

## Just Westies 2018 Calendar

**Poetry. Literary Nonfiction. Hybrid Genre. Latinx Studies. LGBTQIA Studies. California Interest. Reading ATTENDANCE trains your attention on plants and animals until you can't stop noticing them. It's a way of moving through the natural world--which turns out to include the whole world. An almanac, a logbook, a devotional, a witness statement, poetry. A documentary not in the sense of capturing but in the sense of being a creature paying attention to the world we already live in. It's a hybrid text: One year of two people reaching their arms across styles and genres. At times notes, at times lists, or run-on sentences, or poems, or things that want to be poems, but always plants, and always animals. The words are offered up with no correction or with the revision exposed. This is writing that includes where it comes from or writing that painfully doesn't become. We hold so many questions about love and attention and violence. "ATTENDANCE is a meditation, an ushering-in of the kind of mindfulness that life deserves. One that leaves readers like me nodding and saying yes to lines like these: 'Just try to want different things' and 'You can do anything you want with me as long as you do it slowly first.' Carlos and Kaminer are power, and this book is plain gorgeous."--Natashia Deón "I expected to be moved by this collaborative work from Rachel McLeod Kaminer and Rocío Carlos--they are two distinct and beautiful poets after all. But what I didn't expect from ATTENDANCE is the way it brought the life around me to life. How the birds and the trees and the landscape began to move in ways I hadn't noticed before, how my skin began to feel enveloped by the details of the day. Great art has always made me know that I belonged in the world, that I wasn't wandering through it alone. And ATTENDANCE, as much as any recent book, has reminded me of this truth."--Chiwan Choi**

*climate activist Greta Thunberg was eleven, her parents Malena and Svante, and her little sister Beata, were facing a crisis in their own home. Greta had stopped eating and speaking, and her mother and father had reconfigured their lives to care for her. Desperate and searching for answers, her parents discovered what was at the heart of Greta's distress: her imperiled future on a rapidly heating planet. Steered by Greta's determination to understand the truth and generate change, they began to see the deep connections between their own suffering and the planet's. Written by a remarkable family and told through the voice of an iconoclastic mother, *Our House Is on Fire* is the story of how they fought their problems at home by taking global action. And it is the story of how Greta decided to go on strike from school, igniting a worldwide rebellion.*

Lucky for Sophie and Chloe, Grandma Tillie knows how to royally entertain her grandchildren. To their delight, whenever Grandma Tillie babysits, she seems to disappear, only to be replaced by a parade of lovable characters. There's Tillie Vanilly with the bright pink hair, star of The Tillie Vanilly Show, who loves to tell jokes and dance the conga; Chef Silly Tillie with the lampshade hat who offers up a dinner of Worm Chili with Glue Gravy; and Madame Frilly Tillie with the sparkly eyeglasses and towel turban, the world's most creative bath-bubble stylist. Sophie and Chloe wonder who will appear to tuck them into bed: Hiker Hilly Tillie, Explorer Chilly Tillie, or Zoo-lady Gorilly Tillie? To their surprise, it's the best character of all—just plain Grandma Tillie. There's someone out there, someone who kills on Valentine's Day. Josie and Melissa are scared, especially when they receive threatening valentines. Then the murders begin. Who is sending these horrible valentines to the girls of Shadyside High? And who will be the next to die?

From the author of the critically acclaimed Blue Plate series comes the second novel in the How To Score series about a rescue dog shelter owner and a wide receiver who needs a little rescuing himself. Caught between the media's crosshairs and his own questionable decisions, Colorado Blizzards wide receiver Chris Lalonde has a choice: watch his storied career burn to the ground or rehab his bad-boy image at the local dog shelter. His goal: rescue the oldest, saddest, most mange-infested canines in the hopes that the pups can rescue his reputation in return. What he doesn't expect? Hazel Grant, shelter owner, do-gooder, and beautiful all-American girl next door. She has no time for Chris's excuses, antics, or cheesy pick-up lines...challenge accepted. Hazel Grant can't believe she got saddled with Denver's cockiest—and most eligible—football player for a volunteer—she needs people she can trust and count on, not a man packaged in abs and wrapped in confidence who thinks scoring touchdowns is an honest day's work. But since the shelter is in need of some serious TLC, she can't afford to turn away help. Chris and Hazel get along like cats and dogs. But when it comes to Chris Lalonde, there's a new surprise around every corner, and Hazel finds that, like the pups she cares for, Chris has hidden depths, secret talents, and meets every test she throws at him. As the pressure mounts to save the shelter—and Chris's career—lust bubbles to the surface, and suddenly love becomes anybody's game...

