"Why are you learning Zulu?" When Mark Sanders began studying the language, he was often asked this question. In *Learning Zulu*, Sanders places his own endeavors within a wider context to uncover how, in the past 150 years of South African history, Zulu became a battleground for issues of property, possession, and deprivation. Sanders combines elements of analysis and memoir to explore a complex cultural history. Perceiving that colonial learners of Zulu saw themselves as repairing harm done to Africans by Europeans, Sanders reveals deeper motives at work in the development of Zulu-language learning—from the emergence of the pidgin Fanagalo among missionaries and traders in the nineteenth century to widespread efforts, in the twentieth and twenty-first centuries, to teach a correct form of Zulu. Sanders looks at the white appropriation of Zulu language, music, and dance in South African

culture, and at the association of Zulu with a martial masculinity. In exploring how Zulu has come to represent what is most properly and powerfully African, Sanders examines differences in English- and Zulu-language press coverage of an important trial, as well as the role of linguistic purism in xenophobic violence in South Africa. Through one person's efforts to learn the Zulu language, *Learning Zulu* explores how a language's history and politics influence all individuals in a multilingual society.

This volume contributes to a better understanding of both psycho- and sociolinguistic levels of multilingualism and their interplay in development and use. The chapters stem from an international group of specialists in multilingualism with chapters from Austria, Canada, Germany, Hungary, Israel, Italy, Slovakia, South Africa, Spain and the United States. The chapters provide an update on research on third language acquisition and multilingualism, and pay particular attention to new research concepts and the exploration of contact phenomena such as transfer and language learning strategies in diverse language contact scenarios. Concepts covered include dominant language constellations, mother tongue, germination factors and communicative competence in national contexts. Multilingual use as described and applied in the volume aims at demonstrating and identifying current and future challenges for research on third language acquisition and multilingualism. The third languages in focus include widely and less widely used official, minority and migrant languages in instructed and/or natural contexts, including Albanian, Arabic, Basque, English, French, German, Hungarian, Italian, Romanian, Spanish, Punjabi, Russian, Turkish, and Vietnamese, thereby mapping a high variety of language constellations.

The beadwork designs of the Zulu-speaking people of southern Africa have evolved from a craft tradition that developed over many generations. Duduza. Bopha. Imbiza. Phapha. Asixoliseni. Amapopeye . . . What is the power of a single word? Six days a week, advertising creative Melusi Tshabalala posts a Zulu word on his Everyday Zulu Facebook page and tells a story about it. His off-beat sense of humour, razor-sharp social observations and frank political commentary not only teaches his followers isiZulu but also offer insight into the world Melusi inhabits as a 21st century Zulu man. Over the past few months he has built up a big and a loyal following that include radio host Jenny Crwys-Williams and Afrikaans author Marita van der Vyfer. He pokes fun at our differences and makes us laugh at ourselves and each other.

Melusi asks critical questions of everyone, from Aunty Helen, Dudu-Zille to Silili (Cyril Ramaphosa) and even Woolworths (why are their aircons always set on 'jou moer'?) His fans love him for his honesty and commitment to pointing out subtle and overt forms of prejudice and racism. Melusi's Everyday Zulu holds up a mirror that shows South African society in all its flaws and its sheer humanity. Most importantly, he shows the power of words and that there's um'zulu in all of us!

#1 NEW YORK TIMES BESTSELLER • More than one million copies sold! A “brilliant” (Lupita Nyong’o, Time), “poignant” (Entertainment Weekly), “soul-nourishing” (USA Today) memoir about coming of age during the twilight of apartheid “Noah’s childhood stories are told with all the hilarity and intellect that characterizes his comedy, while illuminating a dark and brutal period in South Africa’s history that must never be forgotten.”—Esquire Winner of the Thurber Prize for American Humor and an NAACP Image Award • Named one of the best books of the year by The New York Time, USA Today, San Francisco Chronicle, NPR, Esquire, Newsday, and Booklist Trevor Noah’s unlikely path from apartheid South Africa to the desk of The Daily Show began with a criminal act: his birth. Trevor was born to a white Swiss father and a black Xhosa mother at a time when such a union was punishable by five years in prison. Living proof of his parents’ indiscretion, Trevor was kept mostly indoors for the earliest years of his life, bound by the extreme and often absurd measures his mother took to hide him from a government that could, at any moment, steal him away. Finally liberated by the end of South Africa’s tyrannical white rule, Trevor and his mother set forth on a grand adventure, living openly and freely and embracing the opportunities won by a centuries-long struggle. Born a Crime is the story of a mischievous young boy who grows into a restless young man as he struggles to find himself in a world where he was never supposed to exist. It is also the story of that young man’s relationship with his fearless, rebellious, and fervently religious mother—his teammate, a woman determined to save her son from the cycle of poverty, violence, and abuse that would ultimately threaten her own life. The stories collected here are by turns hilarious, dramatic, and deeply affecting. Whether subsisting on caterpillars for dinner during hard times, being thrown from a moving car during an attempted kidnapping, or just trying to survive the life-and-death pitfalls of dating in high school, Trevor illuminates his curious world with an incisive wit and unflinching honesty. His stories weave together to form a moving and searingly funny portrait of a boy making

his way through a damaged world in a dangerous time, armed only with a keen sense of humor and a mother's unconventional, unconditional love.

This book is the very first collection of first-person language learning narratives that offers rich introspective data on the various processes and forces shaping the development and maintenance of multiple languages (seven and more) in a single individual. The

writers are twelve multilinguals who have been influenced by quite different contextual factors and who have learned a wide range and combination of dialects and languages from both similar and very different linguistic families. The combinations explored in the narratives include some lesser-known languages that come from under-researched areas, such as the African continent, certain parts of Asia, the Middle East, and Eastern Europe. Also unique are two theoretical chapters which analyze the narrative data against the background of language development research findings within several thematic areas: multiple language learning as a complex dynamic system; the influence of bilingualism/multilingualism on the acquisition of additional languages; cross-linguistic influence; and also emotions, motivation, and identity. The aim of this juxtaposition and analysis is to allow a meaningful comparison of the extent to which etic, researcher-generated, and emic, learner-offered perspectives match or diverge, and to identify new questions that the emic data may add to research agendas. The book is an excellent resource not only for researchers but also for teachers as well as for students of language at the graduate and undergraduate level. Learn to Speak Zulu provides a simplified introduction to writing and speaking Zulu. It is aimed at beginners to the language who are looking for a fast paced introduction. As a mother-tongue, Zulu is spoken by more people than any other language in South Africa. This book is ideal for tourists, school children who want to pick up a second language and teachers looking for a good grammatical description of Zulu.

Challenging the stereotype that black people who lived under South African apartheid have no happy memories of the past, this examination into nostalgia carves out a path away from the archetypical musings. Even though apartheid itself had no virtue, the author, himself a young black man who spent his childhood under apartheid, insists that it was not a vast moral desert in the lives of those living in townships. In this deep meditation on the experiences of those who lived through apartheid, it points out that despite the poverty and crime, there was still art, literature, music, and morals that, when combined, determined the shape of black life during that era of repression.
