Narrative of the Life of Frederick Douglass First published in 1845, Narrative of the Life of Frederick Douglass is an eye-opening depiction of American slavery. Part autobiography, part human-rights treatise, it describes the everyday horrors inflicted on captive laborers, as well as the strength and courage needed to survive. Narrative of the Life of Frederick Douglass Born into slavery on a Maryland plantation in 1818, Frederick Douglass spent years secretly teaching himself to read and write—a crime for which he risked life and limb. After two failed escapes, Douglass finally, blessedly boarded a train in 1838 that would eventually lead him to New York City and freedom. Narrative of the Life of Frederick Douglass Few books have done more to change America’s notion of African Americans than this seminal work. Beyond its historical and social relevancy, it is admired today for its gripping stories, the intensity of spirit, and heartfelt humanity. Narrative of the Life of Frederick Douglass This ebook has been professionally proofread to ensure accuracy and readability on all devices. Narrative of the Life of Frederick Douglass Born into a life of bondage, Frederick Douglass secretly taught himself to read and write. It was a crime punishable by death, but it resulted in one of the most eloquent indictments of slavery ever recorded. His gripping narrative takes us into the fields, cabins, and manors of pre-Civil War plantations in the South and reveals the daily terrors he suffered. Narrative of the Life of Frederick Douglass Written more than a century and a half ago by a Black man who went on to become a famous orator, U.S. minister to Haiti, and leader of his people, this timeless classic still speaks directly to our age. It is a record of savagery and inhumanity that goes far to explain why America still suffers from the great injustices of the past. Narrative of the Life of Frederick Douglass

Introduces the world of Roshar through the experiences of a war-weary royal compelled by visions, a highborn youth condemned to military slavery, and a woman who is desperate to save her impoverished house.

The long-awaited magnum opus from Haruki Murakami, in which this revered and bestselling author gives us his hypnotically addictive, mind-bending ode to George Orwell's 1984. The year is 1984. Aomame is riding in a taxi on the expressway, in a hurry to carry out an assignment. Her work is not the kind that can be discussed in public. When they get tied up in traffic, the taxi driver suggests a bizarre 'proposal' to her. Having no other choice she agrees, but as a result of her actions she starts to feel as though she is gradually becoming detached from the real world. She has been on a top secret mission, and her next job leads her to encounter the superhuman founder of a religious cult. Meanwhile, Tengo is leading a nondescript life but wishes to become a writer. He inadvertently becomes involved in a strange disturbance that develops over a literary prize. While Aomame and Tengo impact on each other in various ways, at times by accident and at times intentionally, they come closer and closer to meeting. Eventually the two of them notice that they are indispensable to each other. Is it possible for them to ever meet in the real world?

The career of Erasmus Darwin (1731-1802) affords an extraordinary glimpse into the intellectual ferment of late-eighteenth- and early-nineteenth-century Britain. As a popular poet, practicing physician, inventor of speaking machines and mechanical birds, essayer of natural history from geology to meteorology, and proponent of an evolutionary theory that inspired his famous grandson Charles, he left a lasting impression on almost every branch of knowledge. His magnum opus, and the synthesis of his myriad interests, is The Botanic Garden (1792) — an epic poem that aims to "enlist the Imagination under the banner of Science." Part I, The Economy of Vegetation, sings the praises of British industry as a dance of supernatural creatures while part II, The Loves of the Plants, wittily employs metaphors of human courtship to describe the reproductive cycles of hundreds of flowers. Darwin supplements his accomplished verses with (often much longer) "philosophical notes" that offer his idiosyncratic perspective on the scholarly controversies of the day. Despite a recent surge of academic interest in Darwin, however, no authoritative critical edition of The Botanic Garden exists, presenting a barrier to further scholarship. This two volume set comprises a complete, meticulously transcribed, reading text — including all the poetry, prose apparatus, and illustrations — along with extensive commentary. Throughout Darwin is situated within contemporary debates about the natural sciences, the "science of the mind", aesthetics, sexuality, politics, and spirituality, among other concerns. This set will be of interest to readers across these and related disciplines as the definitive reference edition of The Botanic Garden and due to its efforts to make the work more practically and intellectually accessible to seasoned and novice readers alike.

On his first day in office, newly-elected President Stephen Blades was expecting to dive into the various critical issues facing the nation: war, looming economic collapse, and a failing health care system - a typical Presidency, in other words. But by the end of that first day, Blades has learned a single truth that redefines "critical": seven years prior, NASA discovered a potentially aggressive alien presence in the asteroid belt, and his predecessor Commander-in-Chief decided to keep it a secret from the world. A mission crewed by nine heroic astronauts was sent to discover what's actually up there, and they're getting close to learning the truth - assuming their increasingly damaged and frail ship, the Clarke, can hold itself together long enough to reach their destination. Stephen Blades has just become the most powerful man on the planet. This planet.

