Thomas Ford is the only survivor of the car crash which killed his wife. He is also the only witness willing to identify the reckless driver who caused the crash. But the driver has no intention of ever letting himself be identified, not to mention his powerful father has planned... In the end, destiny pulls them all far from the city, to a moonlit hillside, where white light and mysterious gas fill the air, a place where death can come stalking in the form of a white wolf, but perhaps also redemption can appear. By then, though, the young driver will already have taken his destiny into his own hands, and the life of a second woman hangs in the balance.

We sold 347 eBooks in January of 2011. In just six months, by July 2011, we were selling 65,000 eBooks a month. From that modest beginning, by 2011's end, we had sold over 400,000 eBooks. This book will give you the details on how we did that and built a seven-figure indie publishing house in just two years. Whether you have been published by a New York publisher, an independent press, an ePublisher, self-published or considering all of your options, this book contains all the information you need to make an informed

decision about your career as an author in today's fast moving digital world. We start out with content and theory, giving you a feel for where the industry has been and where it is going. We cover the various types of publishing, goal setting and help you find where you fit in the 3 P's (Product, Platform and Promotion). From there we go into the digital process and the nuts and bolts of covers, editing and uploading. Finally we cover pre and post publication strategies. Everything from creating your own unique branding plan, social media and marketing, pricing, understanding the market, metadata and discoverability. All of which is your roadmap to being a successful author regardless of your path to publication. Its a great time to be an author. Lead, follow or get the hell out of the way!

In this book, the editors explain how students enrolled in two digital forensic courses

at their institution are exposed to experiential learning opportunities, where the students acquire the knowledge and skills of the subject-matter while also learning how to adapt to the ever-changing digital forensic landscape. Their findings (e.g., forensic examination of different IoT devices) are also presented in the book. Digital forensics is a topic of increasing importance as our society becomes "smarter" with more of the "things" around us being internet- and inter-connected (e.g., Internet of Things (IoT) and smart home devices); thus, the increasing likelihood that we will need to acquire data from these things in a forensically sound manner. This book is of interest to both digital forensic educators and digital forensic practitioners, as well as students seeking to learn about digital forensics.

This is the authoritative, bestselling guide that professionals and students turn to for a complete introduction to motivational interviewing (MI), the powerful approach to facilitating change. The book elucidates the four processes of MI -- engaging, focusing, evoking, and planning -- and vividly demonstrates what they look like in action. A wealth of vignettes and interview examples illustrate the "dos and don'ts" of successful implementation in diverse contexts. Highly accessible, the book is infused with respect and compassion for clients. The companion Web page provides additional helpful resources, including reflection questions, an extended bibliography, and annotated case material. New to This Edition: Reflects major advances in understanding and teaching MI. Fully restructured around the new four-process model. All chapters now authored by Miller and Rollnick. Additional case examples and counseling situations. Reviews the growing evidence base and covers ways to assess MI fidelity. Pedagogical Features Include: Online reflection questions and annotated cases, ideal for classroom discussion. Bulleted key points at the end of each chapter. Engaging boxes with special topics and personal reflections. Extended bibliography and quick-reference glossary. This title is part of the Applications of Motivational Interviewing Series, edited by Stephen Rollnick and William R. Miller.
