

Lancaster Target

The purpose of this handbook is to provide aviation enthusiasts with a simple checklist on where to find the surviving retired military aircraft that are preserved in Canada. The majority of the Canadian Warbird Survivors are on display within a great number of well maintained aviation museums, many others are displayed as gate guards near or in a number of Canadian Forces Bases, and a good number are in the hands of private collectors. Many are not listed in any catalogue, but have been found by word of mouth, or personal observation. The museum staffs and volunteer organizations throughout Canada have done a particularly good job of preserving the great variety of Canadian military aircraft, illustrated here. Hopefully, as more aircraft are recovered from their crash sites in the bush and restored, traded or brought back from private owners, they too will be added to the record. The book lists the aircraft alphabetically by manufacturer, number and type. This list is also appended with a brief summary of the aircraft presently on display within the nation and a bit of its history within the Canadian Forces. Canadian Warbirds books are available through the University.com or the Amazon.com online bookstores.

How students can craft the ultimate statement of self-identity to get into their school of choice, from America's College Counselor. On average, an admissions committee takes seconds to decide whether to admit a student. They must sum up the student in one sentence that will tell them if a student is going to be a good fit for their program. What is the best way to transform this admissions process from a stressful, pressure-cooker arms race into an empowering journey that paves the way to the best individual outcome? Written by a college admissions insider turned consultant, Soundbite guides parents and students through the admissions process from start to finish. Armed with her knowledge of how the system works, Sara Harberson shares tried-and-tested exercises that have helped thousands of students gain admission to their school of choice. The soundbite, her signature tool, presents an opportunity for students to take the reins to craft their ultimate statement of self-identity and formulate their own personal definition of what is best. With this soundbite in place as their foundation, students achieve maximum impact when they present themselves to colleges. In doing so, the tables are turned: the student's fate no longer rests on a soundbite composed by an admissions officer. Instead, the student employs their own soundbite to define themselves on their own terms. Soundbite shifts the way we talk about the admissions process--from "Getting You In" to "Getting the Best You In."

Find love in Amish country in these two stories The Farmer Next Door by Patricia Davids Adrian Lapp vows to never have a family again after losing his wife and son. But the newest resident of the Amish community of Hope Springs captivates him from their first meeting. Widow Faith Martin is strong and courageous. If only Adrian can open himself to the possibility of love again... Lancaster County Target by Kit Wilkinson Nurse Abby Miller witnesses a patient's shocking murder. When the masked killer spots her, she's overpowered--and left for dead. Handsome doctor Blake Jamison vows to keep her safe while investigating the mysterious patient's death. But it may be too late for Abby to protect her heart from the man who is sure to one day leave her behind.

This book describes one twenty-four-hour period in the Allied Strategic Bomber Offensive in the greatest possible detail. The author sets the scene by outlining the course of the bombing war from 1939 to the night of the Nuremberg raid, the characters and aims of the British bombing leaders and the composition of the opposing Bomber Command and German night fighter forces.The aim of the Nuremberg raid was not unlike many hundreds of other RAF missions but, due to the difficulties and dangers of the enemy defenses and weather plus bad luck, it went horribly wrong. The result was so notorious that it became a turning point in the campaign. The target, the symbolic Nazi rally city of Nuremberg, was only lightly damaged and 96 out of 779 bombers went missing.Middlebrook recreates the events of the fateful night in astonishing detail. The result is a meticulous dramatic and often controversial account. It is also a moving tribute to the bravery of the RAF Bomber crews and their adversaries. As reviewed in the Wall Street Journal: Using firsthand accounts, Mr. Middlebrook follows the planning, preparation and execution of the operation in meticulous detail, but he does more than that: Employing hundreds of eyewitness accounts, he shows the raid from the point of view of the German defenses and the civilians on the ground. Factual and analytical, this is a portrait of mechanized warfare at the level of personal experience. Wall Street Journal, March 2016

The Immune Synapse as a Novel Target for Therapy

The Second World War's Greatest Bomber

A winning collection of 150 recipes hand selected by Julia Collin Davison and Bridget Lancaster, the well-known and beloved stars of our public television shows. Here, for the first time, they get personal and pull back the curtain on their lives, their families, and the recipes they like to cook when they are off camera.

