This second edition of Amikam Aharoni's Introduction to the Theory of Ferromagnetism is a textbook for first year graduate and advanced undergraduate students in physics and engineering as well as a reference book for practising engineers and experimental physicists who work in the field of magnetism. For this edition, the author has updated the material especially of chapters 9 (The Nucleation Problem) and 11 (Numerical Micro-magnetics), which nowcontain the state of the art required by students and professionals who work on advanced topics of ferromagnetism.

DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

At the age of twelve the author was thoroughly indoctrinated into the Bolshevik ideology by two revolutionary missionaries who traveled on the same ship with him out to the Orient in 1907. Unlike many others he didn't swallow the bait they offered him "Hook, Line, and Sinker". He decided to keep an open mind, and to investigate matters thoroughly, before reaching any conclusions. His investigations and studies of all angles of the International Conspiracy have taken him to nearly every country in the world. Commander Carr has had a distinguished naval career. During WWI he served as Navigating Officer of H.M. Submarines. In WWII he was Naval Control Officer for the St. Lawrence; then Staff Officer Operations at Shelbourne, N.S.; then Senior Naval Officer at Goose Bay, Labrador. As an Officer on the staff of Commodore Reginald Brock he organized the 7th Victory Loan for the twenty-two Royal Canadian Naval Training Divisions. As an author he has previously published seven books. Some were specially bound for inclusion in the Royal Library; The Library of The Imperial War Museum; and the Sir Millington Drake Library (which is bequeathed to Eton College), and the Braille Library for the Blind. Commander Carr is known to many Canadians who have attended his public lectures. He warned people of the existence of an International Conspiracy. He foretold that the conspirators would, unless checked, drag the World into another Global War. Commander Carr is determined to inform as many people as possible regarding the Evil Forces which adversely affect all our lives, and the lives of our children. His book will be an eye-opener to parents, clergymen, teachers, students, statesmen, politicians, and labor leaders.

Ultrafine bubbles (UFBs) are gas-filled bubbles with a diameter smaller than 1 μm. They are sometimes called bulk nanobubbles because these are not on a solid surface but inside a bulk liquid (water). They are already being used in commercial processes such as cleaning and plant cultivation. However, many mysteries still exist with respect to UFBs, such as mechanisms of stability, OH radical formation, and biological and medical effects. This is the first book on UFBs that reviews research done on them. It is helpful for those interested in the fundamentals of this emerging field and its applications, including cleaning,

biological, medical, and dental students and researchers.

It's rare to discover a candid sports autobiography-- even rare when the author is one of the most recognizable athletes in the world. But in Shaq Talks Back, Shaquille O'Neal for the first time talks frankly about his childhood, his life, his rivalries, and his career, culminating in a dramatic, behind-the-scenes account of the Los Angeles Lakers' drive to the NBA Championship. At seven feet one inch tall and 330 pounds, Shaq has always faced outsized expectations, even as a child when he towered over other kids. Shaq Talks Back is the story of how potential became reality-- how someone expected to be a champion finally learned to become one. Beginning with his memory of crying on the court after the Lakers defeated Indiana Pacers, Shaq takes us back to his younger days in Newark and Jersey City, New Jersey, then to Georgia and finally to Germany, where he began to harness some of his height and strength. From there, he recounts the remarkable progress of his basketball career, changing from a big but inexperienced teenager to a dominant college and professional player.

Shaq talks about:
* Playing at Louisiana State University for the unpredictable coach Dale Brown
* Signing the biggest rookie contract ever with the Orlando Magic-- and going to the NBA Finals for the first time
* What happened next: dissention, disappointment, and his decision to leave for Los Angeles
* The dysfunctional Lakers who were never able to win the big games
* Dealing with egos as he finds the right chemistry with Kobe Bryant, Phil Jackson, and new additions to the team
* Rivalries with Alonzo Mourning, Patrick Ewing, Hakeem Olajuwon, David Robinson, and others
* The trouble with free throws...
* "Bling-bling" and women: the larger-than-life world of NBA players off the court
* Inside the Lakers' comeback from brink against Portland and the drive to the NBA championship
Funny, insightful, opinionated, and unexpectedly moving, Shaq Talks Back is the true voice of the NBA's best player.

Hot and Smoky Shrimp Tacos, Roasted Wild Mushroom Tacos with Queso Fresco, Fire-Roasted Corn and Poblano Chile Tacos--these are a few of the most taste-tempting tacos you'll ever put in your mouth. And what to top them with--of course, it must be the perfect salsa!
