*The authors of VOYAGES IN WORLD HISTORY never forget that history is made up of the stories of people. Each chapter of the text centers on a story -- a traveler’s account that highlights the book’s main theme, the constant movement of people, goods, and ideas. The travelers include merchants, poets, rulers, explorers, soldiers, missionaries, and scholars, and their voyages provide a framework for each chapter that will capture students’ interest and draw them into the stories of the people, places, and events crucial to understanding world history. Special features highlight connections across chapters, societies, and periods, helping students understand historical events in a global context. Available in the following split options: VOYAGES IN WORLD HISTORY, Third Edition Complete, Volume 1: To 1600, and Volume 2: Since 1500. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. Emily Bronte’s beloved novel Wuthering Heights has been adapted countless times for film and television over the decades. Valérie V. Hazette offers here a historical and transnational study of those adaptations, presenting the afterlife of the book as a series of cultural journeys that focus as much on the readers, film-makers, and viewers as on the dramas themselves. Taking in the British serial film; French, Mexican, and Japanese versions; the British television serials; and more, this richly theoretical volume is the first comprehensive global analysis of the adaptation of Wuthering Heights for film and television.*

*Apply software-inspired management concepts to accelerate modern marketing In many ways, modern marketing has more in common with the software profession than it does with classic marketing management. As surprising as that may sound, it’s the natural result of the world going digital. Marketing must move faster, adapt more quickly to market feedback, and manage an increasingly complex set of customer experience touchpoints. All of these challenges are shaped by the dynamics of software—from the growing number of technologies in our own organizations to the global forces of the Internet at large. But you can turn that to your advantage. And you don’t need to be technical to do it. Hacking Marketing will show you how to conquer those challenges by adapting successful management frameworks from the software industry to the practice of marketing for any business in a digital world. You’ll learn about agile and lean management methodologies, innovation techniques used by high-growth technology companies that any organization can apply, pragmatic approaches for scaling up marketing in a fragmented and constantly shifting environment, and strategies to unleash the full potential of talent in a digital age. Marketing responsibilities and tactics have changed dramatically over the past decade. This book now updates marketing management to better serve this rapidly evolving discipline. Increase the tempo of marketing’s responsiveness without chaos or burnout Design “continuous” marketing programs and campaigns that constantly evolve Drive growth with more marketing experiments while actually reducing risk Architect marketing capabilities in layers to better scale and adapt to change Balance strategic focus with the ability to harness emergent opportunities As a marketer and a manager, Hacking Marketing will expand your mental models for how to lead marketing in a digital world where everything—including marketing—flows with the speed and adaptability of software.*

*Merzian Press Military Monograph 59. Sixth Edition (January 2012) . The big adventure for the men of D Troop, 94th Cavalry Reconnaissance Squadron, Mechanized (their official name), really began on October 8, 1944, when following a long cramped train ride they arrived at Camp Shanks, New Jersey. The journey which started in Camp Campbell, Kentucky, was finally over, and morale took a noticeable turn for the better. This was the staging area for the New York Port of Embarkation (POB), and the start of the Big One for which they had trained so long and so hard. At that point in time the author’s Main Occupational Specialty (MOS) was to man the .50-caliber machine gun in a “Peep” (the armored soldier’s name for a jeep). Later, he became the gunner of an M8 armored car. The story of the author and his unit starts with their shipment overseas on the troopship Gen. James A. Parker and their landing in Marseilles, France. They undergo more training, followed by their first foray into combat in early December 1944. The rest of the story unfolds as the author and his unit move inexorably towards Germany and the end of the war. The story will be familiar to all veterans, with episodes of camaraderie, laughter, combat, fear, losses, tears, peace and joy. This is not a war story, nor is it a story about war; rather it is a story about men whose lives had been entangled in a war. The material for it has been derived from several sources: first of all from Troop and Platoon diaries in the author’s possession which were written during the months of occupation shortly after the end of the conflict; secondly from the published history of the 14th Armored Division, and lastly drawn from several published texts which pertain to the events and places which are depicted. That it is written in the first person was not the author’s original intention, as it is meant to be a narrative about a team of which he was only one player, but once started this seemed the only practical way to accomplish the end product. Contents: Foreword; Chapter 1: Embarkation; Chapter 2: Arrival in France; Chapter 3: Mount Up; Chapter 4: First Combat; Chapter 5: Taking Gumbshelm; Chapter 6: Radio Watch; Chapter 7: Into Germany; Chapter 8: Booby Trap; Chapter 9: Holding Position Inside Germany; Chapter 10: Operation NORTHWIND; Chapter 11: Hatten-Rittershofen; Chapter 12: Withdrawal; Chapter 13: Spring Thaw; Chapter 14: Siegfried Line; Chapter 15: Across the Rhine; Chapter 16: The Final Curtain. 52 B&W photos; 5 maps; 13 documents; 1 illustration.*