*The First Book of Enoch was lost for centuries to the western world although it was kept by the Ethiopian church. In 1773 the Scottish explorer James Bruce heard that the Book of Enoch may have been in Ethiopia so traveled there and procured three copies. In 1821 Richard Laurence, a professor of Hebrew at Oxford, produced the first English translation. Fragments of ten Enoch manuscripts were found among the Dead Sea Scrolls. It is quoted by New Testament Book of Jude. This book contains all sections of The First Book of Enoch: The Book of the Watchers The Book of Parables of Enoch The Astronomical Book The Book of Dream Visions The Epistle of Enoch It is of particular interest to anyone with an interest in angels and demons, or Bible history in general. The Books of Enoch: The Complete Set also contains 2 Enoch (also known as The Slavonic Enoch, or The Secrets of Enoch) and contains the Extended Version; and 3 Enoch (also known as The Hebrew Book of Enoch.)*

*The exuberant, exhilarating photographs of dogs underwater that have become a sensation From the water's surface, it's a simple exercise: a dog's leap, a splash, and then a wet head surfacing with a ball, triumphant. But beneath the water is a chaotic ballet of bared teeth and bubbles, paddling paws, fur and ears billowing in the currents. From leaping Lab to diving Dachshund, the water is where a dog's distinct personality shines through; some lounge in the current, paddling slowly, but others arch their bodies to cut through the water with the focus and determination of a shark. In more than eighty portraits, award-winning pet photographer and animal rights activist Seth Casteel captures new sides of our old friends with vibrant underwater photography that makes it impossible to look away. Each image bubbles with exuberance and life, a striking reminder that even in the most loveable and domesticated dog, there are more primal forces at work. In Underwater Dogs, Seth Casteel gives playful and energetic testament to the rough-and-tumble joy that our dogs bring into our lives.*

Some people own a dog, whilst others are owned by their dogs – but either way the relationship between each is unique and special. Dogs come into our lives, bringing with them a level of devotion never before experienced . They make us laugh at their antics and funny ways, and when they leave us after a life-too-short, they break our hearts and leave our homes empty and echoing. This book is a collection of stories, photographs and illustrations that will make you laugh and cry. The stories are based on real dogs, who have been lovingly recreated by Stephanie as handmade felt models. A book that will appeal to both creative felt-makers and dog lovers alike. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 11.0px Arial}

Welcome to Subirdia presents a surprising discovery: the suburbs of many large cities support incredible biological diversity. Populations and communities of a great variety of birds, as well as other creatures, are adapting to the conditions of our increasingly developed world. In this fascinating and optimistic book, John Marzluff reveals how our own actions affect the birds and animals that live in our cities and towns, and he provides ten specific strategies everyone can use to make human environments friendlier for our natural neighbors. Over many years of research and fieldwork, Marzluff and student assistants have closely followed the lives of thousands of tagged birds seeking food, mates, and shelter in cities and surrounding areas. From tiny Pacific wrens to grand pileated woodpeckers, diverse species now compatibly share human surroundings. By practicing careful stewardship with the biological riches in our cities and towns, Marzluff explains, we can foster a new relationship between humans and other living creatures—one that honors and enhances our mutual destiny.

Kyle Blake likes plans. So far, they & rsquo;re pretty simple: Finish her senior year of high school, head off to a good college, find a cute boyfriend, graduate, get a good job, get married, have a heterosexual shebang. Nothing is going to stand in the way of that plan. Not even Stella Lewis. Stella Lewis also has a plan: Finish her senior year as cheer captain, go to college, find a boyfriend, graduate, get a good job, get married, have a heterosexual shebang with (and maybe even date) a girl for the first time and go from there. Fate has other plans for Kyle and Stella when they're paired up in their AP English class and something between them happens. It's confusing and overwhelming and neither of them know what to do about it. One thing they do know is that their connection can't be ignored. The timing just isn't right. But is it the right time for falling in love?

He’s a dog with a phone . . . My dog sends me texts. Yeah. It’s weird. When October Jones figured out he could send text messages to himself on his mobile phone, he naturally decided that the best use of this discovery was to send passive-aggressive messages to himself under the guise of his bulldog. And so the exasperating, slightly delusional, and utterly endearing Dog and his alter-ego, BatDog, were born. Texts from Dog features Dog’s attempts to keep the neighborhood safe from the likes of Mr. Postman and his arch-nemesis Cat-Cat—he has managed to only smash three TVs and a patio door in the process. And in between crime fighting sprees and run-ins with the squirrel mafia, there are romantic interludes with pillows, fetch sessions gone terribly awry, and the abusive banter only a bromance between man and his text-savvy dog can spawn. For those of us who have ever had a conversation with a pet in our heads, Texts from Dog will make you laugh out loud and perhaps even make you think twice about leaving your pet home alone for the day.

The ability to pay attention is a key component of effective learning. Just think of all the times in your life when parents, teachers, bosses, and coaches have told you to pay attention to what you are doing. You would think that with all of the attention paid to paying attention, we would be pretty good at it. The problem is we're not, because most of us have never been taught how. Commonly adopted methods like forced concentration are actually counterproductive to learning and achieving our goals. In addition, too much focus on future goals and rewards takes our attention away from what we need to be doing in

order to achieve them. Luckily, there is another way, a better way: the mindful way. The Mindful Way To Study: Dancing With Your Books is a guide to help students, professionals, and other lifelong learners develop a better approach to their educational and career pursuits. By using mindfulness, or the practice of bringing full awareness to the present moment, the authors blend the latest research with entertaining stories and specific techniques to teach readers how to truly pay attention, and even learn to enjoy it.
