Sheila Delany's spirited translation of Osbern Bokenham's Legendys of Hooly Wummen (1443-1447) makes available in modern English the first all-female hagiography. Closely translated from elaborate, Latinate Middle English verse into fluent prose, A Legend of Holy Women contains the Augustinian friar's version of the stories of 13 women saints from gospel, apocrypha, martyrology, and high-medieval history. As Delany writes in her comprehensive introduction, "Bokenham gives us not only an all-female hagiography—an authorial decision significant in its own right—but a gallery of powerful, articulate women who are indubitably worthy to do God's work. Some of them are well-educated, some give sound political advice to a monarch, some preach, converting hundreds and thousands to Christianity, some walk on water or perform resurrection. Nor are they pacifists; on the contrary, they call for divinely inflicted vengeance and approve violence in their cause." Delany argues that Geoffrey Chaucer's Legend of Good Women provided a principle of selection and of arrangement for Bokenham's array of saints. She suggests further that the friar's choice of all-female hagiography, and his poetic representation of holy women, are closely linked to patronage and politics in fifteenth-century England. The translation is accompanied by full notes which, along with the introduction, make the book accessible to a wide audience. It will appeal to all readers interested in the representation of women in late-medieval culture as well as to scholars and students in medieval, renaissance, religious, and women's studies.

Dr. James Canton, a renowned futurist, CEO of the Institute for Global Futures, and Fortune 1000 advisor, charts a course to steer you through the volatile changes that lie 5, 10, and 20 years ahead. The Extreme Future is this generation's Future Shock. Alvin Toffler's classic book on what's next and how to prepare for tomorrow. Get ready for fast, radical and complex change. Get ready for the Extreme Future. Our world is constantly buffeted by new and dramatic changes that we can't fully grasp. No one is fully prepared for the challenges, crises and risks that lie ahead. The Extreme Future is a blueprint for what's next and how to navigate these changes. An advisor to three White House's spanning more than 30 years, Dr. Canton challenges us that with the right information about future trends it is possible to identify probable outcomes. It is possible, with the right information to navigate the Extreme Future. The book covers the following major trends: How climate change and energy trends will reshape the planet How shifting population trends will transform the workforce How radical innovation trends will competitively drive business How astounding medicine trends will enhance people's life How dangerous terrorism trends will threaten the individual. How the rise of China will bring on a new global power struggle The answers to these questions are not only available, but contained within these pages. The Extreme Future is the forecasting handbook for the twenty-first century.

This volume represents the first attempt in the field of language pedagogy to apply a systems approach to issues in English language education. In the literature of language education, or more specifically, second or foreign language learning and teaching, each topic or issue has often been dealt with independently, and been treated as an isolated item. Taking grammar instruction as an example, grammatical items are often taught in a sequential, step-by-step manner; there has been no "road map" in which the interrelations between the various items are demonstrated. This may be one factor that makes it more difficult for students to learn the language organically. The topics covered in this volume, including language acquisition, pedagogical grammar, and teacher collaboration, are viewed from a holistic perspective. In other words, language pedagogy is approached as a dynamic system of interrelations. In this way, "emergent properties" are expected to manifest. This book is recommended for anyone involved in language pedagogy, including researchers, teachers, and teacher trainers, as well as learners.

Ecocity Berkeley offers innovative city planning solutions that would work anywhere, but the book offers a vision of what the future can be like with a fair amount of planning beforehand. This book is very inspirational, and could be used to advocate similar planning improvements in any large city. This book is meant for anyone interested in environmental activism, and anyone looking for serious innovations in their city.

