

Let Me Hear Your Voice A Familys Triumph Over Autism

The Testimony of Children A moving picture book for older children and families that introduces a difficult topic, amplifying the voices and experiences of immigrant children detained at the border between Mexico and the US. The children's actual words (from publicly available court documents) are assembled to tell one heartbreaking story, in both English and Spanish (back to back). Each spread is illustrated in striking full-color by a different Latinx artist. A portion of sales will be donated to human rights organizations that work with children on the border.

Making a Difference: Behavioral Intervention for Autism provides practitioners, researchers, and parents with information needed to make decisions about the individuals in their care with autism. Described in the work are the challenges parents face in obtaining effective treatment for their children and how they navigated those challenges. Also included are chapters written by professionals on finding creative and caring means of helping people with autism and their families. *Making a Difference* combines solid, data-based information with practical problem-solving strategies and is a valuable resource for all who strive to maximize the achievements of individuals with autism.

From one of Korea's literary stars, a novel about two orphans from the streets of Seoul: one becomes the head of a powerful motorcycle gang, and the other follows him at all costs In South Korea, underground motorcycle gangs attract society's castoffs. They form groups of hundreds and speed wildly through cities at night. For Jae and Dongyu, two orphans, their motorcycles are a way of survival. Jae is born in a bathroom stall at the Seoul Express Bus Terminal. And Dongyu is born mute—unable to communicate with anyone except Jae. Both boys grow up on the streets of Seoul among runaway teenagers, con men, prostitutes, religious fanatics, and thieves. After years navigating the streets, Jae becomes an icon for uprooted teenagers, bringing an urgent message to them and making his way to the top of the gang. Under his leadership, the group grows more aggressive and violent—and soon becomes the police's central target. A novel of friendship—worship and betrayal, love and loathing—and a searing portrait of what it means to come of age with

nothing to call your own, I Hear Your Voice resonates with mythic power. Here is acclaimed author Young-ha Kim's most daring novel to date.

New York Times Bestseller Over 2.5 million copies sold For David Goggins, childhood was a nightmare - poverty, prejudice, and physical abuse colored his days and haunted his nights. But through self-discipline, mental toughness, and hard work, Goggins transformed himself from a depressed, overweight young man with no future into a U.S. Armed Forces icon and one of the world's top endurance athletes. The only man in history to complete elite training as a Navy SEAL, Army Ranger, and Air Force Tactical Air Controller, he went on to set records in numerous endurance events, inspiring Outside magazine to name him The Fittest (Real) Man in America. In this curse-word-free edition of Can't Hurt Me, he shares his astonishing life story and reveals that most of us tap into only 40% of our capabilities. Goggins calls this The 40% Rule, and his story illuminates a path that anyone can follow to push past pain, demolish fear, and reach their full potential.

The purpose of this booklet is to provide a systematic process for educators to use to assess children's peer-related social behaviors and to develop individualized, functional social skills intervention programs. First, an overview of social competence and peer-related social behaviors is presented, including a discussion of the importance of social skill development among students with ASD. Next, a functional approach to assessment is described. Finally, evidence-based strategies for developing peer-related social interactions are outlined. The information presented in this booklet is geared for use primarily by teachers and families and is aimed at enhancing the quality and quantity of social interactions of individuals with ASD with their peers across a variety of settings and activities.

A story told by a mother, of how two children were rescued from the tragedy of autism. This book presents the story of Maurice family's struggle and triumph. It also talks about intensive behavioural therapy - a treatment that leads to dramatic improvement, and

in some cases full recovery from autism.

