The Col loque of our European Institute for social security to prepare the Conference in the Hague on the social security and the economic crisis was held from the 17th ti 11 the 19th of September in Toledo. Part II of the Yearbook 1980-1981 contains the reports presented in Toledo. The reports are focussed on the over a! 1 economic situation (Richard Draperie); the specific problems of Pensions (Bernd Schulte); the cost of medical care (Leo Crijns); unemployment insurance (Joachim Volz); the social minimum (Andre Laurent) and two special reports on the economic crisis and social security. Finally it contains my own synthesis report. Al 1 the participants had the opinion that the colloque created a fruitful 1 basis for a further in depth discussion in the Hague in 1982. The Institute once again wants to express its sincere gratitude to Antonio Chozas and his colleques for the excellent and adequate way in which they organised the colloque.

Esta nueva edición de la Historia de la Psicología en Colombia actualiza y completa la versión anterior de esta obra. Su autor ha recogido los desarrollos más recientes de la psicología como ciencia y profesión a nivel colombiano, los ha colocado en el contexto latinoamericano y mundial y ha analizado el papel de la psicología dentro de la sociedad. El libro muestra el contexto cultural en el cual aparece la psicología, sus antecedentes y los eventos que llevaron a su desarrollo. Presenta las ideas de los pobladores originarios, la psicología durante la Colonia española, el siglo XIX que fue importante crisol de ideas para las nuevas disciplinas que tratan con el ser humano y su sociedad. Destaca los trabajos realizados en la época en que no existía formación profesional en psicología, que se ha denominado como la época de “la psicología sin psicólogos”. Especial relevancia se le otorga a la formación en sentido institucional, a los enfoques conceptuales de la psicología en Colombia, a los pioneros que con su trabajo y, en muchos casos, en un contexto con dificultades y avatares lograron desarrollar la ciencia y la profesión de la psicología. Se coloca la investigación científica en el país dentro de las corrientes internacionales. Se muestran los orígenes y el estado actual de las principales áreas de aplicación profesional: psicología clínica y de la salud, psicología educativa, psicología organizacional, jurídica y forense, psicología del deporte y del ejercicio físico, social y comunitaria, y sexología. Finalmente se analizan las perspectivas de la psicología en Colombia.

Quelles mesures disciplinaires doit appliquer l'école afin de contrer les comportements violents des enfants de 3 à 9 ans, sans entraver leur processus de scolarisation et de socialisation? Quels sont les défis et les enjeux de la collaboration entre l'école et les parents de ces enfants ? C'est à ces questions que les auteures tentent d'apporter des éléments de réponse. Elles ont recueilli leurs données dans la cadre d'entrevues effectuées auprès de soixante parents d'enfants de 3 à 9 ans, qui ont fait l'objet d'une suspension ou d'une possibilité de suspension scolaire à la suite de comportements violents envers leurs pairs. A partir des perceptions parentales, elles dégagent des pratiques, des moyens et des solutions qui permettront de mieux collaborer avec l'école. Toutefois, les dires des parents suscitent énormément de réactions: leur perception du problème peut parfois sembler inconfortable et dérangeante, notamment aux yeux du personnel scolaire. C'est pourquoi cette problématique exige non seulement de poursuivre la réflexion et l'action mais également la recherche dans le domaine de la prévention et de l'intervention précoces de la violence au préscolaire et au primaire, dont le but ultime est d'assurer le mieux-être des enfants, de leur famille, de l'école, de la communauté, voire de toute une société.

The Das Kapital of the 20th century,Society of the Spectacle is an essential text, and the main theoretical work of the Situationists. Few works of political and cultural theory have been as enduringly provocative. From its publication amid the social upheavals of the 1960's, in particular the May 1968 uprisings in France, up to the present day, with global capitalism seemingly staggering around in it’s Zombie end-phase, the volatile theses of this book have decisively transformed debates on the shape of modernity, capitalism, and everyday life in the late 20th century. This ‘Red and Black’ translation from 1977 is Introduced by Notting Hill armchair insurrectionary Tom Vague with a galloping time line and pop-situ verve, and given a more analytical over view by young upstart thinker Sam Cooper.

In this exciting Handbook, Ian Jarvie and Jesús Zamora-Bonilla have put together a wide-ranging and authoritative overview of the main philosophical currents and traditions at work in the social sciences today. Starting with the history of social scientific thought, this Handbook sets out to explore that core fundamentals of social science practice, from issues of ontology and epistemology to issues of practical method. Along the way it investigates such notions as paradigm, empiricism, postmodernism, naturalism, language, agency, power, culture, and causality.

