Conversions begin in the brain. Every purchase starts with a decision, and every decision is shaped by consumer psychology. This book explains how mental shortcuts (cognitive biases) affect your customers' decision making and shows you how to be more persuasive online. Philippe Aimé and Jochen Grünbeck are optimisation addicts and have been at the forefront of digital marketing since the beginning. Inspired by behavioural economists like Daniel Kahneman, Dan Ariely and Richard Thaler, the techniques described in Smart Persuasion leverage powerful decision-making biases to make marketing more effective. Alongside these behavioural insights, Smart Persuasion incorporates research from marketing experts such as Jonah Berger, Robert Cialdini and Roger Dooley. Principles relating to attention and perception, as well as the cognitive effects that make consumers predictably irrational, are distilled into concrete website optimisation strategies. Drawing from hundreds of unique studies, Smart Persuasion lists proven effects such as Anchoring and Framing. Each one is illustrated with case-studies, examples and ideas that you can apply immediately. Using the persuasive strategies outlined in this book will allow you to influence consumers more effectively, unlocking your website's potential. All profits from the sale of this book help provide educational resources for children in Africa.

In picturesque Rosewood, Pennsylvania, neighbors gossip over picket fences, and gleaming SUVs sit in every crushed-granite driveway. But recently, friendly smiles have been replaced with suspicious glares and accusatory whispers—and it's all because Hanna, Aria, Emily, and Spencer just can't keep their mouths shut. . . . First they claimed they found a dead body in the woods behind Spencer's house, only to have it vanish without a trace. Then when the same woods went up in flames, they swore they saw someone who's supposed to be

dead rise from the ashes. And even after all that, the pretty little liars are still playing with fire. Hanna's trading in her Dior trench for a straitjacket. Aria's trying to contact the dead. Emily's dumped her boyfriend and is skipping town . . . again. And Spencer thinks someone in her family has gotten away with murder. The friends insist they're telling the truth about what they saw, but all of Rosewood thinks they're simply out for attention—and nobody likes a girl who cries wolf. So when the big bad killer comes after the girls, will anyone believe them . . . or will they be the next to disappear?

Meet Gossie, a small yellow gosling who loves to wear bright red boots—every day. One morning Gossie can't find her beloved boots. She looks everywhere for them: under the bed, over the wall, even in the barn.

Preschoolers will enjoy helping Gossie find her red boots and delight in where Gossie finally finds them.

The Hidden Forces That Shape Our Decisions

Smart Persuasion

Would life be better without alcohol? It's the nagging question more and more of us are finding harder to ignore, whether we have a "problem" with alcohol or not. After all, we yoga. We green juice. We meditate. We self-care. And yet, come the end of a long work

day, the start of a weekend, an awkward social situation, we drink. One glass of wine turns into two turns into a bottle. In the face of how we care for ourselves otherwise, it's hard to avoid how alcohol really makes us feel... terrible. How different would our lives be if we stopped drinking on autopilot? If we stopped drinking altogether? Really different, it turns out. Really better. Frank, funny, and always judgment free, *Sober Curious* is a bold guide to choosing to live hangover-free, from Ruby Warrington, one of the leading voices of the new sobriety movement. Drawing on research, expert interviews, and personal narrative, *Sober Curious* is a radical take down of the myths that keep so many of us drinking. Inspiring, timely, and blame free, *Sober Curious* is both conversation starter and handbook—essential reading that empowers readers to transform their relationship with alcohol, so we can lead our most fulfilling lives.

Third party policing represents a major shift in contemporary crime control practices. As the lines blur between criminal and civil law, responsibility for crime control no longer rests with state agencies but is shared between a wide range of organisations, institutions or individuals. The first comprehensive book of its kind, *Third Party Policing* examines this growing phenomenon, arguing that it is the legal basis of third party policing that defines it as a unique strategy. Opening up the debate surrounding this controversial topic, the authors examine civil and regulatory controls necessary to this strategy and explore the historical, legal, political and organizational environment that shape its adoption. This innovative book combines original research with a theoretical framework that reaches far beyond criminology into politics and economics. It offers an important addition to the world-wide debate about the nature and future of policing and will prove invaluable to scholars and policy makers.