Young women are deeply dissatisfied with society's standards (and double standards). They want more for themselves--but sometimes they don't quite know what that more should be. That's where Miss Black New Jersey 2018 and Teen Vogue "It Girl" turned fashion writer Tarah-Lynn Saint-Elie comes in. Through her insightful comments on media, pop culture, and pervading cultural myths about beauty, fashion, and womanhood, Tarah-Lynn dismantles the messages that feed into the insecurities, fears, doubts, and guilt that young women experience today. She introduces them to an understanding of God as a loving Father and the King of all kings, who bestows upon his daughters a crown of love, worth, and power. And she shows them how to not only claim the promises of God but also walk purposefully in them as independent women (no prince necessary!) who respond to adversity with righteousness and authority.

From Pulitzer Prize-winning author Paul Zindel comes this touching, humorous, and delightful play that earned wide recognition in its National Educational Television (NET) Network production. The action is set in the laboratory of the American Biological Association Development for the Advancement of Brain Analysis, where curious experiments involving various mammals are taking place. Helen, a newly engaged cleaning lady, is particularly drawn to a dolphin and is shocked when she learns that, having failed to "talk" as hoped for, it is slated for brain dissection. She makes a desperate attempt to rescue the dolphin from the scientists, incurring first their indignation and then, when the dolphin does indeed "talk" for Helen, their futile pleas that she change her mind about leaving and stay on to help them in their experiments. But the gentle Helen has had enough—both of "Custodial Engineering" and of schemes to change man's relationship to the other creatures with whom the world must be shared. A mother's story of how her two children were rescued from the tragedy of autism

A fascinating new volume of messages about motherhood, from the author of the bestselling Letters of Note collections. In Letters of Note: Mothers, Shaun Usher gathers together exceptional missives by and about mothers, celebrating the joy and grief, humour and frustration, wisdom and sacrifice the role brings to both parent and child. A young Egyptian girl mourns her mother's death in

the fourth century AD. Melissa Rivers lovingly chides her mother, Joan, for treating her house like a hotel and taking her thirteen-year-old son to see Last Tango in Paris. Anne Sexton gives her daughter the advice to live life to the hilt, and be your own woman. In a letter to her teenage daughter, Caitlin Moran explains that some boys are as evil as vampires, and you must drive stakes through their hearts. The film Ladybird inspires journalist Hannah Woodhead to write an emotional letter to her mother. While at seminary, Martin Luther King Jr. writes that he has "the best mother in the world." These thirty letters capture the endless range of feelings that comes with being or having a mother. Includes letters from E.B. White, George Bernard Shaw, Edna St. Vincent Millay, Sylvia Plath, Laura Dern, Baya Hocine, Louisa May Alcott, Wallac Stegner, and more. Hailed as "the most radical repackaging of the Bible since Gutenberg", these Pocket Canons give an up-close look at each book of the Bible.

We have all been through difficult seasons and times in life when it seems like the hits keep coming and you can barely catch your breath. The Evans family knows what this is like, as they've experienced the deep grief of losing eight loved ones in less than two years' time, including the devastating passing of Lois Evans, the matriarch of the family. In Divine Disruption, Dr. Tony Evans and his children pull back the curtain on their faith-shaking experiences, in order to provide biblical wisdom and practical encouragement for how to deal with the hard, unexpected things we all inevitably face. You'll walk away with insights on: Why bad things happen despite a good and powerful God Persevering in

difficult times and experiencing God's peace What causes distress in your life—and how to move past it How to keep your faith from being damaged during tough times Join the Evans Family in this unique Kingdom Legacy partnership as they candidly share honest questions they've asked, raw emotions they've felt, and solutions they've learned. Your life may have been interrupted, but you can use that to grow closer to God—and find peace.

This book contains powerful warfare prayers and decrees taken from Scripture that will break the powers of darkness and release the blessings and favor of God.

