

Le Chat Du Rabbïn

Alger, une communaut e juive du d but du XXe si cle. Au centre de l'ac tion, le chat du rabbïn. Tordant, le chat : un squelette   oreilles, une d e gaine de poubelle, un go  t prononc e pour la discussion  c'est un chat parlant. En l'occurrence, il raconte   Zlabya, sa ma  tresse ador e (et fille du rabbïn), la v  rit e sur le Malka des Lions  un cousin qui doit arriver prochainement, tout sur  le  t gend . On le dit capable de dompter un lion, m  me les yeux ferm s. La v  rit e, c'est qu'il   pour ami un vieux lion poussif avec lequel il a mont e un num  ro : le lion effraie le monde, le Malka arrive et arrange tout. Ce qui lui attire gloire et r  compenses vari es es. En attendant, le rabbïn a un probl me : le consistoire tira   l'ite de France exige de lui qu'il fasse une dict e  . En effet, s'il veut  tre agr  e   rabbïn officiel au lieu de "juste rabbïn comme  a", il doit  crire en fran  ais  pour faire la pri  e en h  breu   des Juifs qui parlent arabe, note le chat dans sa grande sagesse. Le chat est d  sol  e   "Mon ma  tre, qui aime tant les livres, est en train de loup er sa dict e  ." Ce qui le pousse, en d  espoir de cause,   invoquer le nom de Dieu alors que c'est interdit. R  sultat : il perd la parole, retrouve son statut de chat qui ne lui pla  t pas. Heureusement, pour notre plus grand plaisir, il continue de penser : "Il va te prendre ta fille et tu seras vieux et elle sera vieille et elle aura des enfants qui seront vieux et tout le monde mourra." C'est tr  s triste, mais on note deux bonnes nouvelles : contre toute attente, le rabbïn a r  ussi sa dict e   "le consistoire fran  ais il est tr  s fier de vous"  et toute la smala reviendra bient  t dans l'Exode. Apr  s La Bar-Mitva, premier  pisode encors   par le critique, Sfar nous donne encore une fois un chef-d'oeuvre d'intelligence, d'humour et de tendresse  trois vertus qui s'expriment autant dans les dialogues, captivants et savoureux, que dans le dessin, merveilleux de finesse et de dr  lerie. La pr  face de cet album est sign  e Fellag.

Hormones rule our internal world: they control our growth, our metabolism, weight, water-balance, body clocks, fertility, muscle bulk, mood, speed of aging, whether we want sex or not (and whether we enjoy it) and even whom we fall in love with. Their effects may occur in seconds and be over in a flash, or emerge over months and last for years. In The Truth About Hormones Vivienne Parry explains how exactly these mysteriously powerful chemicals affect our bodies and our behaviour.

Based on a true story, Once Upon a Time in France follows the life of Joseph Joanovici, a Romanian Jew who immigrated to France in the 1920s and became one of the richest men in Europe as a scrap-metal magnate. For some, he was a villain. For others, a hero. As Germany occupies France, Mr. Joseph thinks his influence can keep his family safe, but he soon finds that the only way to stay one step ahead of the Nazis is to keep his friends close and his enemies closer. Though he plays both sides of the fence as a Nazi collaborator and French resistant, a tangled web of interests forms around him that proves it will take a lot more than money to pay for the survival of his family. An international bestseller with over 1 million copies sold, the French series Once Upon a Time in France, collected here in one omnibus edition, has won the BDGest'Arts Best Scenario Award, BDGest'Arts Album of the Year, and Angoul me International Comics Festival Best Series Award, among many others.

Mais l'auteur profite surtout de son Chat pour tranquillement philosopher et reprend avec son lecteur cette conversation informelle autour de Dieu et des hommes, un dialogue d lectable, et toujours jouissif dont on ressort un peu meilleur, en se posant plus de questions qu'avant d'en commencer la lecture. Suddenly, comics are everywhere: a newly matured art form, filling bookshelves with brilliant, innovative work and shaping the ideas and images of the rest of contemporary culture. In Reading Comics, critic Douglas Wolk shows us why and how. Wolk illuminates the most dazzling creators of modern comics—from Alan Moore to Alison Bechdel to Chris Ware—and explains their roots, influences, and where they fit into the pantheon of art. As accessible to the hardcore fan as to the curious newcomer, Reading Comics is the first book for people who want to know argue about them.