Stunning illustrated history of the most famous Second World War RAF bomber.

This is a welcome reissue of a book which has been described as *one of the best accounts about life in Bomber Command during World War II.* Lancaster Target is the classic story of one crew's fight to survive a full tour of operations in the night skies of wartime Europe. Flying Lancaster bombers from RAF Wickenby in Lincolnshire between 1943 and 1944, Jack Currie chronicles the life and death struggles against flak, night fighters and perilous weather with clarity and feeling, whilst capturing the 'live for the moment' spirit of off-duty escapades Jack Currie DFC served as a stretcher bearer and later ambulance driver during the London Blitz before gaining his wings in the USA. Having completed his first perilous operational tour of 30 missions in Lancasters, he went on to serve as a Pathfinder Mosquito pilot. He remained in the RAF after the war eventually reaching the rank of Squadron Leader. After he left the service, he became a renowned aviation writer and broadcaster and appeared in a number of TV and video productions.

The third volume in the epic military aviation series focuses on the Allied invasion of North Africa during World War II. This work of WWII history takes us to November 1942 to explain the background of the first major Anglo-American venture: Operation Torch, the invasion of French North Africa. Describing the fratricidal combat that followed the initial landings in Morocco and Algeria, it then considers the unsuccessful efforts to reach northern Tunisia before the Germans and Italians could get there to forestall the possibility of an attack from the west on the rear of the Afrika Korps forces, then beginning their retreat from El Alamein. The six months of hard fighting that followed, as the Allies built up the strength of their joint air forces and gradually wrested control of the skies from the Axis, are recounted in detail. The continuing story of the Western Desert Air Force is told, as it advanced from the east to join hands with the units in the west. Also covered are the arrivals over the front of American pilots and crew, the P-38 Lightning, the Spitfire IX, and the B-17 Flying Fortress—and of the much-feared Focke-Wulf Fw 190. The aerial activities over Tunisia became one of the focal turning points of World War II, yet are frequently overlooked by historians. Here, the air-sea activities, the reconnaissance flights, and the growing day and night bomber offensives are examined in detail.

The Battle of Berlin

A KILLER IN AMISH COUNTRY Down a deserted hospital corridor, nurse Abby Miller witnesses a patient's shocking murder. When the masked killer spots her, she's overpowered--and left for dead. Handsome doctor Blake Jamison vows to keep her safe while investigating the mysterious patient's death. But when he and Abby uncover a connection between the murder and the long-held secret of his adoption and possible Amish birth, the killer begins targeting them both. Amish-born Abby slowly learns to trust Blake with her life. But it may be too late to protect her heart from the high-society doctor who is sure to leave her behind. This unique book, now republished, was the first of its kind to be published on British aircraft of the Second World War. Aviation enthusiasts and aero-modellers can see British aircraft as they really were, through magnificently reproduced colour photographs. Each of the forty-nine types of aircraft is accompanied by a brief 'biography' together with tables of the most important marks and their specifications, engine, span, length, height, weight, crew number, maximum speed, service ceiling, normal range and armament. There is also a section on British aircraft in action, which includes accounts of outstanding exploits by the pilots of different types. John Frayn Turner, the well-known aviation author, has chosen the pictures and provided the text.