A deeply emotional standalone romance set in the worlds of professional basketball and high fashion. Divorced. Single dad. Traded to a losing squad. Cheated on, betrayed, exposed. My perfect life blew up in my face and I'm still picking up the pieces. The last thing I need is her. A wildflower. A storm. A woman I can't resist. Lotus DuPree is a kick to my gut and a wrench in my plans from the moment our eyes meet. I promised myself I wouldn't trust a woman again, but I've never wanted anyone the way I want Lo. She's not the plan I made, but she's the risk I have to take. A warrior. A baller. The one they call Gladiator. Kenan Ross charged into my life smelling all good, looking even better and snatching my breath from the moment we met. The last thing I need is him. I'm working on me. Facing my pain and conquering my demons. I've seen what trusting a man gets you. I. Don't. Have. Time. For. This. But he just keeps coming for me. Keeps knocking down my defenses and stealing my excuses one by one. He never gives up, and now...I'm not sure I want him to.

Actions have consequences--and the ability to learn from them revolutionized life on earth. While it's easy enough to see that consequences are important (where would we be without positive reinforcement?), few have heard there's a science of consequences, with principles that affect us every day. Despite their variety, consequences appear to follow a common set of scientific principles and share some similar effects in the brain--such as the "pleasure centers." Nature and nurture always work together, and scientists have demonstrated that learning from consequences predictably activates genes and restructures the brain. Applications are everywhere--at home, at work, and at school, and that's just for starters. Individually and societally, for example, self-control pits short-term

against long-term consequences. Ten years in the making, this award-winning book tells a tale ranging from genetics to neurotransmitters, from emotion to language, from parenting to politics, taking an inclusive interdisciplinary approach to show how something so deceptively simple can help make sense of so much.

New York Times Bestseller “Rawat’s deep wisdom is a breath of fresh air; Hear Yourself gives the gift of peace and gratitude in a time we sorely need it.”—Ian Morgan Cron, author of The Story of You and co-author of The Road Back to You “Hear Yourself invites us to take a journey from the outside world we live in everyday to the world of peace within us. I highly recommend this inspiring book to anyone ready to take that journey.”—Bill McCarthy, Founder and President of The Unity Foundation The renowned teacher and author of the internationally bestselling Peace Is Possible shows us how to quiet the noise of our busy lives to hear our own unique authentic voice—the source of peace. The cacophony of modern life can be deafening, leaving us feeling frazzled and uneasy. In this warm, wise book, Prem Rawat teaches us how to turn down the noise to “hear ourselves”—to listen to the subtle song of peace that sings inside each of us. Once we learn to truly “hear ourselves” and the voice of peace within, then we can hold on to that as we face all the noise of the world. The culmination of a lifetime of study, Hear Yourself lays out the crucial steps we can use to focus on the voice within. Take a walk in nature and listen for the sounds of harmony, Prem Rawat suggests, or set aside a few minutes each day to feel gratitude, which comes from the core of our being. He challenges us to embrace our thirst for peace and let go of expectations for how it should feel. With one straightforward yet deeply profound question, he helps us to focus—to be present: Am I conscious of where I am today and what I want to experience in this world?” If we allow ourselves to listen, what we hear is the extraordinary miracle of existence—an experience that transforms our relationship to life and everything in it. Packed with powerful insights and compelling stories, Hear Yourself introduces readers to an ancient line of practical wisdom that enlightens us to a simple way

to listen. By doing so, Prem Rawat reveals, we can “profoundly change our understanding of ourselves, those around us, and our lives.”

Revelation

Authorized King James Version

The final book of the Bible, Revelation prophesies the ultimate judgement of mankind in a series of allegorical visions, grisly images and numerological predictions. According to these, empires will fall, the "Beast" will be destroyed and Christ will rule a new Jerusalem. With an introduction by Will Self.

