She was a poor Southern tobacco farmer who worked the same land as her slave ancestors, yet her cells—taken without her knowledge—became one of the most important tools in medicine: The first “immortal” human cells grown in culture, which are still alive today, though she has been dead for more than sixty years. HeLa cells were vital for developing the polio vaccine; uncovered secrets of cancer, viruses, and the atom bomb’s effects; helped lead to important advances like in vitro fertilization, cloning, and gene mapping; and have been bought and sold by the billions. Yet Henrietta Lacks remains virtually unknown, buried in an unmarked grave. Henrietta’s family did not learn of her “immortality” until more than twenty years after her death, when scientists investigating HeLa began using her husband and children in research without informed consent. And though the cells had launched a multimillion-dollar industry that sells human biological materials, her family never saw any of the profits. As Rebecca Skloot so brilliantly shows, the story of the Lacks family—past and present—is inextricably connected to the dark history of experimentation on African Americans, the birth of bioethics, and the legal battles over whether we control the stuff we are made of. Over the decade it took to uncover this story, Rebecca became enmeshed in the lives of the Lacks family—especially Henrietta’s daughter Deborah. Deborah was consumed with questions: Had scientists cloned her mother? Had they killed her to harvest her cells? And if her mother was so important to medicine, why couldn’t her children afford health insurance? Intimate in feeling, astonishing in scope, and impossible to put down, The Immortal Life of Henrietta Lacks captures the beauty and drama of scientific discovery, as well as its human consequences.*

From mainstream blockbusters to art house cinema, narrative and narration are the driving forces that organize a film. Yet attempts to explain these forces are often mired in notoriously complex terminology and dense theory. Warren Buckland provides a clear and accessible introduction that explains how narrative and narration work using straightforward language. Narrative and Narration distills the basic components of cinematic storytelling into a set of core concepts: narrative structure, processes of narration, and narrative agents. The book opens with a proceeds to illustrate key ideas through numerous case studies. Each chapter guides readers through different methods that they can use to analyze cinematic storytelling. Buckland also discusses how departures from traditional modes, such as feminist narratives, art cinema, and unreliable narrators, can complicate and corroborate the book’s understanding of narrative and narration. Examples include mainstream films, both classic and contemporary; art house films of every stripe; and two relatively new styles of cinematic storytelling: the puzzle film and the

In this compelling book, storyteller extraordinaire Matthew Dicks presents wonderfully straightforward and engaging tips and techniques for constructing, telling, and polishing stories that will hold the attention of your audience (no matter how big or small). He shows that anyone can learn to be an appealing storyteller, that everyone has something “storyworthy” to express, and, perhaps most important, that the act of creating and telling a tale is a powerful way of understanding and enhancing your own life.

*#1 NEW YORK TIMES BESTSELLER • More than one million copies sold! A “brilliant” (Upita Nyong’o, Time), “poignant” (Entertainment Weekly), “soul-nourishing” (USA Today) memoir about coming of age during the twilight of apartheid “Noah’s childhood stories are told with all the hilarity and intellect that characterizes his comedy, while illuminating a dark and brutal period in South Africa’s history that must never be forgotten.”—Esquire Winner of the Thurber Prize for American Humor and an NAACP Image Award • Named one of the best books of the year by The New York Time, USA Today, San Francisco Chronicle, NPR, Esquire, Newsday, and Booklist Trevor Noah’s unlikely path from apartheid South Africa to the desk of The Daily Show began with a criminal act: his birth. Trevor was born to a white Swiss father and a black Xhosa mother at a time when such a union was punishable by five years in prison. Living proof of his parents’ indiscretion, Trevor was kept mostly indoors for the earliest years of his life, bound by the extreme and often absurd measures his mother took to hide him from a government that could, at any moment, steal him away. Finally liberated by the end of South Africa’s tyrannical white rule, Trevor and his mother set forth on a grand adventure, living openly and freely and embracing the opportunities won by a centuries-long struggle. Born a Crime is the story of a mischievous young boy who grows into a restless young man as he struggles to find himself in a world where he was never supposed to exist. It is also the story of that young man’s relationship with his fearless, rebellious, and fervently religious mother—his teammate, a woman determined to save her son from the cycle of poverty, violence, and abuse that would ultimately threaten her own life. The stories collected here are by turns hilarious, dramatic, and deeply affecting. Whether subsisting on caterpillars for dinner during hard times, being thrown from a moving car during an attempted kidnapping, or just trying to survive the life-and-death pitfalls of dating in high school, Trevor illuminates his curious world with an incisive wit and unflinching honesty. His stories weave together to form a moving and searingly funny portrait of a boy making his way through a dangerous world in a dangerous time, armed only with a keen sense of humor and a mother’s unconventional, unconditional love.*