During 1942 and 1943 the striking power of RAF Bomber Command was transformed by the arrival of heavy bombers, advanced navigation and blind bombing systems, and new tactics to concentrate the bombers over the target and swamp the German defences. By October 1944 most of Germany's cities were in ruins, yet the bombing continued to intensify, reaching unprecedented levels in the final seven months of the air campaign. The value of further area raids was questioned during the opening months of 1945, yet the Allies destroyed the remaining cities in a bid to hasten the end of the war. The handful of German cities still largely unscathed in early February 1945 included Dresden, which was obliterated on 13 February. Ten days later, the South German city of Pforzheim was destined to suffer the same fate.This book commemorates the efforts of the aircrew members who risked their lives, consolidating a host of intriguing first-hand accounts. It also considers Pforzheim as a representative community under National Socialist rule. The city's survivors remember the horror of the raid and its aftermath, including eventual occupation by French Colonial troops and, subsequently, American forces. Tony does an admirable job of presenting historical context when considering actions in times of extreme trauma and his narrative offers an intriguing, engaging and poignant evocation of the closing months of Bomber Command's war.

This is a series Concludes in Love and Marriage Gregarious Rose Lehman, who's always the Amish youth singsings, is determined to marry the bishop's son, Reuben Byler--until the handsome Army buddy of her future brother-in-law shows up in Lancaster County. In comparison to Trevor, Reuben seems downright boring. Trevor shares Rose's sense of fun and adventure, and her easygoing disposition. When her sister Lila's buggy is rear-ended and Lila is horribly injured, Rose finds herself with more freedom than she's ever experienced. Everyone is so concerned about Lila that no one realizes Rose is sneaking out with Trevor. Except for Reuben. But in his usual passive way, he doesn't confront her, nor does he address the situation with her. But to anyone else in the district, Rose appreciates Reuben's discretion, but he also resents it. Part of her relishes the freedom she's found with Trevor, but the other part of her wishes Reuben would "fight" for her, as much as any Amish man would. Too late, she realizes the foolish choice she's made. Has she ruined her best chance at love, or is there another path to happiness she just hasn't seen yet?

Wargaming Lancaster Bomber Raids Against Germany 1942-1944

Lancaster Target : the Story of a Crew who Flew from Wickenby

The Destruction of Pforzheim and the Closing Months of Bomber Command's War

The author examines the factors which influence terrorists' target selection. In particular he looks at the influence of the ideologies, strategies and tactics of terrorist groups, and describes how these are restricted by the terrorists' resources, by protective and anti-terrorist measures, by the society within which the terrorists operate, and by the nature of the terrorists and their supporters. He concludes that terrorists' target selection is often both explicable and logical.

This volume gives an overview on the progress in immune synapse research, from basic science to clinical trials, and the major mechanisms involved. It discusses how interfering with T cell activation may lead to immune tolerance, immune modulation, and the recruitment of regulatory T cells: the role of monoclonal antibodies in tolerance induction; and mechanisms maintaining dominant tolerance.

In 1970 the UN General Assembly called on the economically advanced countries to provide 0.7% of their income as Official Development Assistance (ODA) by the middle of the decade. In 2004 the UK committed to meet the target by 2013. The Government proposes to enshrine in law its commitment to meet the target in 2010 and each subsequent year. Whilst the legislation is widely welcomed the Committee remains uncertain that it will have the wider impact claimed. The accountability measures contained in the draft Bill weaken the commitment and provide the Government with an easy excuse for not meeting the target. The 2002 International Development Act stipulates that DFID's expenditure on ODA should have poverty reduction as its primary objective. With increasing pressure to find additional finance for responding to climate change or to new types of security threats, there is a danger that increased amounts of UK ODA will be used for purposes only marginally related to poverty reduction. The Government must take appropriate steps to guard against this whether or not the Bill becomes law. Ultimately the Committee supports the 0.7% goal and feels the UK should maintain and build on its reputation as a donor.

Ben and Ben Turn Rivalry into Romance? Beatrice Zook knows God wants her to learn patience toward others. When assisting a family overwhelmed by triplets proves surprisingly successful, her confidence in dealing with others, both young and old, grows. One person she'll never be able to find peace with though is Ben Rupp. They've known each other forever, and Ben understands precisely how to antagonize her. What neither she nor Ben will admit is that beneath all their bickering, attraction awaits. When friends decide to try and bring the couple together, will the pair be able to find true love? Or will they damage their relationship beyond repair?