SHORTLISTED FOR THE 2021 SHAUGHNESSY COHEN PRIZE FOR POLITICAL WRITING In Can You Hear Me Now?, Celina Caesar-Chavannes digs deep into her childhood and her life as a young Black woman entrepreneur and politician, and shows us that effective and humane leaders grow as much from their mistakes and vulnerabilities as from their strengths. Celina Caesar-Chavannes, already a breaker of boundaries as a Black

woman in business, got into politics because she wanted to make a bigger difference in the world. But when she became the first Black person elected to represent the federal riding of Whitby, Ontario, she hadn't really thought about the fact that Ottawa wasn't designed for someone like her. Celina soon found herself both making waves and breaking down, confronting at night, alone in her Ottawa apartment, all the painful beauty of her childhood and her troubled early adult life. She paid the price for speaking out about micro-aggressions and speaking up for her community and her riding, but she also felt exhilaration and empowerment. As she writes, "This is not your typical leadership book where the person is placed in a situation and miraculously comes up with the right response for the wicked problem. This is the story of me falling in love, at last, with who I am, and finding my voice in the unlikeliest of places." Both memoir and leadership book, *Can You Hear Me Now?* is a funny, self-aware, poignant, confessional and fierce look at how failing badly and screwing things up completely are truly more powerful lessons in how to conduct a life than extraordinary success. They build an utter honesty with yourself and others that allows you to say things nobody else dares to say--the necessary things about navigating the places that weren't built for you and holding firm to your principles. And, if you do that, you will help build a world where inclusion is real. Just as Celina is now trying to do, in all her brilliance and boldness. *Grieving, Brooding, and Transforming* explores troubling biblical and historical texts in regards to their portrayal of women and calls for readers to identify the Spirit's work of grieving over brokenness, brooding over chaos, and transforming the creation.

Biggie Smalls was right: Things done changed. But that doesn't mean that Quadir and Jarrell are cool letting their best friend Steph's music lie forgotten under his bed after he's murdered—not when his rhymes could turn any Bed

Stuy corner into a party. With the help of Steph's younger sister Jasmine, they come up with a plan to promote Steph's music under a new rap name: the Architect. Soon, everyone wants a piece of him. When his demo catches the attention of a hotheaded music label rep, the trio must prove Steph's talent from beyond the grave. As the pressure of keeping their secret grows, Quadir, Jarrell, and Jasmine are forced to confront the truth about what happened to Steph. Only, each has something to hide. And with everything riding on Steph's fame, they need to decide what they stand for or lose all that they've worked so hard to hold on to—including each other. "Ido in Autismland" opens a window into non-verbal autism through dozens of short, autobiographical essays each offering new insights into autism symptoms, effective and ineffective treatments and the inner emotional life of a severely autistic boy. In his pithy essays, author Ido Kedar, a brilliant sixteen year old with autism, challenges what he believes are misconceptions in many theories that dominate autism treatment today while he simultaneously chronicles his personal growth in his struggles to overcome his limitations. Ido spent the first half of his life locked internally, in silence, trapped in a remedial educational system that presumed he lacked the most basic comprehension, and unable to show the world that he understood everything. But at the age of seven, Ido was finally able to show that he had an intact mind and could understand. This led to the quest to find a system of communication that he could use despite his impaired motor control. Through the use of a letter board, and now an iPad, Ido has triumphed communicatively, enabling him to flourish in a regular high school in all general education classes. But Ido has a larger goal. He does not want to be seen as an isolated autistic exception with miraculously advanced cognitive and communication abilities. He wants people to see that thousands of other severely autistic individuals have the same capacity, but remain trapped and locked-in, as he was, unable to show their true capacities. These individuals desperately need new theories and new methods to help them break free too. Of importance to neuro-researchers, educators, psychologists, doctors, parents, friends, family and people with autism, "Ido in Autismland" will change our collective understanding of severe autism. PRAISE FOR "Ido in Autismland" ""There are doubtless many Idos in this world, unable to speak, yet possessing good intellectual ability and, most certainly, a rich emotional life. And yet, precisely because they cannot communicate, nonverbal individuals with autism are nearly always consigned to the junk heap of mental deficiency, branded as incapable of understanding language or even having feelings... We need to help change things for this terribly neglected group... Reading Ido's book is a good beginning."" - Portia Iversen, Co-founder, Cure Autism Now and the Autism Genetic Resource Exchange Gene Bank. Author of "Strange Son" ""Ido is a brilliant communicator. His words bring us inside the world of autism. His gift of writing enlightens, inspires, educates. Every person who loves or works with someone with autism - educator, therapist, karent, grandparent, neighbor - should read Ido in Autismland."" - Elaine Hall, Author of Now I See the Moon, co-author of "Seven Keys to Unlock Autism." Featured in "Autism: The Musical" ""Ido's book touches any heart, not only because it is well written, but because it reveals a mind that has learned how to speak to the world through spelling every word on a letter board and keyboard. His book is indeed a great gift to the world. Thank you, Ido."" - Soma

