Author of Dopesick, the New York Times bestselling book that inspired the Hulu limited series New York Times Bestselling author of Dopesick and Factory Man In her characteristic narrative style, Beth Macy pulls the massive national health crisis that is opioid addiction down to its compelling, character-driven, emotional core to illustrate the personal cost American families have been forced to shoulder. This is the necessary follow up to DOPESICK, deeply reported and full of breaking news, that makes clear that entire swathes of America--especially rural America--have been left to fend for themselves. Nearly a decade into the second wave of America’s opioid epidemic, pharmaceutical companies are finally being forced to answer for the crisis they created. As bestsellers such as EMPIRE OF PAIN have brought to life, the pending multi-district litigation against opioid makers, distributors, and retailers could result in tens of millions of dollars to help treat the disease of addiction and provide communities across America with resources to help those struggling with addiction. And yet there is no consensus on the best treatment available to help addicted people, nor an understanding of how to scale the programs that have proven successful. Macy examines--as she did with FACTORY MAN--what happens when political forces beyond the control of individuals come to define generations of Americans. This complex story of public health, big pharma, dark money, politics, race, and class will take the story of DOPESICK into the present day, showing that the increase in the number of overdose deaths during the COVID pandemic illustrates the tremendous need across America to change the conditions that make addiction so prevalent and which prevent those seeking treatment to begin new lives.

Ëf my present reader happens to be a Boy Scout or a scout-master who wants the scouts to build a tower for exhibition purposes, he can do so by following the directions here given, but if there is real necessity for haste in the erection of this tower, of course we cannot build one as tall as we might where we have more time. With a small tower all the joints may be quickly lashed together with strong, heavy twine, rope, or even wire; and in the wilderness it will probably be necessary to bind the joints with pliable roots, or cordage made of bark or withes; but as this is not a book on woodcraft we will suppose that the reader has secured the proper material for fastening the joints of the frame of this signal-tower and he must now shoulder his axe and go to the woods in order to secure the necessary timber. First let him cut eight straight polesÑthat is, as straight as he can find them. These poles should be about four and one half inches in diameter at their base and sixteen and one half feet long. After all the branches are trimmed off the poles, cut four more sticks each nine feet long and two and a half or three inches in diameter at the base; when these are trimmed into shape one will need twenty six or seven more stout sticks each four and one half feet long for braces and for flooring for the platform.

Before the stranger can say anything else, a gunshot through the window kills her instantly. Seasoned detective Paul Grant is assigned to investigate the girl's murder. He senses that the shooting was not random but doesn't know the connection to his only witness. Was the girl referring to Julianna's presumed dead husband, her lazy stepson, her shady bar manager, or someone else? For Michael Christopher, a former monk now working in the St. Luke's Mission hospice, the angel is not really the point. All Mike knows is that he is not going to make it to his step-daughter's gymnastic meet tonight, because this is almost certainly Alejandro's night to die, and it is his job to help the boy do that as mercifully as possible. The rest is in the hands of God. But God, it seems, has something else in mind. A first full-length work by the MacArthur Award-winning author of the story collections The Question of Bruno and Nowhere Man finds the murder of Jewish immigrant Lazarus Averbuch triggering ethnic and political tensions in early twentieth-century Chicago, an event that is investigated a century later by a young writer from Eastern Europe. Having been involved in the shipping industry for more than 20 years in different roles, I have been wanting to publish a book on the complex subject of ship building contract. My association with Norwegian shipping companies who constantly upgraded their fleet of ships made the subject all the more interesting with first hand experience at various shipyards. The thought of the development taking place around the Indian coast and the Government of India focus on developing the maritime sector prompted me to write this book. This book guides on the various aspects of a ship building contract.