ABSTRACT: Treating the 'state' as a finished product gets in the way of understanding it. The state is always in the making. This article, which acts as the Introduction to a special issue, argues that political authority is (re-)produced through the process of successfully defining and enforcing rights to community membership and rights of access to important resources. Claims to rights prompt the exercise of authority. Struggles over property and citizenship are therefore as much about the scope and constitution of political authority as they are about access to resources and membership of a political community. The ability to entitle and disenfranchise people with regard to property, and to establish the conditions under which they hold property — together with the ability to define who belongs and who does not, and to establish and uphold rank, privilege and social servitude in its many forms — is constitutive of state power. Thus this essay argues that various moments of rupture (following periods of conflict, of colonial domination, of socialist, liberal, or authoritarian regimes, et cetera) allow us to see that rights do not simply flow from authority but also constitute it. Authority and rights are conceptually tied together by recognition. This article demonstrates how contracts of recognition unfold. It proposes an approach to the systematic investigation of the constitution of authority through the social production of property and citizenship as the recognition of claims to resources and membership. It thereby develops a way to study concrete dynamics of authority or state formation.

Both Quebec and Poland have undergone considerable change in the past few decades, change that can be described as a "quiet revolution." This collection of essays by Polish and Canadian sociologists provides comparative analyses of the two societies and highlights institutional, political, cultural and socio-economic changes.

Social security reforms in Europe II / La réforme de la sécurité sociale en Europe II

The conference of our European Institute for social security was held from the 16th till the 19th of October 1980 in Perugia. As usual the theme of the Conference was the same of that of the preparatory Colloque held in Brussels in 1979: Social security reforms in Europe. The reports of that Colloque were published as Part I I of the Yearbook 1978-1980. Part I of the Yearbook 1980-1981 contains the reports presented in Perugia. The reports are focussed on three items: The financing of social security (J.P. Launay, Jan B.M. Pierik, Jø rn Henrik Petersen and Guy Perrin); The social benefits (Bernd Schulte and Sven Guldburg) and The organization of social security (A.J. Ogus, A. Berenstein and Jef van Langendonck) . The Yearbook contains also two national reports (M. Magrez and Asbj~rn Kjø nstad), not available to be included in Yearbook I I 1978-1980. Finally the Yearbook contains a report from Guy Perrin on the social security problems of migrant workers and the synthesis report of Pasquale Sandulli. It's a pity that we could not include the report of Lucia Vitali, Le prestazini per inval idita nel sistema ital iano di sicurezza sociale: un anal isi economica, and the report of the Region of Umbria since there was no English or French translation available. The Institute once again wants to express its sincere gratitude to Pasquale Sandulli i and his colleagues for the adequate way in which they organized the conference.

Il Tomo I del Trattato delle Societ à è composto da quattro parti: introduzione generale del diritto societario, il tema si apre con un autorevole saggio comparatistico, nel quale si mettono in risalto le pi ù recenti tendenze evolutive che, negli ordinamenti pi ù vicini al nostro, hanno investito lo stesso " paradigma " societario; " temi generali ", ovverosia quegli istituti o quei segmenti di disciplina riferibili a tutti i " tipi " societari; impatto delle nuove tecnologie sul diritto delle societ à ; i tipi delle societ à di persone. Il taglio dell ' opera è quello della trattazione di alto profilo scientifico, assicurata dalla autorevolezza accademica o istituzionale dei diversi Autori, non disgiunta da una marcata sensibilit à per le ricadute pratiche, garantita anche dalla completezza dei riferimenti giurisprudenziali e dall ' uso di modalit à grafiche che agevolano la lettura. Della stessa Collana altri 3 tomi dedicati alle societ à per azioni (Tomo II), alle societ à in accomandita per azioni, alle s.r.l. e agli istituti comuni alle societ à di capitoli (Tomo III) e infine ai diversi " statuti normativi speciali " (dalle quote, alle societ à del sistema bancario e finanziario, fino a tutte le ormai numerosissime figure di diritto speciale o singolare) e alle cooperative (Tomo IV). Ciascun tomo, pur autonomo, è parte di un ' Opera " omnia " che, per la sua completezza, per la metodologia adottata e per l ' autorevolezza degli Autori, ci si augura possa divenire un punto di riferimento per quanti in futuro (non necessariamente prossimo) saranno chiamati a confrontarsi con la materia.