Global growth is projected to be slightly faster in 2020 than the post-crisis low registered last year. While growth could be stronger if reduced trade tensions lead to a sustained reduction in uncertainty, the balance of risks to the outlook is to the downside. Growth in emerging market and developing economies is also expected to remain subdued, continuing a decade of disappointing outcomes. A steep and widespread productivity growth slowdown has been underway in these economies since the global financial crisis, despite the largest, fastest, and most broad-based accumulation of debt since the 1970s. In addition, many emerging market and developing economies, including low-income countries, face the challenge of phasing out price controls that impose heavy fiscal cost and dampen investment. These circumstances add urgency to the need to implement measures to rebuild macroeconomic policy space and to undertake reforms to rekindle productivity growth. These efforts need to be supplemented by policies to promote inclusive and sustainable long-term growth and accelerate poverty alleviation. Global Economic Prospects is a World Bank Group Flagship Report that examines global economic developments and prospects, with a special focus on emerging market and developing countries, on a semiannual basis (in January and June). The January edition includes in-depth analyses of topical policy challenges faced by these economies, whereas the June edition contains shorter analytical pieces.

"Menacing, intricately plotted, [and] intensely disorienting." --Booklist Deep in the heat and silence of rural Tennessee, down an untraveled road, sits the forgotten town of Three Summers. Mere miles away, on an overgrown river island, stands the house that once presided over the grand plantation of Angel's Landing, moss-draped, decrepit. Waiting. Failing crime writer Bradley Ellison and former prostitute Missy Holiday are drawn to this place, fleeing a world turned against them. For Brad, it is work—he must find a compelling story before the true-crime magazine he writes for judges him expendable. For Missy, it is recuperation—four years at "the club" have left her drained. But the price of peace is high, and soon Brad and Missy discover that something hides behind the quiet. Something moves in the night. Something that manifests itself in bizarre symbols and disturbing funeral rites. Something that twists back through time and clings in the dust of the ancient house. A presence they must uncover before their own past catches up with them.

"One who does not have a Muslim training finds it difficult to understand what he or she sees and hears when observing a Muslim at worship alone or with others in a mosque. The eleventh century writer Al-Ghazzali supplies the required information in his Book of the Worship, of which the present work is a translation. The Introduction brings together the acts and utterances which constitute the formal ceremony, which is still practiced today, called 'the Worship', and gives an account of the times when this ceremony is used in the religious life of the Muslim. Annotations attempt to make clear the allusions and the technical terms, the knowledge of which Al-Ghazzali takes for granted because he wrote his description of the Worship for Muslims."-BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. This open access book introduces readers to the vision on future cities and urban lives in connection with "Society 5.0": which was proposed in the 5th Basic Science and Technology Plan by Japan's national government for a technology-based, human-centered society, emerging from the fourth industrial revolution. The respective chapters summarize the findings and suggestions of joint research projects conducted by H-UTokyo Lab. Through the research collaboration and discussion, this book explores the future urban lives under the concept of "Society 5.0", characterized by the key phrases of data-driven society, knowledge-intensive society, and non-monetary society, and suggests the directionality to which the concept should aim as Japan's technology-led national vision. Written by Hitachi's researchers as well as academics from a wide range of fields, including engineering, economics, psychology and philosophy at the University of Tokyo, the book is a must read for members of the general public interested in urban planning, students, professionals and researchers in engineering and economics.

Many guys enjoy taking sexy and revealing photographs of their girlfriends - and sometimes of their wives. The motives behind these pictures varies but whatever the reason the result is frequently quite enjoyable. In this book, editor and collector Bob Baron brings together some prime examples of this photographic hobby. The models are all amateur, girl next door types who possess the charm and genuine smiles that the professionals lack. Some are more daring than others but they are all well worth a look.

From an Islamic perspective, although the ownership of wealth is with God, humans are gifted with wealth to manage it with the objective of benefiting the human society. Such guidance means that wealth management is a process involving the accumulation, generation, purification, preservation and distribution of wealth, all to be conducted carefully in permissible ways. This book is the first to lay out a coherent framework on how wealth management should be conducted in compliance with guiding principles from edicts of a major world religion.

