A Challenge for Public Art

Convinced that all aspects of modern culture have been affected by avant-garde art, Poggioli explores the relationship between the avant-garde and civilization. Historical parallels and modern examples from all the arts are used to show how the avant-garde is both symptom and cause of many major extra-aesthetic trends of our time, and that the contemporary avant-garde is the sole and authentic one.

"[A] tart, funny, lurid little bomb of a book. It's all p.c., of course, but not at all predictable, and a lot of righteous information gets dispersed in record time."

-- BUST Magazine We were Guerillas before we were Gorillas. From the beginning, the press wanted publicity photos. We needed a disguise. No one remembers, for sure, how we got our fur, but one story is that at an early meeting, an original Girl, a bad speller, wrote 'Gorilla' instead of 'Guerilla.' It was an enlightening mistake. It gave us our mask-ularity. Ever wonder about the abundance of naked male statues in the Classical section of your favorite museum?

Did you know medieval convents were hotbeds of female artistic expression? And how did those "bad boy" artists of the twentieth century make it even harder for a girl to get a break? Thanks to the Guerrilla Girls, those masked feminists whose mission it is to break the white male stronghold over the art world, art history--as we know it--is history. Taking you back through the ages, the Guerrilla Girls demonstrate how males (particularly white males) have dominated the art scene, and discouraged, belittled, or obscured women's involvement. Their skeptical and hilarious interpretations of "popular" theory are augmented by the newest research and the expertise of prominent feminist art historians. "Believe-it-or-not" quotations from some of the "experts" are sprinkled throughout, as are the Guerrilla Girls' signature masterpieces: reproductions of famous art works, slightly "altered" for historic accuracy and vindication. This colorful reinterpretation of classic and modern art, as outrageous as it is visually arresting, is a much-needed corrective to traditional art history, and an unabashed celebration of female artists.

Originally drawn to Yaqui Indian spiritual leader don Juan Matus for his knowledge of psychotropic plants, bestselling author Carlos Castaneda immersed himself in the sorcerer's magical world. Ten years after his first encounter with the shaman, Castaneda examines his field notes and comes to understand what don Juan knew all along—psychotropic plants are merely a means to understanding alternative realities that one cannot fully embrace on one's own. Journey to Ixtlan introduces these clear new ideas—omitted from Castaneda's classic volumes The Teachings of Don Juan and A Separate Reality—to the reader for the first time. Castaneda explores, as he comes to experience it himself, his own final voyage into the teachings of don Juan, and shares with us what it is like to truly "stop the world" and perceive reality on his own terms.

After more than three centuries of silence, the voice of Francesco Cavalli is being heard loud and clear on the operatic stages of the world. The coincidence of productions at La Scala (Milan) and Covent Garden (London) in the same month (September 2008) of two different operas signals a new stage in the recovery of these extraordinary works, confined until now to special venues committed to 'early music'-opera festivals, conservatory, and university productions. The works of the composer who is credited with having invented the genre of opera as we know it are finally enjoying a renaissance. A new edition of Cavalli's twenty-eight operas is in preparation, and the composer and his works are at the center of a great deal of new scholarship ranging from the study of sources and production issues to the cultural context of opera of this period. In the face of such burgeoning interest, this collection of essays considers the Cavalli revival from various points of view. In particular, it explores the multiple issues involved in the transformation of an operatic manuscript into a performance. Although focused on the works of Cavalli, much of this material can transfer easily to other operatic repertoires. Following an introductory part, reflecting back on four decades of Cavalli performances by some of the conductors responsible for the revival of interest in the composer, the collection is divided into four further parts: The Manuscript Scores, Giasone: Production and Interpretation, Making Librettos, and Cavalli Beyond Venice.

Alberto Breccia's Dracula is composed of a series of brutally funny satirical misadventures starring the hapless eponymous antihero. Literally defanged (a humiliating trip to the dentist doesn't help), the protagonist's glory days are long behind him and other, more sinister villains (a corrupt government, overtly backed by American imperialism) are sickening and draining the life out of the villagers far more than one creature of the night ever could. This is the first painted, full-color entry in Fantagraphics' artist-focused Alberto Breccia Library, and the atmospheric palette adds mood and dimension. It also includes a sketchbook showing the artist's process.?