Lancaster County Target

Lancaster Target

The narrative description and condensed history of the Lancaster's construction, combat career and post-war service, brought together to tell the complete, concise history of the world's most famous aircraft of all time and undoubtedly the finest bomber of World War Two. A superlative colour section of 58 photos of the BHF Lancaster and the Canadian Warplane Heritage Lancaster (the only two Lancasters still flying) are featured in which is a unique photo section to complement the 150 mono contemporary images, many of which have never been published before. Appendix sections, detailed and expert captions and other material complement the exciting narrative which includes a special chapter on the Dam Busters to coincide with the release of the new movie by Peter Jackson and the unveiling of the Bomber Command Memorial in Hyde Park, London.

The simple art and tradition of brewing the perfect cup--at home. Whether it's a morning drip or an evening espresso martini, amazing coffee is an artform. The Coffee Recipe Book is your guide to understanding how everything comes together for an artisanal coffee drink. With 50 different recipes ranging from classic cappuccino to specialty lattes, there's a delicious option for everyone. Easily match the expertise of your favorite cafe, with the perfect mix of the techniques and tools needed to give your daily grind a good home. The Coffee Recipe Book includes: Day to night--Coffee isn't just for morning anymore with drinks like Coconut Coffee Smoothie and Coffee Old-Fashioned. Use your bean--A complete guide to coffee beans will help you select the right roast for every brew. In the details--Understand how components like water, bean style, and serving method all mix into the perfect pour. Brew up the perfect coffee drink just like a barista--in the comfort of your own home.

The first book in a gaslamp fantasy romance series.

The Battle of Berlin, the bombing of the 'Big City' as it was known to the crews of RAF Bomber Command, raged from 18 November 1943 to the end of the war in Europe in 1945. It is recalled here both by those in the air over capital of the Third Reich, as well as those who suffered under the bombing onslaught. At the start of the Battle of Berlin, Sir Arthur Harris had predicted that the 'Big City' would 'cost between 400-500 aircraft', but that it would also 'cost Germany the war'. He was proved wrong on both counts. Berlin was not 'wrecked from end to end', as Harris predicted on 3 November 1943 - 'if the USAAF will come in on it' - although a considerable part of it was destroyed. And the 'Main Battle of Berlin' did not cost Germany the war; a grinding land campaign had yet to be fought. More than 9,000 bombing sorties were flown during the battle on round trips of about 1,200 miles to Berlin and back. Berlin was bombed by four Allied air forces between 1940 and 1945. British bombers alone dropped 45,517 tons of bombs, whilst the Americans a further 23,000 tons. By 1944, some 1.2 million people, 790,000 of them women and children, about a quarter of Berlin's population, had been evacuated to rural areas. An effort was made to evacuate all children from Berlin, but this was defeated by parents and many evacuees who soon made their way back to the city. However, by May 1945, 1.7 million people - 40% of the population - had fled the city. This fitting tribute to those who died in the relentless struggle to knock Berlin, and hopefully Germany, out of the war resonates with eyewitness accounts and background information which the author has painstakingly investigated and researched. The result is a hugely fascinating and highly readable narrative containing very real and unique observations by British and Commonwealth aircrew and, equally importantly, the long-suffering citizens of Berlin, and well as the capital's defenders. Up to the end of March 1945, there had been a total of 314 air raids on Berlin, eighty-five of these in the last twelve months. Estimates of the total number of dead in Berlin from air raids range from 20,000 to 50,000; the relatively low casualty figure in Berlin is partly the result of the city's formidable air defenses and shelters. The battle of Berlin was not a defeat in absolute terms, but in the operational sense it was an offensive that Air Marshal Sir Arthur Harris and his aircrews could not win. 'Berlin won' concluded Sir Ralph Cochrane, the Air Officer Commanding 5 Group RAF Bomber Command. 'It was just too tough a nut.'

