, "take a bath" (or "have a bath" in British English), but in Japanese the equivalent is "get in a bath," o-furo ni hairu. The verb hairu is the one that collocates with o-furo. It has long been recognized that the study of collocations can lead to more natural language production, and yet until now there has been no book on the subject for learners of Japanese. Common Japanese Collocations will be the first resource to introduce the most frequently used noun-and-verb and noun-and-adjective combinations. The book is divided into six thematic chapters centering on daily life. Each chapter presents more than a hundred key entries, which consist of a noun and a selection of words that go with that noun. Some collocations come with example sentences that demonstrate how the word pair can be used in a sentence. In addition, throughout the book there are notes on common usage errors.**

**Volume 2 (4th ed.) updated to include the 196 kanja approved in 2010 for general use.**

**This comprehensive book is specially developed for the candidates of JNU: B.A. (Hons.) in Foreign Languages (Chinese, French, German, Korean, Japanese, Arabic, Persian, Russian and Spanish) All India Entrance Exam for the purpose of Study and practice of questions based on the latest pattern of the examination. Previous Years Papers (Solved) have been provided in the book. Detailed Explanatory Answers have also been provided for the selected questions for Better Understanding of the Candidates.**

**The volume presents contributions to the analysis of data in the information age - a challenge of growing importance. Scientists and professionals interested in classification, data analysis, and statistics will find in this book latest research results as well as applications to economics (especially finance and marketing), archeology, bioinformatics, environment, and health.**

*Essential Japanese Kanji, Volume 2 is an easy approach to learning the most basic kanji encountered in everyday situations in Japan. This new edition Packed with fun quizzes and useful exercises and has been repackaged in a more compact, value-for-money size while losing none of the content that has made it a long-selling favorite. Key features of Essential Japanese Kanji include: Introductory quizzes to introduce everyday situations in which the Kanji are used A vocabulary section to help you understand the readings and meanings of each Kanji New character charts presenting all the Kanji clearly and systematically Definitions, readings, stroke orders and compounds for each character Practice sections help you to improve your skills Advanced Placement Exam practice questions follow the format of the College Board exam Everyday tasks like finding a street address or buying a train ticket in Japan require a basic working knowledge of kanji—the Japanese system of writing based on Chinese characters. Essential Japanese Kanji, teaches you the kanji you'll actually need in everyday situations in lessons prepared by teachers from the prestigious University of Tokyo.*

*"The Japanese language uses a set of symbols called 'hiragana' (to spell Japanese words), 'katakana' (to spell foreign words), and 'kanji' (to represent entire words or names). Over the course of BOOK 1, we will teach you groups of hiragana piece-by-piece to gradually build up your understanding and familiarity."--Introduction.*

*Provides proven score-raising techniques, drills for all sections, a list of the most important vocabulary words, and five full-length practice exams, with answers, along with tips on scholarships, admissions, and financial aid.*

*W. E. B. Du Bois was a public intellectual, sociologist, and activist on behalf of the African American community. He profoundly shaped black political culture in the United States through his founding role in the NAACP, as well as internationally through the*

*Pan-African movement. Du Bois's sociological and historical research on African-American communities and culture broke ground in many areas, including the history of the post-Civil War Reconstruction period. Du Bois was also a prolific author of novels, autobiographical accounts, innumerable editorials and journalistic pieces, and several works of history. One of the most neglected and obscure books by W. E. B. Du Bois, In Battle for Peace frankly documents Du Bois's experiences following his attempts to mobilize Americans against the emerging conflict between the United States and the Soviet Union. A victim of McCarthyism, Du Bois endured a humiliating trial-he was later acquitted-and faced political persecution for over a decade. Part autobiography and part political statement, In Battle for Peace remains today a powerful analysis of race in America. With a series introduction by editor Henry Louis Gates, Jr., and an introduction by Manning Marable, this edition is essential for anyone interested in African American history.*

This is an invaluable study guide for learning basic Japanese characters. The first 100 Japanese Kanji is intended for beginning students, or experienced speakers who need to practice their written Japanese. Kanji are an essential part of Japanese language and together with kana (hiragana and katakana) comprise the written components of Japanese. This book presents the kanji characters that are most commonly used. They have been carefully selected for rapid and effective learning. Each kanji's readings, meanings, and common compounds are presented, and romanized pronunciations for English speakers (romanji) are included as well. Printed with gray guidelines, stroke order guides are designed to be used over to teach students the standard sequence of strokes used to write each character. Three indexes at the back allow characters to be looked up as with a dictionary or by their readings. Students who wish to practice writing kanji will find extra practice sheets available. This book includes: Step-by-step stroke order diagrams for each character. Special bold grid lines to practice writing characters. Words and phrases using each kanji. Romanizations (romanji) to help identify and pronounce every word.