Before their military heroism in the Clone Wars, before their tragic battle on Mustafar, and many decades before their final confrontation on the Death Star, they were Master Obi-Wan Kenobi and his young Padawan, Anakin Skywalker. Now join them a few years into the "chosen one" Anakin's training. Teacher and student have grown closer over time, but it's been a difficult road. And things aren't about to get any easier. In fact, when they are called to a remote planet for assistance, the pair may be pushed to breaking point. As they find themselves stranded on a strange world of primitive technology and deadly natives, will they be able to save themselves? First they must learn who called for help...and why! Nietzsche on Language, Consciousness, and the Body

Hidden Path

Journey To Ixtlan

Nietzsche and the philosophy of language have been a well trafficked crossroads for a generation, but almost always as a checkpoint for post-modernism and its critics. This work takes a historical approach to Nietzsche's work on language, connecting it to his predecessors and contemporaries rather than his successors. Though Nietzsche invited identification with Zarathustra, the solitary wanderer ahead of his time, for most of his career he directly engaged the intellectual currents and scientific debates of his time. Emden situates Nietzsche's writings on language and rhetoric within their wider historical context. He demonstrates that Nietzsche is not as radical in his thinking as has been often supposed, and that a number of problems with Nietzsche disappear when Nietzsche's works are compared to works on the same subjects by writers of the 18th and 19th centuries. Further, the relevance of rhetoric and the history of rhetoric to philosophy and the history of philosophy is reasserted, in consonance with Nietzsche's own statements and practices. Important in this regard are the role of fictions, descriptions, and metaphor.

Brunonia Barry, the New York Times bestselling author of *The Lace Reader*, offers an emotionally compelling novel about finding your true place in the world. Zee Finch has come a long way from a motherless childhood spent stealing boats—a talent that earned her the nickname Trouble. She's now a respected psychotherapist working with the world-famous Dr. Liz Mattei. She's also about to marry one of Boston's most eligible bachelors. But the suicide of Zee's patient Lilly Braedon throws Zee into emotional chaos and takes her back to places she thought she'd left behind. What starts as a brief visit home to Salem after Lilly's funeral becomes the beginning of a larger journey for Zee. Her father, Finch, long ago diagnosed with Parkinson's disease, has been hiding how sick he really is. His longtime companion, Melville, has moved out, and it now falls to Zee to help her father through this difficult time. Their relationship, marked by half-truths and the untimely death of her mother, is strained and awkward. Overwhelmed by her new role, and uncertain about her future, Zee destroys the existing map of her life and begins a new journey, one that will take her not only into her future but into her past as well. Like the sailors of old Salem who navigated by looking at the stars, Zee has to learn to find her way through uncharted waters to the place she will ultimately call home.

In war, no one is safe. War has come to Thornstone, Tarkin's Point, and Thoriddon, throwing all three nations into chaos. Led by the demon lord Vagborar, the legions of orcs are bent on nothing less than the total annihilation of both human and dwarf. With their demonic allies, they just might succeed. But not without a fight. As Serena tries to find answers and a path to victory, Orin and Brom fight with both sword and spell to turn back the tide of darkness. Beside them are a kingdom of dwarves and a city of humans, but even they may not be enough to beat back such a force. If they hope to survive, they need to come together, but with each nation under siege, uniting as one is easier said than done. When one of them is freed from battle, hope is rekindled, but prejudices rise to the surface, threatening everything. If any of them hope to survive, past actions and old hatreds must be forgotten. Hard decisions and painful sacrifices must be made. And pride and egotism must be set aside for the greater good. If not, a new age of evil will dawn upon the world.

Falling in love on an exquisite island off the coast of Kenya, a free-spirited American woman and a Swahili Muslim man share a life of privacy and intimacy until the plans for their wedding force them to confront the violent and tragic realities of mainland life on the eve of the Persian Gulf War. By the best-selling author of *Baby Love*. 15,000 first printing.

From the bestselling author of *Doppler*, a wry and very funny look at the pitfalls of human existence ... and the charms of celebrity chef Nigella Lawson. Aspiring playwright Bror Telemann loves all things British. His wife, Nina, loves everything German. So a family holiday at the foot of the Alps, south of Munich — which Bror believes to be the birthplace of Nazism — is bound to cause tension. Especially when Bror spends the whole time virtually stalking (and constantly fantasizing about) his greatest obsession, British chef Nigella Lawson. Can Telemann continue to bear the pressure of his empty existence? Or will his long-suffering family be the first to snap?