#1 NEW YORK TIMES BESTSELLER · INSTANT INTERNATIONAL BESTSELLER From Dr. Nicole LePera, creator of “the holistic psychologist”—the online phenomenon with more than two million Instagram followers—comes a revolutionary approach to healing that harnesses the power of the self to produce lasting change. As a clinical psychologist, Dr. Nicole LePera often found herself frustrated by the limitations of traditional psychotherapy. Wanting more for her patients—and for herself—she began a journey to develop a united philosophy of mental, physical and spiritual wellness that equips people with the interdisciplinary tools necessary to heal themselves. After experiencing the life-changing results herself, she began to share what she'd learned with others—and soon “The Holistic Psychologist” was born. Now, Dr. LePera is ready to share her much-requested protocol with the world. In How to Do the Work, she offers both a manifesto for Self-Healing as well as an essential guide to creating a more vibrant, authentic, and joyful life. Drawing on the latest research on a diversity of scientific fields and healing modalities, Dr. LePera helps us recognize how adverse experiences and trauma in childhood live with us, resulting in whole body dysfunction—activating harmful stress responses that keep us stuck engaging in patterns of codependency, emotional immaturity, and trauma bonds. Unless addressed, these self-sabotaging behaviors can quickly become cyclical, leaving people feeling unhappy, unfulfilled, and unwell. In How to Do the Work, Dr. LePera offers readers the support and tools that will allow them to break free from destructive behaviors to reclaim and recreate their lives. Nothing short of a paradigm shift, this is a celebration of empowerment and the way we approach mental wellness and self-care.

The story of a young woman's life, one outfit at a time. Tucked inside the fibers and buttons and pockets of the clothing in our closets are the stories of our lives, the lessons we've learned, the people we've loved. Like so many of us, Adena Halpern has used clothes to conform, to seduce, to console, to show off, and to hide. Her ability to relate fashion to her inner life—in a way that goes beyond the clothes—has endeared her to many readers, one of whom called her, “the real-life Carrie Bradshaw.” But Fashionista, she's not. Adena is every teenage girl who had to have what all the other girls had, whether it looked good on her or not; the college coed who swooned for the boy in the leather jacket; the heartbroken girl who chose a rebound dress over a rebound man; the best friend who borrows clothes and never gives them back; the woman who is 45 minutes late to work because she has nothing to wear. She is a lover of clothes and shopping whose passionate memories are always tied not only to the clothes that she wore, but what everyone else was wearing, too. This is the affectionate and funny story of Adena's life, an unconventional love story that readers will want to share. Clotheshorse or otherwise, this book is for anyone who keeps an old piece of clothing in the back of their closet, wishing that one day those clothes would get up and start talking about the wonderful times you once shared together.

Find love in Amish country in these two stories The Farmer Next Door by Patricia Davids Adrian Lapp vows to never have a family again after losing his wife and son. But the newest resident of the Amish community of Hope Springs captivates him from their first meeting. Widow Faith Martin is strong and courageous. If only Adrian can open himself to the possibility of love again... Lancaster County Target by Kit Wilkinson Nurse Abby Miller witnesses a patient's shocking murder. When the masked killer spots her, she's overpowered—and left for dead. Handsome doctor Blake Jamison vows to keep her safe while investigating the mysterious patient's death. But it may be too late for Abby to protect her heart from the man who is sure to one day leave her behind.

Commensal rodents pose health risks and cause substantial damage to property and food supplies. Rats have also invaded islands and pose a serious threat to native wildlife, particularly raptors and seabirds. Estimates of total damage from introduced rats range into the billions of dollars in developed countries. This book aims to provide a state-of-the-art overview of the scientific advancements in the assessment of exposure, effects and risks that currently used rodenticides may pose to non-target organisms in the environment, along with practical guidance for characterization of hazards. This will be discussed in relation to their efficacy, and the societal needs for rodent control, and discussion of risk mitigation and development of alternatives. The flow in the book is planned as: a. introduction and setting the scene b. problem description (risks and effects on non-targets and secondary poisoning, development of resistance c. alternatives, regulation and risk mitigation d. conclusions and recommendations

