What would happen if someone invented a machine that could create an exact duplicate of anything? That is the simple but remarkable premise of Damon Knight's classic 1959 novel, *A for Anything*. "The Gismo," as the machine is known, seems like it will end poverty and need forever. But of course, things are not that simple. Like any truly great work of science fiction, Knight's novel boldly pursues the ramifications of his premise. What will people do if there is no longer any

need to work for anything? What happens if this device is spread carelessly throughout the world (it can even duplicate itself!). Finally, there is the supreme and most chilling of questions: what happens if you try to duplicate a human being? *A for Anything* is a classic work of science fiction, but it considers questions that are as relevant and compelling today as they were fifty years ago, perhaps more so. Like most of us, Knight watches the mind-boggling technological advancements of our time with a mixture of awe and alarm, and wonders whether we are

really in control of the things we are creating. Knight has put his finger on the pulse of our modern sensibility and, mixed with his truly remarkable imagination, created a novel that is gripping, thought-provoking and impossible to put down.

From New York Times & USA Today Bestseller, Vi Keeland, comes a steamy new romance novel. The rules: No dating. No sex outside of the game. No disclosing the terms of the contract. Rules were made to be broken, right? Eight weeks ago I signed a contract. One that seemed like a good idea at the time. A handsome bachelor, luxury accommodations, and a chance to win a prize my family desperately needed. There were some rules though. Lots of them actually. Follow the script, no dating, sex, or disclosing the terms of the deal. After my self-imposed moratorium on men the last year, it wouldn't be hard to live up to my end of the

bargain...so I thought. Until I realized the deal I'd made was with the devil...and I was in love with his dirty-talking brother. Author's note – Throb is a full-length standalone novel. Due to strong language and sexual content, this book is not intended for readers under the age of 18.

This collection, which won the 2015 Costa Poetry Award, is an exhibition of the Dundee-born poet's stunningly accomplished adoption of the sonnet's ancient structure This collection from Don Paterson, his first since the Forward Prize-winning *Rain* in 2009, is a series of forty luminous sonnets. Some take a traditional form, while

others experiment with the reader's conception of the sonnet, but they all share the lyrical intelligence and musical gift that has made Paterson one of our most celebrated poets. Addressed to friends and enemies, the living and the dead, children, musicians, poets, and dogs, these poems are as ambitious in their scope and tonal range as in the breadth of their concerns. Here, voices call home from the blackout and the airlock, the storm cave and the sance, the coal shed, the war, the highway, the forest, and the sea. These are voices frustrated by distance and darkness, which ring with the "sound that fades up from the hiss, / like a glass some random

down draught had set ringing, / now full of its only note, its lonely call." In 40 Sonnets, Paterson returns to some of his central themes—contradiction and strangeness, tension and transformation, the dream world, and the divided self—in some of the most powerful and formally assured poems of his career.

Gill's tarot pack is based on the structure of "The Tree of Life". Much of the imagery in "The Gill Tarot Deck" draws from passages in classical religious literature. "The Gill Tarot" by Elizabeth Josephine Gill presents 78 stunning full-color pictures which enable the reader to see his or her own reflection of life.

In early twentieth-century Russia, suicide became a public act and a social phenomenon of exceptional scale, a disquieting emblem of Russia's

Get Free Lexmark X4550 User Guide

encounter with modernity. This book draws on an extensive range of sources, from judicial records to the popular press, to examine the forms, meanings, and regulation of suicide from the seventeenth century to 1914, placing developments into a pan-European context. It argues against narratives of secularization that read the history of suicide as a trajectory from sin to insanity, crime to social problem, and instead focuses upon the cultural politics of self-destruction. Suicide - the act, the body, the socio-medical problem - became the site on which diverse authorities were established and contested, not just the priest or the doctor but also the sovereign, the public, and the individual. This panoramic history of modern Russia, told through the prism of suicide, rethinks the interaction between
