

Lawmap In Contract Law

This book brings together leading scholars and practitioners, to explore contemporary challenges in the field of European private law, identify problems, and propose solutions. The first section reassesses the existing theoretical framework and traditional legal scholarship on which European private law has developed. The book then goes on to examine important and practical topics of geo-blocking and standardisation in the context of recent legislative developments and the CJEU case law. The third section assesses the challenging subject of adequate regulation of online platforms and sharing economy that has been continuously addressed in the recent years by European private law. A fourth section deals with the regulatory challenges brought by an increasing development of artificial intelligence and blockchain technology and the question of liability. The final section examines recent European legislative developments in the area of digital goods and digital content and identifies potential future policy directions in which the European private law may develop in the future.

The book remains a central work of criticism for all students of literature.

Research Handbook on Unjust Enrichment and Restitution

A theoretical discussion and internal critique of mainstream law and economics scholarship, especially as it approaches the issue of paternalism. Cserne discusses how, and to what extent, economic analysis can explain and/or justify the limitations on freedom of contract, with special emphasis on paternalism.

This innovative book proposes new theories on how the legal system can be made more comprehensible, usable and empowering for people through the use of design principles. Utilising key case studies and providing real-world examples of legal innovation, the book moves beyond discussion to action. It offers a rich set of examples, demonstrating how various design methods, including information, service, product and policy design, can be leveraged within research and practice.

Risks and Wrongs

A Theory of Poetry

This book is a unique collection of high quality articles analysing legal issues with particular regard to small states. The small states of the world differ considerably in their geography, history, political structures, legal systems and wealth. Nevertheless, because of their size, small states face a set of common challenges including vulnerability to external economic impacts such as changing trade regimes and limited ability to diversify economic activity; limited public and private sector capacity, including the legal and judicial infrastructure; a need for regional co-operation; a vulnerability to environmental changes as well as a limited ability to engage with supranational bodies and the forces of globalisation. This is the first volume of an exciting and unique new series, The World of Small States. In this work, legal experts from small jurisdictions and those with a particular interest in legal issues facing small states explore inter alia ethics in small jurisdictions, legal education and the profession in small states, the challenges facing small states with mixed legal systems, the constitutional arrangements in small states, small states as tax havens, and intellectual property and competition law issues.

This volume provides a comprehensive survey of the contemporary study of Islamic law and a critical analysis of its deficiencies. Written by outstanding senior and emerging scholars in their fields, it offers an innovative historiographical examination of the field of Islamic law and an ideal introduction to key personalities and concepts. While capturing the state of contemporary Islamic legal studies by chronicling how far the field has come, the Handbook also explains why certain debates recur and indicates fundamental gaps in our knowledge. Each chapter presents bold new avenues for research and will help readers appreciate the contested nature of key concepts and topics in Islamic law. This Handbook will be a major reference work for scholars and students of Islam and Islamic law for years to come.

Form and Substance in the Law of Obligations

A Complete Guide to the Law School Experience: By Students, for Students

This book draws together themes in business model developments in relation to decentralised business models (DBMs), sometimes referred to as the 'sharing' economy, to systematically analyse the challenges to corporate and organisational law and governance. DBMs include business networks, the global supply chain, public-private partnerships, the platform economy and blockchain-based enterprises. The law of organisational forms and governance has been slow in responding to changes, and reliance has been placed on innovations in contract law to support the business model developments. The authors argue that the law of organisations and governance can respond to changes in the phenomenon of decentralised business models driven by transformative technology and new socio-economic dynamics. They argue that principles underlying the law of organisations and governance, such as corporate governance, are crucial to constituting, facilitating and enabling reciprocity, mutuality, governance and redress in relation to these business models, the wealth-creation of which subscribes to neither a firm nor market system, is neither hierarchical nor totally decentralised, and incorporates socio-economic elements that are often enmeshed with incentives and relations. of interest to academics, policymakers and legal practitioners, this book offers proposals for new thinking in the law of organisation and governance to advance the possibilities of a new socio-economic future.

This volume brings together new essays in law and philosophy on a broad range of topics in children's and family law. It is the first volume to bring together essays by legal scholars and philosophers for an integrated, critical analysis of key issues in this area, marking the 'coming of age' of a comparatively new field of family law. Debates in children's and family law are at once theoretical and empirical in nature. Not only does children's and family law have significant consequences for individuals' intimate lives, the field's impact on lived experience highlights the socially constructed nature of law. Approaching this area of law often involves exploring a legal concept familiar from daily life, such as the very notion of 'marriage' or 'family', and examining it within its social, economic, and historical context. The normative basis for law regulating intimate personal and family life extends beyond any narrow legal philosophy or social context to its broader foundations in theories of morality or justice. The chapters included bring together a representative and broad range of pieces that engage with long-standing and contemporary debates. A wide range of perspectives is represented on topics such as same-sex marriage, polygamy and polyamory, alimony, unmarried cohabitation, gestational surrogacy and assisted reproductive technologies, child support, parental rights and responsibilities, children's rights, family immigration, religious freedom, and the rights of paid caregivers. There is also philosophical discussion of concepts such as care, intimacy, and the nature of family and family law itself.