An electrifying story of the sensational murder trial that divided a city and ignited the civil rights struggle In 1925, Detroit was a smoky swirl of jazz and speakeasies, assembly lines and fistfights. The advent of automobiles had brought workers from around the globe to compete for manufacturing jobs, and tensions often flared with the KKK in ascendance and violence on the rise. Made the long climb from the ghetto to a home of his own in a previously all-white neighborhood. Yet just after his arrival, a mob gathered outside his house: suddenly, shots rang out: Sweet, or one of his defenders, had accidentally killed one of the whites threatening their lives and homes. And so it began-a chain of events that brought America's greatest attorney, Clarence Darrow, to the defense of a man whose name had become a controversial symbol of equality. Historian Kevin Boyle weaves the police investigation and courtroom drama of Sweet's murder trial into an unforgettable tapestry of narrative history that documents the volatile America of the 1920s and movingly re-creates the Sweet family's journey from slavery through the Great Migration to the middle class. Ossian Sweet's story is a tale of survival, of a man who refused to be trapped by the battles of his era's changing times. Arc of Justice is the winner of the 2004 National Book Award for Nonfiction.

Ambitious and wide-ranging, this sweeping history of one of the world's most recognized landmarks explores every aspect of Sydney Harbor through studies of its natural, human, and cultural history. Revealing why Sydney Harbor has been a defining element for the people who have lived around it since the time of the harbor clans, this volume examines the icon as a place of beauty, spirit, and meaning. By chronicling the story of the waterway from the time of the first aboriginal communities and detailing contemporary debates about the future of the working harbor, this comprehensive account outlines the important interactions between the glittering harbor and the people who inhabited and shaped it.

Journalist Walls grew up with parents whose ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description.

Get swept up in all the gritty, wild details of a roller-coaster love story with the ultimate bad boy in the first spinoff novel after 44 CHAPTERS ABOUT 4 MEN, the book that inspired the hit Netflix original series SEX/LIFE. In 1997, Ronald “Knight” McKnight was the meanest, most misunderstood guy in town. . . perhaps on the entire planet. He hated everyone, except for BB Easton—the perky, quirky punk chick he couldn't avoid. BB, on the other hand, liked everybody . . . except for Knight. She was scared to death of him, actually. All she wanted was to marry Little Mermaid’s Prince Eric—lookalike and king of the local punk scene Lance Hightower. But Knight was patient. Persistent. Unexpected. And once he got under BB’s skin, her life would never be the same. A forbidden love story overflowing with '90s nostalgia, dark humor, and heart-wrenching angst, and based on a true story.

NATIONAL BESTSELLER • An audacious, darkly glittering novel set in the eerie days of civilization’s collapse—the spellbinding story of a Hollywood star, his would-be savior, and a nomadic group of actors roaming the scattered outposts of the Great Lakes region, risking everything for art and humanity. Now an original series on HBO Max. Over one million copies sold! Kirsten Raymonde will never forget the night Arthur Leander, the famous Hollywood actor, had a heart attack on stage during a production of King Lear. That was the night when a devastating flu pandemic arrived in the city, and within weeks, civilization as we know it came to an end. Twenty years later, Kirsten moves between the settlements of the altered world with a small troupe of actors and musicians. They call themselves The Traveling Symphony, and they have dedicated themselves to keeping the remnants of art and humanity alive. But when they arrive in St. Deborah by the Water, they encounter a violent prophet who will threaten the tiny band’s existence. And as the story takes off, moving back and forth in time, and vividly depicting life before and after the pandemic, the strange twist of fate that connects them all will be revealed. Look for Emily St. John Mandel’s new novel, *Sea of Tranquility*, coming soon!

