Expectations in primary English are high, particularly in reading. There is an emphasis on inference and deduction together with vocabulary development: two key elements for preparing pupils to access texts at a higher level. At the same time, there is also a change in the rhetoric around guided reading with teachers trying different pedagogies in order to fully prepare pupils for the demands of the reading curriculum. This book explores the various approaches to developing higher level readers. The KS3 curriculum plays a critical part in giving students the best possible start to their secondary education and preventing the need for intervention later on. This timely book provides detailed guidance on how to develop a robust, multifaceted, inclusive and challenging KS3 curriculum in English that provides a secure and progressive link between KS2 and KS4. Featuring examples of curriculum models and audits of current practice, chapters cover key topics such as: developing the planning cycle; transitioning between primary and secondary English; assessment in KS3 English; creating a model that supports and challenges students of all levels; LAC and SPAG: divisive or cohesive abbreviations; speaking and listening in the KS3 English curriculum; using multimodal texts; examples of how meaningful homework can successfully embed itself in a KS3 English curriculum model. Make Key Stage 3 Matter in English will be an invaluable resource for KS3 English coordinators, teachers and all those involved in the planning and delivery of the KS3 English curriculum.

The last two decades have witnessed a considerable reaction to the progressive utopianism of the 1960s. In education debates all over the English-speaking world, the talk is now of competition, back to basics, league tables, the demands of the market. This reaction has gone too far. Children need to be helped not only to achieve basic literacy but to read "critically," to discriminate, to evaluate, to enjoy great literature. It is not enough to help children to achieve literacy if this simply means they read only sufficiently well to be seduced by advertisers and tabloid newspapers. The essays in this book are by people engaged in the "promotion" of English, be they primary teachers or university lecturers, novelists or poets, publishers or social commentators, politicians or professors.

Presenting an informed view of current educational policy, this text encourages students of secondary English to take a creative and independent interpretation of government initiatives in order to achieve effective teaching practice. It provides a good balance of theoretical material with practical ideas for application in the classroom and strongly encourages reflection and critical thought. This new edition includes: coverage of the National Curriculum 2000, the National Literacy Strategy and the new Key Stage 3 Strategy a new chapter on how to teach ICT a new chapter on Inclusion including differentiation, cultural diversity, EAL and teaching across the ability range new material on how to teach Shakespeare an introduction to cross-curricular themes including citizenship, and social, moral and spiritual values. Written in an accessible and conversational style, this text poses an excellent degree of challenge for all students on initial teacher training courses.
