This book is
dedicated to

Aristid
Lindenmayer

Since then the

Lindenmayer's

newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major

typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However,

this
misunderstanding
turned out to be
very fortunate.

The wrong
spelling "DOL"
of "DOL" could
be read in the
suggestive way:
DO L Indeed,
hundreds of
researchers have
followed this
suggestion. Some