Reaping the Whirlwind

A remarkable and powerful story of indomitable human spirit, passion and courage. In 1941 when Keith Watson, a teenage postal clerk from country Queensland, enlisted in the RAAF, he had absolutely no idea what he was getting himself into. The following four years were an adrenaline-filled ride of love, loss, mateship, ambition, courage and an account of how war tests character and puts the young on an accelerated path to maturity. From childhood and his first inspirational flight to his emergence as an elite Path Finder Force pilot, Keith's story is compelling and tragic, yet uplifting. He confronts constant death and injury, challenges authority, learns to skipper a crew and fly with ambition. Keith's graphic accounts of Pathfinder missions bring a deepening sense of the relentless physical and psychological toll on the crews of Bomber Command. Counterbalancing these experiences are Keith's relationships with wartime mates, the woman who loved him, and the UK families who sacrificed much on his behalf. Based on a stunning account of service, sacrifice and two enduring and competing passions - flying and Norah, the love of Keith's life.

The bestselling book for every boy from eight to eighty, covering essential boyhood skills such as building tree houses, learning how to fish, finding true north, and even answering the age old question of what the big deal with girls is. In this digital age there is still a place for knots, skimming stones and stories of incredible courage. This is a celebration of empowerment and the way we approach mental wellness and self-care.

The overall success of an organization is dependent on how marketing is able to inform strategy and maintain an operational focus on market needs. With an array of examples and case studies from around the world, Lancaster and Massingham's vital study offers an alternative to the traditional American focused teaching materials current in use, including a new chapter on digital marketing written by Dr Wilson Ouzem. Topics covered include: consumer and organizational buyer behaviour product and innovation strategies direct marketing Social media marketing Designed and written for undergraduate, MBA and masters students in marketing management classes, Essential edition to provide a solid foundation to understanding this core topic.

A solo game for 1 to 6 players about the experience of flying bombing missions over Germany 1942-44. The RAF and the USAAF dropped 1.6 billion tons of bombs on Germany between 1939 and 1945. The impact on the German war machine was huge, but so was the cost. 55,573 Bomber Command crew lost their lives during this campaign. The game allows the player to assemble their crew, select their target and go through the stages of the mission. From take-off, over the enemy country, to the dropping of bombs, the player will experience the challenges of flying a bomber. The game is based on historical research and includes period material, such as briefings, aide-memoires and maps. Playing the game aims to help the player(s) understand the experience of the crews of Bomber Command a little better.

Since the Second World War, depictions of Royal Air Force operations in film and television drama have become so numerous that they make up a genre worthy of scholarly attention. In this illuminating study, S. P. MacKenzie explores the different ways in which the men of RAF Bomber Command have been represented in dramatic form on years to the present day. Bomber Boys on Screen is the first in-depth study of how and why the screen-drama image of those who flew, those who directed them, and those who provided support for RAF bomber operations has changed over time, sometimes in contested circumstances. Until now dramas that focus on Bomber Command studied in isolation, despite the prevalence of surveys of both the British war film genre and of aviation cinema. In Bomber Boys on Screen MacKenzie examines the development, presentation, and reception of significant dramas on a decade-by-decade basis. Titles from the beginning of the war (The Lion Has Wings, 1939) to the start of ne situated in the context of technical possibilities and limitations, evolving social and cultural norms in the United Kingdom and elsewhere, and the development of moral and utilitarian controversies surrounding the wartime bomber offensive directed against Nazi Germany. While the focus is on feature films and television plays, reference is also made to radio plays, veterans' organizations, book titles, war comics, and other representations of the war fought by Bomber Command.

