If asked to list the greatest innovators of modern American poetry, few of us would think to include Jay-Z or Eminem in their number. And yet hip hop is the source of some of the most exciting developments in verse today. The media uproar in response to its controversial lyrical content has obscured hip hop's revolution of poetic craft and experience: Only in rap music can the beat of a song render poetic meter audible, allowing an MC's wordplay to move a club-full of eager listeners. Examining rap history's most memorable lyricists and

reappeared in the late twentieth century after a period of relative calm, there was the tendency to regard it as a new phenomenon, without precedent. The psychological study of terrorism has never been much in fashion. But this neglect has left a number of crucial questions unanswered. ## Stories Translated from the Korean Folk Lore

***At twenty-one, Kathy Valentine was at the Whisky in Los Angeles when she met a guitarist from a fledgling band called the Go-Go's—and the band needed a bassist. The Go-Go's became the first multi-platinum-selling, all-female band to play instruments themselves, write their own songs, and have a number one album. Populated with vivid portraits of Valentine's interactions during the 1980s with musicians and actors from the Police and Rod Stewart to John Belushi and Rob Lowe, All I Ever Wanted is a deeply***

**As “Paris is France,” so Seoul may be said to be Korea, for it is the centre from which nearly every thing for the country either originates or is disseminated. While some of the provincial capitals are said to contain more people and to be more celebrated for certain reasons, Seoul is the home**

**of the King and the Mecca of his faithful subjects. A description of this city may, therefore, answer for all. The capital is a city of some 300,000 inhabitants, half of whom, perhaps, live in the extensive suburbs without the walls. It lies in a basin of granite sand, surrounded by high mountains and their projecting ridges, over which climbs the high, thick, encircling wall of masonry; pierced at convenient points by massive, pagoda-roofed gates, amply strong enough for defense against the weapons of war in use at the time of building this great relic of seclusion. The city is traversed by broad avenues from which runs a perfect labyrinth of narrow streets. Originally none of these streets were less than twenty feet wide, and some of**

But the streets have all been encroached upon by the little temporary thatched booths of the petty retail dealers, so that, with the exception of the approaches to the palaces, the line is broken, the streets made tortuous, and only here and there a broad open spot indicates the original width of the thoroughfare. Originally every street was furnished with its sewer—open in the smaller streets, while the avenues were drained by great covered sewers of stonework. Occasionally the proprietor of one of the little temporary booths would put a foundation under his structure, bridging over the sewer, until now the streets**

The magnificent grounds of a nobleman, with their artificial lakes, flower gardens, water-worn pillars of ancient rock and quaintly twisted trees, may be enclosed by a row of tumble-down, smoke-begrimed servant-quarters that would never indicate the beauty to be found hidden within its forbidding exterior.
