Antonio Giangrande, orgoglioso di essere diverso. ODIO OSTENTAZIONE ED IMPOSIZIONE. Si nasce senza volerlo. Si muore senza volerlo. Si vive una vita di prese per il culo. Tu esisti se la tv ti considera. La Tv esiste se tu la guardi. I Fatti son fatti oggettivi naturali e rimangono tali. Le Opinioni sono atti soggettivi cangianti. Le opinioni se sono oggetto di discussione ed approfondimento, diventano testimonianze. Ergo: Fatti. Con me le Opinioni cangianti e contrapposte diventano fatti. Con me la Cronaca diventa Storia. Noi siamo quello che altri hanno voluto che diventassimo.

Rappresentare con verità storica, anche scomoda ai potenti di turno, la realtà contemporanea, rapportandola al passato e proiettandola al futuro. Per non reiterare vecchi errori. Perché la massa dimentica o non conosce.

Denuncio i difetti e caldeggio i pregi italici. Perché non abbiamo orgoglio e dignità per migliorarci e perché non sappiamo apprezzare, tutelare e promuovere quello che abbiamo ereditato dai nostri avi. Insomma, siamo bravi a farci del male e qualcuno deve pur essere diverso!

The Sicilian Mafia, or Cosa Nostra, is one of the most intriguing criminal phenomena in the world. It is an unparalleled organised criminal grouping that over almost two centuries has been able not only to successfully permeate licit and illicit economy, politics and civil society, but also to influence and exercise authoritative power over both the underworld and the upper-world. This criminal phenomenon has been a captivating conundrum for scholars of different disciplines who have tried to explain with various paradigms the reasons behind the emergence and consolidation of the mafia. Challenging

the Mafia Mystique provides an analysis of the changes the Sicilian mafia has undergone, from legitimisation to denunciation. Rino Coluccello highlights how, from the very emergence of the organised criminal groups in Sicily, a culture existed that was protective and tolerant of the mafia. He argues that the various conceptualisations of the mafia that dominated the public and scientific debate in the nineteenth and more than half of the twentieth century created a mystique, which legitimised the mafia and contributed to their success. This book will be of great interest to scholars and students of organised crime, Italian politics and Italian literature.

the adaptation and transmission of cultural inheritance. The essays explore translation in a variety of sources from manuscript to print culture and the creation of lexical databases. Several essays look at the practice of textual translation across languages, including the vernacularization of Latin literature in England, France, and Italy; the translation of Greek and Hebrew scientific terms into Arabic; and the use of Hebrew terms in anti-Jewish and anti-Muslim polemics. Other essays examine medieval translators' views and performance of translation, looking at Lydgate's translation of Greek myths through mental images rendered through rhetorical figures or at how printing transformed the rhetoric of intervernacular translation of chivalric romances. This collection

also demonstrates translation as a key element in the construction of cultural and political identity in the Fet des Romains and Chester Whitsun Plays, and in the papacy's efforts to compete with Byzantium by controlling the translation of Greek writings.

In the last years, the discussion around what is fascism, if this concept can be applied to present forms of politics and if its seeds are still present today, became central in the political debate. This discussion led to a vast reconsideration of the meaning and the experience of fascism in Europe and is changing the ways in which scholars of different generations look at this political ideology and come back to it and it is also

The aim of the book is building a general history of Fascism and its historiography through the analysis of 13 different fundamental aspects, which were at the core of Fascist project or of Fascist practices during the regime. Each essay considers a specific and meaningful aspect of the history of Italian fascism, reflecting on it from the vantage point of a case study. Fascism was able to mould the historical context in which it was born, how and if it transformed political, cultural, social elements that were already present in Italy. The themes considered are violence, empire, war, politics, economy, religion, culture, but also antifascism and the impact of Fascism abroad, especially in the Twenties and at the beginnings of the Thirties. The book could be both used for a general public interested in the history of Europe in the interwar period and for an academic and scholarly public, since the essays aim to develop a

This study reveals the broad material, devotional, and cultural implications of sculpture in Renaissance Venice. Examining a wide range of sources—the era's art-theoretical and devotional literature, guidebooks and travel diaries, and artworks in various media—Lorenzo Buonanno recovers the sculptural values permeating a city most famous for its painting. The book traces the interconnected phenomena of audience response, display and thematization of sculptural bravura, and artistic self-

She begins with the late middle ages, when Venice sought to invent a dignified civic past by means of object, image, and text. Moving on to the fourteenth and fifteenth centuries, she discusses the collecting and recording of antiquities and the incorporation of Roman forms.

"To teach correct Latin and to explain the poets" were the two standard duties of Roman teachers. Not only was a command of literary Latin a prerequisite for political and social advancement, but a sense of Latin's history and importance contributed to the Romans' understanding of their own cultural identity. This book explores the intellectual world of Francesco Robortello, one of the most prominent scholars of the Italian Renaissance. From poetics to rhetoric, philology to history, topics to ethics, Robortello revolutionised the field of humanities through innovative interpretations of ancient texts and with a genius that was architectural in scope. He was highly esteemed by his contemporaries for his acute wit, but also envied and disparaged for his many qualities. In comparison with other humanists of his time such as Carlo Sigonio and

Pier Vettori, Robortello had a deeply philosophical vein, one that made him unique not only to Italy, but to Europe more generally. Robortello's role in reforming the humanities makes him a constituent part of the long-fifteenth century. Robortello's thought, however, unlike that of other fifteenth-century humanists, sprung from and was thoroughly imbued with a systematic, Aristotelian spirit without which his philosophy would never have emerged from the tumultuous years of the mid-Cinquecento. Francesco Robortello created a system for the humanities which was unique for his century: a perfect union of humanism and philosophy. This book represents the first fully

fledged monograph on this adventurous intellectual life. A collection of essays discussing the famed Italian film director, writer, and intellectual. More than thirty years after the tragic death of Pier Paolo Pasolini, this volume is intended to acknowledge the significance of his living memory. His artistic and cultural production continues to be a fundamental reference point in any discourse on the state of the arts, and on contemporary political events, in Italy and abroad. This collection of essays intends to continue the recognition of Pasolini's teachings and of his role as engaged intellectual, not only as acute observer of the society in which he

lived, but also as semiologist, writer, and filmmaker, always heretical in all his endeavors. Many directors, reporters, and contemporary writers see in the “inconvenient intellectual” personified by Pasolini in his writings, in his films, and in his interviews, an emblematic figure with whom to institute and maintain a constant dialog, both because of the controversial topics he addressed, which are still relevant today, and because of the ways in which he confronted the power structures. His analytical ability made it impossible for him to believe in the myth of progress; instead, he embraced an ideal that pushed him always to struggle on the firing line of controversy.

From neorealism's resolve to Berlusconi revisionist melodramas, this book examines cinema's role in constructing memories of Fascist Italy. Italian cinema has both reflected and shaped popular perceptions of Fascism, reinforcing or challenging stereotypes, remembering selectively and silently forgetting the most shameful pages of Italy's history.