This is a welcome reissue of a book which has been described as one of the best accounts about life in Bomber Command during World War II. Lancaster Target is the classic story of one crew's fight to survive a full tour of operations in the night skies of wartime Europe. Flying Lancaster bombers from RAF Wickenby in Lincolnshire between 1943 and 1944, Jack Currie chronicles the life and death struggles against flak, night fighters and perilous weather with clarity and feeling, whilst capturing the 'live for the moment' spirit of off-duty escapades. Jack Currie DFC served as a stretcher bearer and later ambulance driver during the London Blitz before gaining his wings in the USA. Having completed his first perilous Lancaster's, he went on to serve as a Pathfinder Mosquito pilot. He remained in the RAF after the war eventually reaching the rank of Squadron Leader. After he left the service, he became a renowned aviation writer and broadcaster and appeared in a number of TV and video productions.

Reveals how memoirs are rich repositories of information about the ways in which veterans remembered, understood, and recounted their war.

This book is part of the Phoneme Factory Project undertaken by Granada Learning in partnership with the Speech and Language Therapy Research Unit (SLTRU) in Bristol. It aims to provide guidance for teachers, SENCos, SLTs and parents regarding: criteria for referral to speech and language therapy phonological disorders appropriate intervention used in the classroom and at home. RAF Bomber Command in Film and Television Drama

#1 New York Times Bestseller In this pathbreaking guide, two of the world's most popular and trusted pet care advocates reveal new science to teach us how to delay aging and provide a long, happy, healthy life for our canine companions. Like their human counterparts, dogs have been getting sicker and dying prematurely over the past few decades. Why? Scientists are beginning to understand that the chronic diseases afflicting humans—cancer, obesity, diabetes, organ degeneration, and autoimmune disorders—also beset canines. As a result, our beloved companions are vexed with preventable health problems throughout much of their lives and suffer shorter life spans. Because our pets can't make health and lifestyle decisions for themselves, it's up to pet parents to make smart, science-backed choices for lasting vitality and health. The Forever Dog gives us the practical, proven tools to protect our loyal four-legged companions. Rodney Habib and Karen Becker, DVM, globe-trotted (pre-pandemic) to galvanize the best wisdom from top geneticists, microbiologists, and longevity researchers; they also interviewed people whose dogs have lived into their 20s and even 30s. The result is this unprecedented and comprehensive guide, filled with surprising information, invaluable advice, and inspiring stories about dogs and the people who love them. The Forever Dog prescriptive plan focuses on diet and nutrition, movement, environmental exposures, and stress reduction, and can be tailored to the genetic predisposition of particular breeds or mixes. The authors discuss various types of food—including what the commercial manufacturers don't want us to know—and offer recipes, easy solutions, and tips for making sure our dogs obtain the nutrients they need. Habib and Dr. Becker also explore how external factors we often don't think about can greatly affect a dog's overall health and wellbeing, from everyday insults to the body and its physiology, to the role our own lifestyles and our vets' choices play. Indeed, the health equation works both ways and can travel "up the leash." Medical breakthroughs have expanded our choices for canine health—if you know what they are. This definitive dog-care guide empowers us with the knowledge we need to make wise choices, and to keep our dogs healthy and happy for years to come.

The Spitfire and the Lancaster were the two RAF weapons of victory in the Second World War, but the glamour of the fighter has tended to overshadow the performance of the heavy bomber. Yet without the Lancaster, Britain would never have been able to take the fight to the German homeland. Highlights the scale of the bomber's achievements, including the famous Damusters attacks. With its vast bomb bay, ease of handling and surprising speed, the mighty Lancaster transformed the effectiveness of the Bomber Command. Whilst addressing the political controversy surrounding the bombing offensive against Germany, Leo McKinstry also weaves individual tales into this compelling narrative. Rich characters are brought to life, such as Roy Chadwick the designer, who taught himself engineering at night school and Sir Arthur Harris, the austere head of the Bomber Command. This is a rich saga, a story of triumph over disaster and the history of an iconic plane.

We flew on ten miles to clear the city, then turned south-west to make our track for home. We left a trail of bursting shells behind us, which grew closer as the gunners found their range. As Fox Two lurched and rattled, Lanham barked a warning from his threatened turret seat. I pushed the nose down, headed southward, and we fled away from danger.'