She was a beautiful doelike child, with an intense, graceful fragility. In her first year, she picked up words, smiled and laughed, and learned to walk. But then Anne-Marie began to turn inward. And when her little girl lost some of the words she had acquired, cried inconsolably, and showed no interest in anyone around her, Catherine Maurice took her to doctors who gave her a devastating diagnosis: autism. In their desperate struggle to save their daughter, the Maurices plunged into a medical nightmare of false hopes, "miracle cures," and infuriating suggestions that Anne-Marie's autism was somehow their fault. Finally, Anne-Marie was saved by an intensive behavioral therapy. Let Me Hear Your Voice is a mother's illuminating account of how one family triumphed over autism. It is an absolutely unforgettable book, as beautifully written as it is informative. "A vivid and uplifting story . . . Offers new strength to parents who refuse to give up on their autistic children." -- Kirkus Reviews "Outstanding . . . Heartfelt . . . In *The Spiritual Child*, psychologist Lisa Miller presents the next big idea in psychology: the science and the power of spirituality. She explains the clear, scientific link between spirituality and health and shows that children who have a positive, active relationship to spirituality: * are 40% less likely to use and abuse substances * are 60% less likely to be depressed as teenagers * are 80% less likely to have dangerous or unprotected sex * have significantly more positive markers for thriving including an increased sense of meaning and purpose, and high levels of academic success. Combining cutting-edge research with broad anecdotal evidence from her work as a clinical psychologist to illustrate just how invaluable spirituality is to a child's mental and physical health, Miller translates these findings into practical advice for parents, giving them concrete ways to develop and encourage their children's—as well as their own—well-being. In this provocative, conversation-starting book, Dr. Miller presents us with a pioneering new way to think about parenting our modern youth.

In 1964, the release of Dr. Bernard Rimland's book, *Infantile Autism*, revolutionized the autism field by providing the autism community with much-needed guidance on how to understand and treat individuals on the spectrum. He single-handedly realigned the field from a psychodynamic, parent-blaming perspective to a scientific, physiological course of action. This 50th anniversary edition presents the original book with contributions from leaders in the autism field, including Drs. Martha Herbert and Simon Baron-Cohen, who celebrate Dr. Rimland's exceptional work, and place his findings within the context of autism as we understand it today. Updated to bring Dr. Rimland's findings up to date for a new generation of readers, this book will be fascinating reading for parents and those on the autism spectrum as well as professionals working with autism and anyone with an interest in autism and/or psychological theory.