Legacy poems This book represents a legacy in poems - moral, ethical and practical education in verses. In Robin Wyatt Dunn's words: Osuoha's language reads like a stilted nursery rhyme, doubly insisting both on the rights of the white settler to determine the destiny of her community (the book is dedicated to God and is scattered throughout with various Christian homilies), yet its deeper intention is profoundly anti-colonial, and a sharp critic of the state: Osuoha observes: The world violates covenants And desecrates every altar Yet they all are communicants And none is a defaulter Here, everything is fake And anyhow, they fail brake Drop not your guard. These poems are a mix of compassion and angst, a homely mother reciting her rhymes who is concealing her deep mistrust and rage at the history which has raped her language and culture, insisted on its rights to do so, and continues to oppress her country and environment. But, as she observes, it is not ultimately the white settler who is to blame, but the world: we are all implicated in this suffering and desecration. Each poem in beautiful rhyme representing a letter addressed to her unborn child and safely placed in a file from a caring and protective mother is a skillfully crafted piece of work by the Nigerian poet Ngozi Olivia Osuoha. The poems act as codes of conduct for childhood, adolescence and adulthood and can be collectively taken as a guide for facing the ups and downs of life. Original, captivating, heart touching and soul stirring Letter to My Unborn will certainly leave imprints of permanent ink in the readers' mind long after it has been read. This is truly a poetry collection of all-time, a shining star on each book lover's shelf. - Vatsala Radhakeesoon author of *Depth of the River* The hit series from Charles Soule (*Poe Dameron*, *Daredevil*) and Alberto Jiménez Alberquerque (*Mystery Girl*) is now available for just \$10! Many investigators seem to be fascinated by the coat colors of the mam mals with which they work. This seems to be the case particularly for those utilizing isogenic strains of mice, not only because such strains display wide ly different phenotypes, but because scientists, by definition, are an inquisi tive lot and it is sometimes difficult for the uninitiated to comprehend how such phenotypes are produced. This bewilderment becomes even more ap parent if the investigator happens to be involved in breeding studies and a number of attractively colored animals, quite different from the original stocks, appear. Thus I can recall numerous occasions when my colleagues, frequently working in areas completely unrelated to any aspect of genetics, have come to me with an attractively pigmented animal or, more likely, with a poplulation of segregating coat color types (usually because they have not tended their animals properly and have ended up with a cage full of F 2S displaying a number of different colors). How, they ask, do such colors come about? While in some cases it is easy to take chalk in hand and explain what has been going on (segregating) and why, in other cases it is virtually impossible. It is extremely difficult because while the interactions of many coat-color factors obey the simple laws of heredity and of predictable gene interactions, others do not.

The first volume in a planned, 3-volume, sex-education series. Erika and Matthew are ready to talk about sex! Have you ever had a question about sex, but didn't know who to ask? Well, Erika and Matthew have spent years learning, talking, and creating informative comics about all aspects of sex. Using comics, jokes, and frank communication, they're here to demystify the world of sex and answer your questions—including ones you might not even know you had! In this first book of the Drawn to Sex series, they explore the practical side of sex, from the basics of what defines sex, to barriers and testing, masturbation, and the ins-and-outs of having sex with other people. Pick up this fun book if you're looking to learn something new, understand sexuality better, or know someone (maybe you!) who might benefit from some judgment-free education. Americans have built an empire on the idea of “race,” a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? *Between the World and Me* is Ta-Nehisi Coates’s attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children’s lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bracingly confronts our present, and offers a transcendent vision for a way forward.

President Stephen Blades struggles with how to tell the people of Earth that most of them won’t survive the End. But when he learns that even the 666 humans he hand-picked will fall victim to the End, it seems all hope is lost. The same can be said for the crew of the Clarke, crash-landed on Mars after sabotaging the Builders and their escape ship. Now at the mercy of the Builders, who have followed them to the red planet in order to exact revenge, Charlotte and Overholt do what they can to keep their crew alive—for as long as they can hold out. In the eleventh hour, the future of humankind will be left in the hands of those who chose to lead.

Public health officials and organizations around the world remain on high alert because of increasing concerns about the prospect of an influenza pandemic, which many experts believe to be inevitable. Moreover, recent problems with the availability and strain-specificity of vaccine for annual flu epidemics in some countries and the rise of pandemic strains of avian flu in disparate geographic regions have alarmed experts about the world's ability to prevent or contain a human pandemic. The workshop summary, The Threat of Pandemic Influenza: Are We Ready? addresses these urgent concerns. The report describes what steps the United States and other countries have taken thus far to prepare for the next outbreak of "killer flu." It also looks at gaps in readiness, including hospitals' inability to absorb a surge of patients and many nations' incapacity to monitor and detect flu outbreaks. The report points to the need for international agreements to share flu vaccine and antiviral stockpiles to ensure that the 88 percent of nations that cannot manufacture or stockpile these products have access to them. It chronicles the toll of the H5N1 strain of avian flu currently circulating among poultry in many parts of Asia, which now accounts for the culling of millions of birds and the death of at least 50 persons. And it compares the costs of preparations with the costs of illness and death that could arise during an outbreak.