Women, Business and the Law 2021 is the seventh in a series of annual studies measuring the laws and regulations that affect women's economic opportunity in 190 economies. The project presents eight indicators structured around women's interactions with the law as they move through their lives and careers: Mobility, Workplace, Paid Pension. This year's report updates all indicators as of October 1, 2020 and builds evidence of the links between legal gender equality and women's economic inclusion. By examining the economic decisions women make throughout their working lives, as well as the pace of reform over the past 50 years, Women, Business and the Law 2021 discusses about the state of women's economic empowerment. Prepared during a global pandemic that threatens progress toward gender equality, this edition also includes important findings on government responses to COVID-19 and pilot research related to childcare and women's access to justice.

Vols. for 1902- include decisions of the District of Columbia Court of Appeals and various other courts of the District of Columbia.

The Color of Law: A Forgotten History of How Our Government Segregated America

New York Times Bestseller • Notable Book of the Year • Editors' Choice Selection One of Bill Gates' "Amazing Books" of the Year One of Publishers Weekly's 10 Best Books of the Year Longlisted for the National Book Award for Nonfiction An NPR Best Book of the Year Winner of the Hillman Prize for Nonfiction Gold Winner • California Book Award (Nonfiction) Finalist • Los Angeles Times Book Prize (History) Finalist • Brooklyn Public Library Literary Prize This "powerful and disturbing history" exposes how American governments deliberately imposed racial segregation on metropolitan areas nationwide (New York Times Book Review). Widely heralded as a "masterful" (Washington Post) and "essential" (Slate) history of the modern American metropolis, Richard Rothstein's The Color of Law offers "the most forceful argument ever published on how federal, state, and local governments gave rise to and reinforced neighborhood segregation" (William Julius Wilson). Exploding the myth of de facto segregation arising from private prejudice or the unintended consequences of economic forces, Rothstein describes how the American government systematically imposed residential segregation, with undisciplined racial zoning, public housing that purposefully segregated previously mixed communities, subsidies for builders to create white-only suburbs, tax exemptions for institutions that enforced segregation, and support for violent resistance to African Americans in white neighborhoods. A groundbreaking, "virtually indispensable" study that has already transformed our understanding of twentieth-century urban history (Chicago Daily Observer), The Color of Law forces us to face the obligation to remedy our unconstitutional past.

As a fundamental institution of human societies, law is a deeply influential factor in individual and social activity. Yet its normative status is controversial, particularly in pluralistic, secularized societies. Is law essentially the result of legislative creation and judicial interpretation, or can and should it reflect ethical values and imperatives? If it can what are the sources of those imperatives, and how do they achieve the necessary degree of social consensus in religiously diverse societies that are increasingly globalized and globalizing as a consequence of culture, commerce, communication and immigration? The Global Ethic and Law: Intersections and Interactions contributes to the consideration of these questions. Its contributors include academics from the U.S.A. and Europe, as well as Hans Kueng, the author of the 1993 "Declaration Towards a Global Ethic" adopted by the Parliament of World Religions and Stephan Schlenker, General Secretary of the Global Ethic Foundation of Tuebingen, Germany.

Contract Law

New Directions in European Private Law

The rapid development of information technology has exacerbated the need for robust personal data protection, the right to which is safeguarded by both European Union (EU) and Council of Europe (CoE) instruments. Safeguarding this important right entails new and significant challenges as technological advances expand the frontiers of areas such as surveillance, communication interception and data storage. This handbook is designed to familiarise legal practitioners not specialised in data protection with this emerging area of the law. It provides an overview of the EU's and the CoE's applicable legal frameworks. It also explains key case law, summarising major rulings of both the Court of Justice of the European Union and the European Court of Human Rights. In addition, it presents hypothetical scenarios that serve as practical illustrations of the diverse issues encountered in this ever-evolving field.

This volume explores the relationship between form and substance in the law of obligations. It builds on the rich tradition of legal thought that deploys the concepts of form and substance to inform our understanding of the common law. The essays in this collection offer multiple conceptions of form and substance and cover an array of private law subjects, scholarly approaches and jurisdictions. The collection makes it clear that the interplay between form and substance is a key element of the dynamism that characterises this area of the law.

Each subject is broken down and presented on an easy-to-use fold-out "map". The maps use spider-diagrams and flowcharts to provide a concise, authoritative revision accessory, giving the student an at-a-glance tool for understanding how the different topics within each subject are connected. The maps can be pinned to walls to make the revision process easier. Students will find that these maps are an invaluable aid in their research, in encouraging creative thinking and in providing solutions to problem questions.

Jules Coleman discusses the conflict between the goals of justice and economic efficiency in the allocation of risk, especially risk pertaining to safety.

I WISH I KNEW THEN WHAT I KNOW NOW! Don't get to the end of your law school career muttering these words to yourself! Take the first step toward building a productive, successful, and perhaps even pleasant law school experience—read this book! Written by students, for students, Law School Confidential has been the "must-have" guide for anyone thinking about law for more than a decade. And now, in this newly revised third edition, it's more valuable than ever. This isn't the advice of graying professors or battle-scarred practitioners long removed from law school. Robert H. Miller has assembled a blue-ribbon panel of recent graduates from across the country to offer realistic and informative firsthand advice about what law school contains the very latest information and strategies for thriving and surviving in law school—from navigating the admissions process and securing financial aid, choosing classes, studying and exam strategies, and securing a seat on the law review to getting a judicial clerkship and a job, passing the bar exam, and much, much more. Newly added material also reveals education, turning it away from the theory-based platform of the previous several decades to a pragmatic platform being demanded by the rigors of today's practices. Law School Confidential is a complete guide to the law school experience that no prospective or current law student can afford to be without.

This comprehensive yet accessible Research Handbook offers an expert guide to the key concepts, principles and debates in the modern law of unjust enrichment and restitution.
