

Letourneau Dc Motor

A comprehensive review of earthmoving and construction equipment from the birth of primitive industrial tools to today's awe-inspiring machines! The biggest haulers, dozers, scrapers and unusual specialty equipment in the field are presented here in over 500 black-and-white photographs. The author's expertly written text details machine categories and discusses the history, evolution, design and manufacture of these industry giants. Packed full of top-quality archival photographs, most taken from manufacturer archives.

The History of Roads and Road Building in Ontario

Giant Earthmovers : An Illustrated History

Western Trucking

The development of roads and highways was critical to early economic and social development of Ontario. This book traces the history of roads and the road-building industry in Ontario from the eighteenth century to today, and documents how roads and bridges have developed, introducing the contractors and companies that have built them.

The Timberman

Building Giant Earthmovers

"This colossal reference book documents the timeless urge to reshape the world, and the machines used to do so from the 1088's to today. From utility tractors and loaders up to the largest diggers and bulldozers, every piece of heavy equipment is listed here by model and manufacturer, making this the most exhaustive book on the world's most hard-working vehicles and machines"--Publisher's description.