Sfar So Far is the first monograph in any language devoted to the graphic novels of Joann Sfar, an artist whose abundant and innovative work has profoundly marked the contemporary French comics scene. This book examines how, over the past two decades, Sfar has constructed an idiosyncratic universe with its own thematic and stylistic recurrences: a playful drafting style, contrasting with the thoughtful introduction of historical, theological, and philosophical matters; a sophisticated use of literary, filmic, musical, and pictorial references; an exploration of French society, an affinity for magic realism, fairy tales, heroic fantasy, the fantastic, and science fiction, often filtered through irony or parody; and a predilection for romantic musings and an interest in unconventional love stories.

Gaining the ability to speak after swallowing a parakeet, the rabbis' cat uses his newfound talent to tell lies, the consequences of which lead to being banned from contact with the rabbi's daughter and an education in the Torah, despite his preference for the Kabbalah and his desire for a bar mitvah. The Truth About Hormones

Pascin, a biography of the noted Jewish modernist painter (Julius Mordeciai Pincas, known as Pascin, March 31, 1885June 5, 1930), is Joann Sfar's most personal and important work. Pascin is portrayed by Sfar both as a kindred spirit and an aesthetic revolutionary struggling to redefine an art form. Sfar revels in the artist's celebration of all things corporeal in the world of art. Though the story is drenched in sex, it is never eroticized. Created in a direct and immediate drawing style, Sfar focuses more on the artist's personal and sexual life than on his art, and brings Pascin to life as the ultimate bohemian. Joann Sfar is considered one of the most important artists of the new wave of European comics. He is the author and artist on a great number of acclaimed graphic novels includingThe Rabbi's Cat, Klezmer: Tales of the Wild East, Vampire Loves, andDungeon. He wrote and directed Gainsbourg: Une Vie Heroique, the biopic of the illustrious French songwriter and singer. The film was released in 2010 to international acclaim.

#1 International Bestseller "In this surging epic, a veritable decathalon of the spirit, Kennedy incisively dramatizes the enigma of chance, petty cruelty, and catastrophic evil," unalloyed grief," and the tensile strength concealed beneath our obvious vulnerability."  Booklist (starred review) "On the night of her thirteenth birthday, Jane Howard made a vow to her warning parents: she would never get married, and she would never have children. But life, as Jane comes to discover, is a profoundly random business. Many years and many lives later, she is a professor in Boston, in love with a brilliant, erratic man named Theo. And then Jane becomes pregnant. Motherhood turns out to be a great welcome surprise  but when a devastating turn of events tears her existence apart she has no choice but to flee all she knows and leave the world. Just when she has renounced life itself, the disappearance of a young girl pulls her back from the edge and into an obsessive search for some sort of personal redemption. Convinced that she knows more about the case than the police do, she is forced to make a decision  stay hidden or bring to light a shattering truth. Leaving the World is a riveting portrait of a brilliant woman that reflects the way we live now, of the many routes we follow in the course of a single life, and of the arbitrary nature of destiny. A critically acclaimed international bestseller, it is also a compulsive read and one that speaks volumes about the dilemmas we face in trying to navigate our way through all that fate throws in our path.

We're right in the middle of World War I, deep in the trenches. The soldiers are confronted by unimaginable suffering and violent death on a daily basis. Considered as nothing more than cannon fodder by their superiors, they try desperately to survive. Partly as an act of defiance in the face of hardship, partly as the ultimate irony, the soldiers nickname their regiment after the famous Parisian cabaret club 'Folies Berg re'. They laugh and joke, they write, they draw, they fight, they die in appalling circumstances, they kill themselves, they lose their minds. And then one of their number is sentenced to death by firing squad... and miraculously survives...