Krakauer’s page-turning bestseller explores a famed missing person mystery while unraveling the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. “Terrifying… Eloquent… A heart-rending drama of human yearning.” —New York Times In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. He had given \$25,000 in savings to the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the unforgettable story of Into the Wild. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertraw, and wander in the raw, unrefined experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless’s short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless’s innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of legend. One of the most important new book the renowned historian Serge Gruzinski returns to two episodes in the sixteenth century which mark a decisive stage in global history and show how China and Mexico experienced the expansion of Europe. In the early 1520s, Magellan set sail for Asia by the Western route, Cortes seized Mexico and some Portuguese based in Malacca dreamed of colonizing China. The Aztec Eagle was destroyed but the Chinese Dragon held strong and repelled the invaders – after first seizing their cannon. For the first time, people from three continents encountered one other, confronted one other and their lives became entangled. These events were of great interest to contemporaries and many people at the time grasped the magnitude of what was going on around them. The Iberians succeeded in America and failed in China. The New World became inseparable from the Europeans who were to conquer it, while the Celestial Empire became, for a long time to come, an unattainable goal. Gruzinski explores this encounter between civilizations that were different from one another but that already fascinated contemporaries, and he shows that our world today bears the mark of this distant age. For it was in the sixteenth century that human history began to be played out on a global stage. It was then that connections between different parts of the world began to accelerate, not only between Europe and the Americas but also between Europe and China. This is what is revealed by a global history of the sixteenth century, conceived as another way of reading the Renaissance, less Eurocentric and more in tune with our age.

What does “care” mean in contemporary society? How are caring relationships practised in different contexts? What resources do individuals and collectives draw upon in order to care for, care with and care about themselves and others? How do such relationships and practices relate to broader social processes? Care shapes people’s everyday lives and relationships and caring relations and practices influence the economies of different societies. This interdisciplinary book takes a nuanced and context-sensitive approach to exploring caring relationships, identities and practices within and across a variety of cultural, familial, geographical and institutional arenas. Grounded in rich empirical research and discussing key theoretical, policy and practice debates, it provides important, yet often neglected, international and cross-cultural perspectives. It is divided into four sections covering: caring within educational institutions; caring amongst communities and networks; caring and families; and caring across the life-course. Contributing to broader theoretical, philosophical and moral debates associated with the ethics of care, citizenship, justice, relationality and entanglements of power, Critical Approaches to Care is an important work for students and academics studying caring and care work in the fields of health and social care, sociology, social policy, anthropology, education, human geography and politics.

Meet Zuri, our sophisticated pagan ancestor as she lives her life in Christchurch in 2200 BC. It is the Neolithic period and the first civilisation in Britain along the mystical River Avon, an area called ‘Avonlands’. Her rituals and mythology embrace nature to an degree that we no longer understand. Her tribe is contrasted with the wealthy pensioners, the oldest population in an easy-to-understand manner. Forty chapters, beginning with a detailed discussion on oscillation, the book goes on to discuss optical fibres, lasers and nanotechnology. A rich pedagogy helps in understanding of every concept explained. A book which has seen, foreseen and incorporated changes in the subject for more than 25 years, it continues to be one of the most sought after texts by the students.

