*This adventurous work records Robert Edison Fulton's solo round-the-world tour on a two-cylinder Douglas motorcycle between July, 1932 and December, 1933. First published in 1937.*

*An adventure eight years in the making about not only navigating 6000 miles across America on dirt roads, but also navigating a divorce, career changes, addiction, and a mental disorder. A deeply personal and often humorous look at phobias, spirituality, and getting along with others. This book has numerous cringe-worthy moments from the highest mountain passes to claustrophobic caves and the path is often bumpy.*

*The adventure continues as Tim and Marisa Notier explore the ruins and backroads of South America. They encounter difficult terrain, friendly people, and the most beautiful landscapes that they have come across on their journey so far. Ride along with them across the Salt Flats in Bolivia, explore the ruins of Machu Pichu and the Village of the Dead in Peru, and discover all of the wonders that the South American continent offers as they make their way from Colombia to Ushuaia, Argentina. A new cast of delightful characters accompanies them along the way, enhancing Tim and Marisa's journey with friendship and some much-needed support. Blood, Sweat, and Notiers will leave you holding your breath in sections, cheering them on in others, and laughing all the way to the end of the world. Maiden Voyage: The Prequel to The Adventure of a Lifetime introduced the characters, 2Up and Overloaded sets them free into the world. You'll feel the wind in your hair as they make their way across the United States, and head south through Mexico and Central America. You'll be holding your breath as you ride along with them behind smog-extruding trucks in Tijuana, shouting at intrusive bears in the backcountry of Colorado, and pondering how to repair a bike that lies exhausted on the side of a deserted road. 2Up and Overloaded is an inspiring, witty, sometimes-harrowing, and always gripping story, in which two people prepare extensively to explore the world on their motorcycle, only to discover that their most powerful resource can't be packed in a bag.

Jupiter's Travels -Ted Simon's astonishing 4 year motorbike journey around the world The book that inspired Ewan McGregor's Long Way Round In the late 1970s Ted Simon set off on a Triumph and rode 63,000 miles over four years through fifty-four countries in a journey that took him around the world. Through breakdowns, prison, war, revolutions, disasters and a Californian commune, he travelled into the depths of fear and reached the heights of euphoria. He met astonishing people and was treated as a spy, a welcome stranger and even a god. For Simon the trip became a journey into his own soul, and for many others - including bikers Charley Boorman and Ewan McGrregor - it provides an inspiration they will never forget. This classic text, which has informed a whole genre of travel writing in the thirty years since it was first published, will never be bettered for sheer adventure, passion, humour and honesty. Brought up in England by a German mother and a Romanian father, Ted Simon found himself impelled by an insatiable desire to explore the world. It led him to abandon an early scientific career in favour of journalism, and he has worked for several newspapers and magazines on Fleet Street and elsewhere. Ted Simon is also the author of Riding Home and The Gypsy in Me.

KLR650 (2008-2012),

Have you ever dreamed about getting on your motorcycle and traveling across the country? Are you envious when you see motorcyclists with far away out-of-state plates and wish that could be you? Are you tired of fantasizing about taking that dream motorcycle trip and want to turn that dream into a reality? Since I began sharing my motorcycle travel photos and videos on social media, I've received countless emails and questions from people interested in motorcycle touring but with no idea where to begin. That's why I decided to write Motorcyclist's Guide to Travel. I want to be able to share this information with as many motorcyclists as possible. This book isn't about motorcycle travel theory or philosophy. I share with you the exact same methods and steps I use to plan and execute my own motorcycle trips all throughout the US. I cover how to plan and prepare for the trip, what to do during the trip as well as what to do after you return home. I go over different types of bikes and modifications you can make to them to make them more "touring worthy." I also cover all the different types of riding safety gear and what to look for when purchasing. And finally for those of you who don't know where you want to ride; that's ok. I also show you how come up with your own travel ideas. Motorcyclist's Guide to Travel will give you all the information you'll need to finally take that epic trip you've been dreaming about.

Ducati Corse World Superbikes

Chicago to Panama

Down Any Road

Alaska to Argentina by Motorcycle

This book chronicles the development and history all five Ducati Corse World Superbike generations together with interviews with the designers, racers and team managers. This unique insight is provided by renown motorcycle racer and journalist Alan Cathcart who has had the opportunity to test ride every one of the race bikes over the last 25 years

This book presents, in large-format images, Simon's unique virtually designed racing machines and tells the story of international racer Vic Cooper, who time-travels under the name 'Vic13' and later 'Mean13' to the past and the future to compete in a wide variety of motor races. His attempts are supported by world famous constructor Masucci, who built amazing vehicles for Cooper between the years 1916 and 2582. In his first volume of The Timeless Racer, Cooper time-travels to the year 2027, where he competes in the world-famous--and legendarily dangerous-- 48 Hours of America endurance race. The book puts three vehicles in the spotlight, shown in incredibly photo-realistic images. Car enthusiasts, design fans, and fiction addicts will be awed by fantastic and futuristic race cars in drawings and hyper-real renderings up to 24 inches wide. The book includes special attention to the fine details that make alternate worlds believable: fictitious sponsors and conflicts, with characters described in spectacular detail through photographs and back stories. In this captivating series, Simon returns to create an imaginary but entirely possible reality of glamour, speed, and honor. Welcome to The Timeless Racer. The foreword has been written by racing legend Jacky Ickx, who raced in the 1960s, '70s and '80s for many famed teams such as Ferrari, McLaren, Porsche, Brabham or Lotus. He is the only driver to have won in Formula One, Can-Am, Le Mans, and the Paris-Dakar rally.

Adventure can come in many forms. You may not have to cross oceans, or the borders of foreign lands to achieve a sense of accomplishment and wonder. Along the way you may find out a little more about yourself, and the ones you love.

Motojournalist Peter Jones tells all in *The Bad Editor, Collected Columns and Untold Tales of Bad Behavior*. This 250-page book reveals the inside story of a motojournalist's life inside the USA motorcycle industry. The book was created to be irreverent entertainment for motorcycle enthusiasts, not to even scores, vent anger, or be hard-hitting muckraking journalism. In this book, no names are mentioned, brands identified, or world problems solved.The 30 Collected Columns in this volume first appeared, in slightly different forms, in *SportRider Magazine*, *American Roadracing Magazine*, *Motorcycle Street & Strip*, *Speed.com*, and *Motorcyclist*. The 19 Untold Tales of Bad Behavior are original to this book. This is the first published collection of moto-writings by Peter Jones, a familiar voice to many motorcycle enthusiasts due to his 20-plus years of motorcycle reviews, columns and lifestyle editorials in numerous periodicals. Jones is known to be a dubious writer who chooses his friends poorly and who has failed to be a positive ambassador for motorcycling.