PUBLISHERS WEEKLY BESTSELLER • The question isn't whether God speaks. The question is what does He have to say to you? The New York Times bestselling author of *The Circle Maker* teaches readers how to listen to God. **WINNER OF THE ECPA CHRISTIAN BOOK AWARD FOR CHRISTIAN LIVING** The voice that spoke the cosmos into existence is the same voice that parted the Red Sea, and made the sun stand still in the midday sky. One day, this voice will make all things new, but it's also speaking now! That voice is God's voice, and what we've learned from Scripture is that He often speaks in a whisper. Not to make it difficult to hear Him, but to draw us close. Many people have a tough time believing God still speaks. Sure, in ancient times and in mystical ways, God spoke to His people, but is He still speaking now? Mark Batterson certainly believes so. And he wants to introduce you to seven love languages of God; each of them unique and entirely divine. Some of them you might suspect but others will surprise you. Learning to tune in to and decipher each language, you'll be able to hear His guidance in simple as well as life-altering choices actively speaking through: Scripture, Desires, Doors, Dreams, People, Promptings, and Pain. Batterson gives you the tools you need to unlock each of these languages. God's whisper can answer your most burning questions, calm your deepest fears, and fulfill your loftiest dreams. Discover how simple it is to hear God's voice in every aspect of your life! He's speaking, make sure you know how to listen!

Experiences of hearing the voice of God (or angels, or other spiritual beings) have generally been understood either as religious experiences or else as a feature of mental illness. Critics of traditional religious faith have dismissed the visions and voices attributed to biblical characters and saints as evidence of mental disorder. However, it is now known that many ordinary people, with no other evidence of mental disorder, also hear voices, and that these voices not infrequently include spiritual or religious content. Psychological and interdisciplinary research has shed revealing light on these experiences in recent years, so that we now know much more about the phenomenon of "hearing voices" than ever before. The present work considers biblical, historical, and scientific accounts of spiritual and mystical experiences of voices, and hearing in the Christian tradition in order to explore how some voices may be understood theologically as revelatory. It is precisely in the incarnation, Christian faith finds both an understanding of what it is to be fully human (a theological anthropology) and God's perfect self-disclosure (revelation). Within such an understanding, revelatory voices represent a key point of interpersonal

encounter between human beings and God.

How communication technologies meant to empower people with speech disorders—to give voice to the voiceless—are still subject to disempowering structural inequalities. Mobile technologies are often hailed as a way to “give voice to the voiceless.” Behind this enthusiasm, though, are beliefs about technology as a gateway to opportunity and voice as a metaphor for agency and self-representation. In *Let Me Hear Your Voice*, Meryl Alper explores these assumptions by looking closely at one such case—the use of the Apple iPad and mobile app Proloquo2Go, which converts icons and text into synthetic speech, by children with disabilities (including autism and cerebral palsy) and their families. She finds that despite claims to empowerment, the hardware and software are still subject to disempowering structural inequalities. Views of technology as a great equalizer, she illustrates, rarely account for all the ways that culture, class, and even technology itself can reinforce disparity, particularly for those with disabilities. Alper explores, among other things, alternative understandings of voice, the surprising sociotechnical importance of the iPad case, and convergences and divergences in the lives of parents across class. She shows that working-class and low-income parents understand the app and other communication technologies differently from upper- and middle-class parents, and that the institutional ecosystem reflects a bias toward the privileged. Handing someone a talking tablet computer does not in itself give that person a voice. Alper finds that the ability to be heard—social, economic, and cultural capital shapes the extent to which individuals can not only speak but be heard.

Children are inherently musical. They respond to music and learn through music. Music expresses children's identity and heritage, teaches them to belong to a culture, and develops their cognitive well-being and inner self worth. As professional instructors, childcare workers, or students looking forward to a career working with children, we should continuously search for ways to tap into children's natural reservoir of enthusiasm for singing, moving and experimenting with instruments. But how, you might ask? What music is appropriate for the children I'm working with? How can music help inspire a well-rounded child? How do I reach and teach children musically? Most importantly perhaps, how can I incorporate music into a curriculum that marginalizes the arts? This book explores a holistic, artistic, and integrated approach to understanding the developmental connections between music and children. This book guides professionals to work through music, harnessing the processes that underlie music learning, and outlining developmentally appropriate methods to understand the role of music in children's lives through play, games, creativity, and movement. Additionally, the book explores ways of applying music-making to benefit the whole child, i.e., socially, emotionally, physically, cognitively, and linguistically.
