Metaheuristics in the Service Industry

The record of each copyright registration listed in the Catalog includes a description of the work copyrighted and data relating to the copyright claim (the name of the copyright claimant as given in the application for registration, the copyright date, the copyright registration number, etc.).

This book covers the design of business processes from a broad quantitative modeling perspective. The text presents a multitude of analytical tools that can be used to model, analyze, understand and ultimately, to design business processes. The range of topics in this text include graphical flowcharting tools, deterministic models for cycle time analysis and capacity decisions, analytical queuing methods, as well as the use of Data Envelopment Analysis (DEA) for benchmarking purposes. And a major portion of the book is devoted to

simulation modeling using a state of the art discrete-event simulation package.

Environmental Impact Statement

The Cumulative Book Index

Most developed economics show the tendency of an increasing importance of modern services such as tourism, logistical services, finance, and others. In many cases, complex optimization problems can be found in this context, and the successful operation of modern services often depends on the ability to solve the obtained optimization models. Metaheuristics on the other hand present an interesting problem-resolution paradigm that has attracted considerable interest in past years. The book combines a set of selected and peer-reviewed articles, presenting novel results of metaheuristics for modern services. In particular, applications in the area of transportation and logistics are considered, while other areas include production and financial services. Novel methodological approaches as well as improved results are obtained, resulting in a considerable contribution to the state-of-the-art of research in metaheuristics.

Hatchback (3-door) and Sportback (5-door) models. Does NOT cover Quattro, S3 or Cabriolet models, semi-automatic transmission, or revised Audi A3 range introduced April 2008 Petrol: 1.6 litre (1595 & 1598cc) & 2.0 litre (1984cc), inc.

turbo. Does NOT cover 1.4 litre, 1.8 litre or 3.2 litre petrol engines. Turbo-Diesel: 1.9 litre (1896cc) & 2.0 litre (1968cc).