"Never has the world needed strong and wise American leadership more than it does now. Abramsky's eminently readable description of Obama's personal gifts makes it clear that he is remarkably suited to be the president the moment requires." -Former New York Governor Mario M. Cuomo From the moment he burst onto the national political scene, Barack Obama has fascinated people more than any politician in decades. Many biographers have already retold his story, but no previous book truly explains how his mind works, what passions drive him, or what makes him such an effective leader. This concise profile explores the ideas, inspirations, and experiences that have shaped the president. It quotes a wide network of sources, including many who broke long-standing vows of silence to offer their candid and surprising observations. Award-winning journalist Sasha Abramsky interviewed close to one hundred of Obama's current and former friends, colleagues, classmates, teachers, staff, mentors, basketball buddies, fellow Chicago activists, media consultants, editors, and even his next-door neighbors from Hyde Park. These people each know a part of Obama's life and career, which the author blends the pieces into a uniquely detailed analysis. Abramsky explains the origins of Obama's extraordinary poise, focus, and self-confidence; his powerful storytelling and speaking skills; and his empathetic listening style. He shows why Obama's experiences as a community organizer are widely misunderstood and more influential than many people realize. And he explores how Obama found a unique way to bridge America's racial divides. No previous book has delved so deeply into the events and people that helped make Barack Obama the man he is today.

In nine poignant stories spiked with humor and intelligence, Chitra Banerjee Divakaruni captures lives at crossroad moments—caught between past and present, home and abroad, tradition and fresh experience. A widow in California, recently arrived from India, struggles to adapt to a world in which neighbors are strangers and her domestic skills are deemed superfluous in the award-winning "Mrs. Dutta Writes a Letter." In "The Intelligence of Wild Things," a woman from Sacramento visits her brother in Vermont to inform him that back in Calcutta their mother is dying. And in the title story, a painter looks to ancient myth and the example of her grandmother for help in navigating her first real crisis of faith. Knowing, compassionate and expertly rendered, the stories in The Unknown Errors of Our Lives depict the eternal struggle to find a balance between the pull of home and the allure of change.

"This book is about focus - it's about seeing that within these new strategies, technologies and frameworks fighting for our attention, lay the tried and true tenants of good business - because innovation is nothing but a bright and shiny new toy, unless it actually works. UnBranding is here to remind you that you can't fix rude staff, mediocre products and a poor brand reputation with a fancy new app. We are going to learn from 100 branding stories that will challenge your assumptions about business today and teach valuable, actionable lessons. It's not about going backwards, it's about moving forward with purpose, getting back to the core of good branding while continuing to innovate and improve without leaving your values behind"--

From #1 New York Times bestselling author Lisa Jackson comes a pulse-pounding novel featuring two of her most acclaimed characters. New Orleans detectives Rick Bentz and Reuben Montoya—as a series of ritual slayings draw a psychology student back to a decaying asylum. . . . Eve Renner loved Cole Dennis—until the moment he tried to kill her. That was three months ago, when Eve was lured to a cabin where she found an old friend brutally murdered. Eve is almost positive it was Cole's face she saw right before she was shot. But her memories were too shaky to stand up to trial. Cole is a free man again. And a new string of killings has begun. The murders all link back to Our Lady of Virtues, the asylum where Eve's father worked as a doctor. She wandered those hallways as a child, exploring hidden rooms and chambers, too young to understand what was happening there. Now, with every victim found, each body tattooed with a number, the pieces of a deadly puzzle fall into place—and all point back to Eve and the ruins of the once-grand hospital. Detective Reuben Montoya and his partner, Rick Bentz, once convinced of Cole's guilt, now suspect a deeper evil at work. Eve knows she has little choice but to return to Our Lady of Virtues—and to trust Cole in her search for answers. But as Eve's memories gradually return, they only lead her closer to danger, toward the final, meticulously planned act of a killer obsessed with vengeance—and with her.