The Business of Words examines the practices of 'high-end' language workers or wordsmiths where we find words professionally designed, institutionally managed, and, inevitably, objectified for status and profit. Aligned with existing research on language and political economy in critical sociolinguistics and discourse studies, the volume offers a novel, complex insight into the relatively elite practices of language workers such as advertisers, dialect coaches, publishers, judges, translators, public relations officers, fine artists, journalists, and linguists themselves. In fact, the book considers what academics might learn about language from other wordsmiths, opening a space for 'dialogue' between those researchers of language and those who also stake a claim to linguistic expertise and a way with words. Bringing together an array of international scholars from the cognate fields of discourse studies, sociolinguistics, and linguistic anthropology, this book is an essential resource for researchers, advanced undergraduate, and postgraduate students of English language, linguistics, applied linguistics, communication and media studies, and anthropology.

This book constitutes the refereed proceedings of the 8th Language and Technology Conference: Challenges for Computational Science and Linguistics, LTC 2017, held in Poznan, Poland, in November 2017. The 31 revised papers presented in this volume were carefully reviewed and selected from 108 submissions. The papers selected to this volume belong to various fields of: Speech Processing; Multiword Expressions; Parsing; Language Resources and Tools; Ontologies and Wordnets; Machine Translation; Information and Data Extraction; Text Engineering and Processing; Applications in Language Learning; Emotions, Decisions and Opinions; Less-Resourced Languages.

*The method that's helped thousands in the U.S. and Japan learn Japanese successfully. The Japanese language has two primary writing systems, kanji characters—which are based on Chinese characters and hiragana and katakana—a mnemonics based alphabet. This handy book teaches you a new mnemonics-based method to read and write the 430 highest-frequency kanji characters. Along with its sister book: Japanese Hiragana and Katakana for Beginners it provides a complete introduction to written Japanese. Japanese Kanji for Beginners contains everything you need to learn the kanji characters required for the Advanced Placement Japanese Language and Culture Exam. It is designed for use by high school or college students as well as independent learners. The kanji learned in this book closely adhere to those introduced in every major Japanese language textbook. Key features of Japanese Kanji for Beginners include: The 430 highest-frequency kanji characters 44 simple, easy-to-follow lessons Concise information on kanji elements, readings and pronunciations Extensive exercises, drills, and writing practice Downloadable content with printable flash cards, practice quizzes and extra exercises The Extensive downloadable content contains a set of printable kanji flash cards to assist*

learners in reviewing and memorizing the kanji in the book. It also provides sample vocabulary quizzes in a multiple-choice format similar to those in the AP exam, as well as additional exercises that further reinforce the newly learned kanji.

This book focuses on the pronunciation and reading of the Kanji presented in *Remembering the Kanji V. 1*. The Kanji in this volume are organized into groups based on the building blocks of the characters to facilitate their study.

The Japanese-Language Proficiency Test (日本語能力試験 Nihongo Nōryoku Shiken), or JLPT, is a standardized criterion-referenced test to evaluate and certify Japanese language proficiency for non-native speakers, covering language knowledge, reading ability, and listening ability. The JLPT has five levels: N1, N2, N3, N4 and N5. ... N4 and N5 measure the level of understanding of basic Japanese mainly learned in class. N1 and N2 measure the level of understanding of Japanese used in a broad range of scenes in actual everyday life. N3 is a bridging level between N1/N2 and N4/N5.

This innovative and original volume brings together studies that apply cognitive and functional linguistics to the study of the L2 acquisition of Japanese. With each article grounded on the usage-based model and/or conceptual notions such as foregrounding and subjectivity, the volume sheds light on how cognitive and functional linguistics can help us understand aspects of Japanese acquisition that have been neglected by traditionalists.

How do you earn the MEXT scholarship for graduate studies in Japan? Mastering the MEXT Scholarship Application: The TranSenz Guide is your step-by-step guide to the scholarship application process and maximizing your chances of success. Regardless of whether you're hearing about the scholarship for the first time or if you have experience applying in the past, this series will take you from being just one more applicant hoping to get lucky to creating and applying a deliberate approach to maximize your chances of success. How to Apply for the MEXT Scholarship will help you begin that process, test your eligibility and competitiveness, and set you up with the strategy and mentality you need to stand out from the competition. You will learn: 1. What the MEXT Scholarship offers plus where, when, and how to apply 2. The mindset you need to set yourself apart from other applicants and win the scholarship 3. The difference between the embassy- and university-recommended application processes, and how to get started with each 4. How competitive the application is and why you need to develop an application strategy 5. How to perform an eligibility self-evaluation - including checking to see if you have the grades to apply 6. How to establish your application strategy and position yourself to overcome the competition and become one of the few, elite scholarship winners Throughout the book, you will find optional exercises and downloadable worksheets, to help you determine your eligibility and create your application strategy to maximize your application's potential. Distilled Expertise from Thousands of Applicants Travis Senzaki has spent seven years working in international student recruiting and acceptance for Japanese universities, including three years as the direct point of contact for all MEXT scholarship inquiries and applications at a large, private university. He has personally processed hundreds of applications and has used his experience to help over 5000 MEXT scholarship applicants through the process through the TranSenz Blog, one of the world's leading independent sources of information and advice on the MEXT scholarship. Travis' Mastering the MEXT Scholarship Application: The TranSenz Guide builds on his blog articles and well over 2000 questions submitted through the blog, as well as exhaustive research of successful applicants' approaches and experiences to bring you the best practices for every step of the application process. Get started today! This is a long application process - over a year in most cases - and you want to give yourself months to prepare in advance. Download and start reading today!

