Under Smith's leadership, the Falcons earned an 11–5 record in his first season and would go on to become perennial playoff and Super Bowl contenders earning Smith AP Coach of year in 2008 and voted Coach of Year by his peers in 2008, 2010 and 2012. *You Win in the Locker Room First* draws on the extraordinary experiences of Coach Mike Smith and Jon Gordon—consultant to numerous college and professional teams—to explore the seven powerful principles that any business, school, organization, or sports team can adopt to revitalize their organization. Within the pages of a book exists a world drawn from a writer's deepest imaginings, one that has the ability to pull readers in on a visceral level. But the audience's fascination will only last if the writer can describe this vibrant realm and its inhabitants well. The setting achieves this by offering readers a unique sensory experience. So much more than stage dressing, the setting can build mood, convey meaning through symbolism, drive the plot by creating challenges that force the hero to fight for what he wants, and trigger his emotions to reveal his most intimate feelings, fears, and desires. Inside this volume you will find:

- A list of the sights, smells, tastes, textures, and sounds for over 100 settings revolving around school, home, and nature
- Possible sources of conflict for each location to help you brainstorm ways to naturally complicate matters for your characters
- Advice on the many effective ways to build mood, helping you steer both the character's and readers' emotions in every scene
- Information on how the setting directly influences the plot by acting as a tuning fork for what a character needs most and by testing his dedication to his goals
- A tutorial on figurative language and how different descriptive techniques can bring settings alive for readers while conveying a symbolic message or deeper meaning
- A review of the challenges that arise when writing description, as well as special considerations that apply specifically to rural and personal settings

The **Rural Setting Thesaurus** takes "show-don't-tell" to new heights. It offers writers a roadmap to creating fresh setting imagery that impacts the story on multiple levels and keeps readers engaged from the first page to the last.

When school buildings are aging, a decision must be made as to whether to continue to maintain the existing building, renovate building, or build new. Very seldom is extending the existing buildings life over building a new building. If renovation costs exceed 50% of the cost of new construction, it is better to build instead of renovating. The taxpayers in your community will have much to say on whether to renovate or build new. Much emphasis should be given to taxpayer input before the school board makes a final decision. School administrators are responsible to the community for maintaining school buildings and they owe an explanation to the community of what has been done to protect existing school buildings. This book is developed to help aspiring teachers who want to become principals, business managers or superintendents, that existing buildings need to be properly maintained and functional and can continue to serve the public for many years to come.