“In 1954, Annie Wilkins, a sixty-three-year-old farmer from Maine, embarked on an impossible journey. She had no relatives left, she’d lost her family farm to back taxes, and her doctor had just given her two years to live—but only if she ‘lived restfully.’ … Instead, she decided she wanted to see the Pacific Ocean just once before she died. She bought a cast-off brown gelding named Tarzan, donned men’s dungarees, loaded up her horse, and headed out from Maine in mid-November, hoping to beat the snow. She had no map, no GPS, no phone. But she had her ex-racehorse, her faithful mutt, and her own unfailing belief that Americans would treat a stranger with kindness.”

Who says cooking is for herbodies? Veteran Texas food writer Robb Walsh served as a judge at a chuck wagon cook-off, worked as a deckhand on a shrimp boat, and went mayhaw-picking in the Big Thicket. As he drove the length and breadth of the state, Walsh sought out the best in barbecue, burgers, kolaches, and tacos; scoured museums, libraries, and public archives; and unearthed vintage photos, culinary stories, and nearly-forgotten dishes. Then he headed home to Houston to test the recipes he’ d collected back in his own kitchen. The result is Texas Eats: The New Lone Star Heritage Cookbook, a colorful and deeply personal blend of history, anecdotes, and recipes from all over the Lone Star State. In Texas Eats, Walsh covers the standards, from chicken-fried steak to cheese enchiladas to barbecued brisket. He also makes stops in East Texas, for some good old-fashioned soul food; the Hill Country, for German- and Czech-influenced favorites; the Panhandle, for traditional cowboy cooking; and the Gulf Coast, for timeless seafood dishes and lost classics like pickled shrimp. Texas Eats even covers recent trends, like Viet-TEXan fusion and Pakistani fajitas. And yes, there are recipes for those beloved-but-obscure gems: King Ranch casserole, parisa, and barbecued crabs. With more than 200 recipes and stunning food photography, Texas Eats brings the richness of Texas food history vibrantly to life and serves up a hearty helping of real Texas flavor.

*The triumphant true story of a woman who rode her horse across America in the 1950s, fulfilling her dying wish to see the Pacific Ocean, from the #1 New York Times bestselling author of The Perfect Horse and The Eighty-Dollar Champion "The gift Elizabeth Letts has is that she makes you feel you are the one taking this trip. This is a book we can enjoy always but especially need now."--Elizabeth Berg, author of The Story of Arthur Truluv In 1954, sixty-three-year-old Maine farmer Annie Wilkins embarked on an impossible journey. She had no money and no family, she had just lost her farm, and her doctor had given her only two years to live. But Annie wanted to see the Pacific Ocean before she died. She ignored her doctor's advice to move into the county charity home. Instead, she bought a cast-off brown gelding named Tarzan, donned men's dungarees, and headed south in mid-November, hoping to beat the snow. Annie had little idea what to expect beyond her rural crossroads; she didn't even have a map. But she did have her ex-racehorse, her faithful mutt, and her own unfailing belief that Americans would treat a stranger with kindness. Annie, Tarzan, and her dog, Depeche Toi, rode straight into a world transformed by the rapid construction of modern highways. Between 1954 and 1956, the three travelers pushed through blizzards, forded rivers, climbed mountains, and clung to the narrow shoulder as cars whipped by them at terrifying speeds. Annie rode more than four thousand miles, through America's big cities and small towns. Along the way, she met ordinary people and celebrities--from Andrew Wyeth (who sketched Tarzan) to Art Linkletter and Groucho Marx. She received many offers--a permanent home at a riding stable in New Jersey, a job at a gas station in rural Kentucky, even a marriage proposal from a Wyoming rancher. In a decade when car ownership nearly tripled, when television's influence was expanding fast, when homeowners began locking their doors, Annie and her four-footed companions inspired an outpouring of neighborliness in a rapidly changing world.*