A *New York Times* bestseller *The unforgettable story of two unsung heroes of World War II: sisters Janny and Lien Brilleslijper who joined the Dutch Resistance, helped save dozen of lives, were captured by the Nazis, and ultimately survived the Holocaust. Eight months after Germany's invasion of Poland, the Nazis roll into The Netherlands, expanding their reign of brutality to the Dutch. But by the Winter of 1943, resistance is growing. Among those fighting their brutal Nazi occupiers are two Jewish sisters, Janny and Lien*

Brilleslijper from Amsterdam. Risking arrest and death, the sisters help save others, sheltering them in a clandestine safehouse in the woods, they called "The High Nest." This secret refuge would become one of the most important Jewish safehouses in the country, serving as a hiding place and underground center for resistance partisans as well as artists condemned by Hitler. From The High Nest, an underground web of artists arises, giving hope and light to those living in terror in Holland as they begin to restore the dazzling pre-war life of Amsterdam and The Hague. When the house and its occupants are eventually betrayed, the most terrifying time of the sisters' lives begins. As Allied troops close in, the Brilleslijper family are rushed onto the last train to Auschwitz, along with Anne Frank and her family. The journey will bring Janny and Lien close to Anne and her older sister Margot. The days ahead will test the sisters beyond human imagination as they are stripped of everything but their courage, their resilience, and their love for each other. Based on meticulous research and unprecedented access to the Brilleslijpers' personal archives of memoirs and photos, Sisters of Auschwitz is a long-overdue homage to two young women's heroism and moral bravery—and a reminder of the power each of us has to change the world.

This book is devoted to the dynamic development of retailing. The focus is on various strategy concepts adopted by retailing companies and their implementation in practice. This is not a traditional textbook or collection of case studies; it aims to demonstrate the complex and manifold questions of retail management in the form of twenty lessons, where each lesson provides a thematic overview of key issues and illustrates them via a comprehensive case study. The examples are all internationally known retail companies, to facilitate an understanding of what is involved in strategic retail management and illustrate best practices. In the third edition, all chapters were revised and updated. Two new chapters were added to treat topics like corporate social responsibility as well as marketing communication. All case studies were replaced by new ones to reflect the most recent developments. Well-known retail companies from different countries, like Tesco, Zalando, Hugo Boss, Carrefour, Amazon, Otto Group, are now used to illustrate particular aspects of retail management.

Community-based crime control has become one of the principal policy responses to crime and disorder across western societies, and is regarded now as one of the keys to successful crime prevention and reduction. The aim of this book is to bring together findings from case studies of community-based crime control in England as a means of examining the prospects for this approach, its evolving relationship with criminal justice and social policies, and to assess the lessons internationally that can be drawn from this in the theory, research methods, politics and practice of crime control. At the same time the book advances an important new conceptual framework for understanding community-based crime control, focusing on an understanding of the diversity of control and preventative strategies, the locally particular conditions in which they are conducted, and the degree of choices open to local political actors involved in their conduct. Understanding diversity in this way is central to drawing lessons about the transferability of crime control theory and practice from one social context to another, avoiding the naïve emulation of practices in different contexts.

From the breathtaking beaches of Thailand to the barely tamed wilds of colonial Australia, The Pearl Sister is the fourth “brilliantly written” (Historical Novel Society) novel in New York Times bestselling author Lucinda Riley’s epic Seven Sisters series. “Fans of Kristin Hannah, Kate Morton, and Riley’s previous novels will adore” (Booklist) this adventurous and moving story about two women searching for a place to call home. One hundred years earlier, Kitty McBride, a Scottish clergyman's daughter, abandons her conservative upbringing to serve as the companion to a wealthy woman traveling from Edinburgh to Adelaide. Her ticket to a new land brings the adventure she dreamed of and a love that she had never imagined. When CeCe herself finally reaches the searing heat and dusty plains of the Red Centre of Australia, something deep within her responds to the energy of the area and the ancient culture of the Aboriginal people. Emphasizing the understanding of images and their influences on how they affect our attitudes, beliefs, and actions, this fully revised edition offers consequential ways of looking at images from the perspectives of photographers, critics, theoreticians, historians, and editors. It invites informed conversations about meanings and implications of images, providing multiple and sometimes conflicting questions such as: What are photographs? Should they be called art? Are they ethical? What are their implications for self, society, and world? From showing how critics verbalize what they see in images and how they persuade us to see similarly, to dealing with what photographs might mean, the book posits that some interpretations are better than others and explains how to deliberate among interpretations. It looks at how the worth of photographs is judged aesthetically and socially, offering samples and practical advice for both studio critiques for artists and professional criticism for public audiences. This book is a clear and accessible guide for students and professionals alike.