The second volume of the best selling *Speak Japanese in 90 Days* is here! *Speak Japanese in 90 Days Volume 2* continues where *Volume 1* left off. Like *Volume 1*, all of the prep work is done for you. This book teaches you not only what, but how to study, broken down into 90 simple lessons that can be studied in one day each. *Volume 2* covers the rest of the grammar for the JLPT (Japanese Language Proficiency Test) N4 and N3 levels. The content includes detailed, easy to understand explanations of all the grammar points as well as 16 short readings for students to practice what they have studied. If you're a student looking for a reference guide to N3 grammar points, concise readings to help you practice, or a veteran student of *Volume 1*, this book is exactly what you are looking for! *Speak Japanese in 90 Days: A Self-study Guide to Becoming Fluent Volume 1 and 2* give students all the tools they need to become effective self learners.

We cover all the letters in detail and give you tips on how to easily read Korean handwriting or fonts. This is why we believe you will find this book super useful even if you already know how to read Hangeul.

A great story can lead a reader on a journey of discovery—especially if it's presented in two languages! Beautifully illustrated in a traditional style, *Japanese Stories for Language Learners* offers five compelling stories with English and Japanese language versions appearing on facing pages. Taking learners on an exciting cultural and linguistic journey, each story is followed by detailed translator's notes, Japanese vocabulary lists, and grammar points along with a set of discussion questions and exercises. The first two stories are very famous traditional Japanese folktales: *Urashima Taro (Tale of a Fisherman)* and *Yuki Onna (The Snow Woman)*. These are followed by three short stories by notable 20th century authors: *Kumo no Ito (The Spider's Thread)* by Akutagawa Ryunosuke (1892-1927) *Oborekaketa Kyodai (The Siblings Who Almost Drowned)* by Arishima Takeo (1878-1923) *Serohiki no Goshu (Gauche the Cellist)* by Miyazawa Kenji (1896-1933) Reading these stories in the original Japanese script—and hearing native-speakers read them aloud in the accompanying free audio recording—helps students at every level deepen their comprehension of the beauty and subtlety of the Japanese language. Learn Japanese the fun way—through the country's rich literary history.

Do you know what the hardest thing for a Japanese learner is? Finding PROPER reading material that they can handle...which is precisely the reason we've written this book! You may have found the best teacher in town or the most incredible learning app around, but if you don't put all of that knowledge to practice, you'll soon forget everything you've obtained. This is why being engaged with interesting reading material can be so essential for somebody wishing to learn a new language. Therefore, in this book we have compiled 20 easy-to-read, compelling and fun stories that will allow you to expand your vocabulary and give you the tools to improve your grasp of the wonderful Japanese language. *How Japanese Short Stories for Beginners works:* - Each

chapter possesses a funny, interesting and/or thought-provoking story based on real-life situations, allowing you to learn a bit more about the Japanese culture. - Having trouble understanding Japanese characters? No problem - we provide you with the English translation below each paragraph, allowing you to fully grasp what you're reading! - The summaries follow a synopsis in Japanese and in English of what you just read, both to review the lesson and for you to see if you understood what the tale was about. Use them if you're having trouble. - At the end of those summaries, you will be provided with a list of the most relevant vocabulary from that chapter, as well as slang and sayings that you may not have understood at first glance! Do not get lost trying to understand or pronounce it all, either, as all of the vocabulary words are Romanized for your ease of learning! - Finally, you'll be provided with a set of tricky questions in Japanese, allowing you the chance to prove that you learned something in the story. Whether it's true or false, or if you're doing the single answer questions, don't worry if you don't know the answer to any - we will provide them immediately after, but no cheating! We want you to feel comfortable while learning Japanese; after all, no language should be a barrier for you to travel around the world and expand your social circles! So look no further! Pick up your copy of Japanese Short Stories for Beginners and level up your Japanese language skills right now!
