In this book you will discover "how good teachers across America have been forced to use controversial, non-academic methodology in their classrooms; how "school choice" is being used to further dangerous reform goals, and how home schooling and private education are especially vulnerable; how workforce training (school-to-work) is an essential part of an overall plan for a global economy, and how this plan will shortcircuit your child's future career plans and opportunities; [and] how the international, national, regional, state and local agendas for education reform are all interconnected and have been for decades. The deliberate dumbing down of America is a chronological history of the past 100+ years of education reform. Each chapter takes a period of history and recounts the significant events, including important geopolitical and societal contextual information. Citations from government plans, policy documents, and key writings by leading reformers record the rise of the modern education reform movement"--Website:

NEW YORK TIMES BESTSELLER The complete, uncensored history of the award-winning The Daily Show with Jon Stewart, as told by its correspondents, writers, and host. For almost seventeen years, The Daily Show with Jon Stewart brilliantly redefined the borders between television comedy, political satire, and opinionated news coverage. It launched the careers of some of today's most significant comedians, highlighted the hypocrisies of the powerful, and garnered 23 Emmys. Now the show's behind-the-scenes gags, controversies, and camaraderie will be chronicled by the players themselves, from legendary host Jon Stewart to the star cast members and writers—including Samantha Bee, Stephen Colbert, John Oliver, and Steve Carell — plus some of The Daily Show's most prominent guests and adversaries: John and Cindy McCain, Glenn Beck, Tucker Carlson, and many more. This oral history takes the reader behind the curtain for all the show's highlights, from its origins as Comedy Central's underdog late-night program to Trevor Noah's succession, rising from a scrappy jester in the 24-hour political news cycle to become part of the beating heart of politics—a trusted source for not only comedy but also commentary, with a reputation for calling bullshit and an ability to effect real change in the world. Through years of incisive election coverage, passionate debates with President Obama and Hillary Clinton, feuds with Bill O'Reilly and Fox, and provocative takes on Wall Street and racism, The Daily Show has been a cultural touchstone. Now, for the first time, the people behind the show's seminal moments come together to share their memories of the last-minute rewrites, improvisations, pranks, romances, blow-ups, and moments of Zen both on and off the set of one of America's most groundbreaking shows.

More than twenty years ago, Jon Kabat-Zinn changed the way we thought about awareness in everyday life with his now-classic introduction to mindfulness, *Wherever You Go, There You Are*. He followed that up with 2005's *Coming to Our Senses*, the definitive book for our time on the connection between mindfulness and our well-being on every level, physical, cognitive, emotional, social, planetary, and spiritual. Now, *Coming to Our Senses* is being repackaged into 4 smaller books, each focusing on a different aspect of mindfulness, and each with a new foreword written by the author. In the third of these books, *The Healing Power of Mindfulness* (which was originally published as Part V and Part VI of *Coming to Our Senses*), Kabat-Zinn focuses on the ways mindfulness can change the body and rewire the mind—explaining what we're learning about neuroplasticity and the brain, how meditation can affect the immune system, and what mindfulness can teach us about facing impermanence and, eventually, the end of our own lives. By "coming to our senses"—both literally and metaphorically—we can become more compassionate, more embodied, more aware human beings, and in the process, contribute to the healing of the body politic as well as our own lives in ways both little and big.

Are morals always relative? Are private actions--among consenting adults--always beyond the law? Or are there some behaviors that weaken a society that common beliefs about right and wrong must be enforced to protect the common good? In opposing the legalization of private acts of homosexuality in Britain, Patrick Devlin maintained that not only is it reasonable to allow popular morality to influence lawmaking, it is imperative: ". . . For a society is not something that is kept together physically; it is held by the invisible bonds of shared thought." Some sidestep this controversial issue by asserting that the law should not be used to enforce any morality. Others cite John Mill's doctrine that the only purpose for laws governing any member of society is to prevent harm to others, chiefly physical harm. It is argued, while breaches of shared morality do not cause harm to other individuals in the way that murder and assault do, they do so by undermining its moral structure. Patrick Devlin (1905-1992) studied history and law at Cambridge University and became a lawyer.