Set in early twentieth-century Spain, *Hidden Path* is a lyrical coming-of-age novel told from the perspective of a woman painter who struggles to find her way with art and with the women she loved. The novel is narrated in the first-person, following María Luisa as she reflects on her life from the turn of the twentieth century through the outset of the Second Spanish Republic (1931–1939). She recalls growing from an imaginative tomboy into a docile wife and mother before claiming her independence as a portrait painter in Madrid's bohemian and queer circles. Along the way, she introduces us to a lively cast of characters who both hinder and encourage her efforts to blaze her own path. The poetic and sensuous language of María Luisa's private reveries comingles with agile dialogue as the protagonist leads us through her life. Best known in Spain as a writer of children's literature, Elena Fortún left this manuscript unpublished at the time of her death in 1952, as its semi-autobiographical content risked provoking homophobic backlash under the dictatorship of Francisco Franco. The first Spanish edition appeared in 2016 and was hailed as Fortún's adult masterpiece, a previously unknown complement to her children's saga *Celia and Her World*. This edition, with Jeffrey Zamostny's sensitive and nuanced translation, marks the novel's first time appearing in any language aside from Spanish; it is also the first of Fortún's works to appear in English. With an insightful foreword by scholar Nuria Capdevila-Argüelles, this volume will be an influential contribution to women's studies, LGBT histories, and Spanish literature and culture.

"This volume brings together a selection of the biographical sketches and reviews that G. Thomas Tanselle has written since 1959. Taken together they show how a biographical approach can serve to characterize a whole field--in this case, the world of books and bibliographical and textual scholarship. Because the pieces gathered here deal with major figures and landmark works, along with representative (if less famous) ones, covering the wide spectrum of bibliography, the collection provides a picture of what was going on in the scholarly book world of the past half-century. The twenty-eight portraits comprise accounts of, or tributes to, collectors, booksellers, librarians, scholarly editors, publishers, bibliographical scholars, literary and historical scholars, and authors. The Reviews section consists of forty-two pieces, mostly book reviews but also including some responses to essays, introductions to anthologies, and retrospective assessments, plus several bibliographies, bibliographical reference works, books on book collecting, and scholarly editions. Other items involve bookcloth, textual theory, book preservation, and the antiquarian book trade. The pieces in both sections of the book sometimes have an autobiographical element, for the author has known many of the people whose lives and works are taken up here"--Provided by publisher.

Carlos Castaneda takes the reader into the very heart of sorcery, challenging both imagination and reason, shaking the very foundations of our belief in what is "natural" and "logical." In 1961, a young anthropologist subjected himself to an extraordinary apprenticeship with Yaqui Indian spiritual leader don Juan Matus to bring back a fascinating glimpse of a Yaqui Indian's world of "non-ordinary reality" and the difficult and dangerous road a man must travel to become "a man of knowledge." Yet on the bring of that world, challenging to all that we believe, he drew back. Then in 1968, Carlos Castaneda returned to Mexico, to don Juan and his hallucinogenic drugs, and to a world of experience no man from our Western civilization had ever entered before.

Liberated from the constraints of sexual ambivalence and formal strategies, these poems are the marvellous flowering of a unique, poetic intelligence.

"A critical review of the history and legacy of Dutch Architecture Institute (NAI) Figueiredo offers insight into how cultural policy works in practice and how specific national cultural institutions relate to the rapidly changing global context. An in-depth investigation into one of the most important architectural institutes in the world and a critical analysis of a phenomenon that has developed since its inception in the early nineteenth century, a fundamental instrument for the promotion and dissemination of architecture"--Publisher's website.

The time of Carnival represents a " wild " time at the end of winter and pointing to the beginning of a new season. It is characterized by the irruption of border figures, animal masks, characters which recall the world of the dead and which bring within themselves the germ of a vital force, of the energy that produces the reawakening of nature and announces the growth and fertility of the new crops. This wild domain shows itself under the shapes of a contiguity between human and animal: the costumes, the masks, refer to a world in which the characteristics of the human and those of the animal are fused and intertwined. Among these figures, in particular, emerge those of the Wild Man, the human being who takes on animal-like attributes and aspects, and of the Bear, the animal that, more than all the others, gets as close as possible to the human and seems to reflect a deformed image of it. Such symbolic images come from far off times and places to tell a story that belongs to our common origins. The bear assumes attributes and functions alike in very different cultural contexts, such as the Sámi of Finland or North-American hunter-gatherers, and represents a boundary between the world of nature and the human world, between the domain of animals and the difficult construction of humanity: a process continued for centuries, perhaps millennia, and which cannot still be said complete.