The Secret of the Yellow Death

"Extremely interesting . . . Young people interested in medicine or scientific discovery will find this book engrossing, as will history students" (School Library Journal). [He had] a fever that hovered around 104 degrees. His skin turned yellow. The whites of his eyes looked like lemons. Nauseated, he gagged and threw up again and again . . . Here is the true story of how four Americans and one Cuban tracked down a killer, one of the world's most vicious plagues: yellow fever. Journeying to fever-stricken Cuba in the company of Walter Reed and his colleagues, the reader feels the heavy air, smells the stench of disease, hears the whine of mosquitoes biting human volunteers during surreal experiments. Exploring themes of courage, cooperation, and the ethics of human experimentation, this gripping account is ultimately a story of the triumph of science." [A] powerful exploration of a disease that killed 100,000 U.S. citizens in the 1800s."   Kirkus Reviews Includes photos

"Charlotte Bismuth gives us a bold and cinematic true crime story about her work at the intersection of medicine and greed. Bad Medicine is a gripping memoir that toggles deftly between the personal and prosecutorial."   Beth Macy, New York Times bestselling author of Dopesick "Bismuth has written a brilliant account of prosecuting a doctor who became a drug dealer in a white coat. She is haunted by the voices of the dead and listening closely to the voices of the living."   Nan Goldin, artist, activist, and founder of P.A.I.N. "Bad Medicine is a taut exploration of America's deadly battle with opioid addiction  an unnerving and inspirational firecracker of a book."   Karen Abbott, New York Times bestselling author of The Ghosts of Eden Park For fans of Dopesick and Bad Blood, the shocking story of New York's most infamous pill-pushing doctor, written by the prosecutor who brought him down. In 2010, a brave whistleblower alerted the police to Dr. Stan Li's corrupt pain management clinic in Queens, New York. Li spent years supplying more than seventy patients a day with oxycodone and Xanax, trading prescriptions for cash. Emergency room doctors, psychiatrists, and desperate family members warned him that his patients were at risk of death but he would not stop. In Bad Medicine, former prosecutor Charlotte Bismuth meticulously recounts the jaw dropping details of this criminal case that would span four years, culminating in a landmark trial. As a new assistant district attorney and single mother, Bismuth worked tirelessly with her team to bring Dr. Li to justice. Bad Medicine is a chilling story of corruption and greed and an important look at the role individual doctors play in America's opioid epidemic.

Originally published in 1954, *The Wilder Shores of Love is the classic biography of four nineteenth-century European women who leave behind the industrialized west for Arabia in search of romance and fulfillment. Hailed by The Daily Telegraph as "enthraling to read," Lesley Blanch's first book tells the story of Isabel Burton, the wife and traveling companion of the explorer Richard Burton; Jane Digby, who exchanged European society for an adventure in loving; Aim e Dubuq  de Riverzy, a Frenchwoman captured by pirates who became a member of the Turkish sultan's harem; and Isabelle Eberhardt, a Swiss woman who dressed as a man and lived among the Arabs of Algeria.*

The strange M. Proust – the narrator, the author, and the embodiment of A la Recherche du Temps perdu – is now so canonical a writer that his very strangeness is easily overlooked. His book made of other books, his epic composed of extraordinary miniatures, his orderly structure where every law is subverted, his chronology where time can be undone and his geography where places can superimpose: in these, and many other ways, Proust continues to astonish even readers who have engaged with him for their entire careers. In this book, arising from the Princeton symposium of 2006, major critics come together to offer provocative readings of a work which is at the same time classical and unusual, French and foreign, familiar and strange. The book is dedicated to the memory of Malcolm Bowie (1943–2007), whose keynote address was one of his last major lectures. Other contributors include David Ellison, Anne Simon, Eugene Nicole, Joseph Brami, Raymonde Coudert, Christie McDonald, Michael Wood and Antoine Compagnon.
