While at the zoo Pat the Bunny pets the animals, from a wrinkly elephant to a feathery parrot. On board pages. Rising young comedian Moshe Kasher is lucky to be alive. He started using drugs when he was just 12. At that point, he had already been in psychoanalysis for 8 years. By the time he was 15, he had been in and out of several mental institutions, drifting from therapy to rehab to arrest to...you get the picture. But KASHER IN THE RYE is not an "eye opener" to the horrors of addiction. It's a hilarious memoir about the absurdity of it all. When he was a young boy, Kasher's mother took him on a vacation to the West Coast. Well it was more like an abduction. Only not officially. She stole them away from their father and they moved to Oakland , California. That's where the real fun begins, in the war zone of Oakland Public Schools. He was more than just out of control-his mother walked him around on a leash, which he chewed through and ran away. Those early years read like part Augusten Burroughs, part David Sedaris, with a touch of Jim Carrol...but a lot more Jewish. In fact, Kasher later spends time in a Brooklyn Hasidic community. Then came addiction... Brutally honest and laugh-out-loud funny, Kasher's first literary endeavor finds humor in even the most horrifying situations.***

***How To Pick the Best Option Strategies for Your Market Outlook***

Most people know that there are 70 million Baby Boomers in America today....but what is less known is that there are approximately 100 million people in America between the ages of 16 and 30. This generation has just entered, or will soon be entering the work force. And they have no idea how to invest, save, or handle their money. Young people today come out of school having had little or no formal education on the basics of money management. Many have large debts from student loans looming over their heads. And many feel confused and powerless when their pricey educations don't translate into high paying jobs. They feel that their \$30,000-\$40,000 salary is too meager to bother with investing, and they constantly fear that there will be "too much month left at the end of their money." Douglas R. Andrew has shown the parents of this generation a different pathway to financial freedom. Now Doug

and his sons, Emron and Aaron - both of whom are in their mid-20s - show the under-30 crowd how they can break from traditional 401k investment plans and instead can find a better way by investing in real estate, budgeting effectively, avoiding unnecessary taxes and using life insurance to create tax-free income. With the principles outlined in *Millionaire by Thirty*, recent graduates will be earning enough interest on their savings to meet their basic living expenses by the time they're 30. And by the time they're 35, their investments will be earning more money than they are, guaranteeing them a happy, wealthy future.

*Postdigital Dialogues on Critical Pedagogy, Liberation Theology and Information Technology* presents a series of dialogues between Peter McLaren, a founding figure of critical pedagogy, and Petar Jandric, a transdisciplinary scholar working at the intersections between critical pedagogy and information technology. The authors debate the postdigital condition, its wide social impacts, and its relationship to critical pedagogy and liberation theology, as part of a transdisciplinary effort to develop a new postdigital revolutionary consciousness in the service of humanity. Throughout the dialogues we see how McLaren's thinking on critical pedagogy and liberation theology have developed since the publication of *Pedagogy of Insurrection*, and how these developments play out in Jandric's theory of the postdigital condition. The book includes a foreword by Peter Hudis and an afterword by Michael A. Peters.

In *Rules for Reformers*, Douglas Wilson poaches the political craft of radical progressives and applies it to Christian efforts in the current culture war. The result is a spicy blend of combat manual and cultural manifesto. *Rules for Reformers* is a little bit proclamation of grace, a little bit *Art of War*, and a little bit analysis of past embarrassments and current cowardice, all mixed together with a bunch of advanced knife-fighting techniques. As motivating as it is provocative, *Rules for Reformers* is just plain good to read. Thanks to Saul Alinsky's *Rules for Radicals: A Practical Primer for Realistic Radicals*--a book well-beloved by Barack Obama, Hillary Clinton, and many others--for much of the shrewd advice, and for none of the worldview.

A stunning chronicle of a youth movement as seen through the lens of Mike Blabac, a man as dedicated to his craft as he is to the skateboarding lifestyle that has inspired it. Skateboarding is more than a hobby, it is a way of life that shapes everything from music to fashion, video to art. 300 awe-inspiring images communicate the stories of some of skateboarding's finest athletes including Eric Koston and Stevie Williams.

This book is a work of theological resistance. It is not so much about the presidency of Donald Trump as it is about what his popularity and rise to power reveal about the state of Christianity and the moral character of the evangelical Right in the United States today. More specifically, it is about the threat of white Christian nationalism, which is the particular form that the nationalist populist movement of Trumpism has adopted for itself. The contributors are all fellows from the Westar Institute's academic seminar on God and the Human Future, and include many of the leading figures in theology and Continental philosophy of religion. This volume provides a form of theopolitical resistance based on intersectionality. The authors recognize how the various forms of oppression interrelate to contribute to a vast, dynamic, and seeming impenetrable network of systemic injustice and marginalization. These essays demonstrate that politics need not be played as a zero-sum game with a winner-take-all mentality, and that a critical theology is as urgently needed and as relevant now as ever.

This volume of original stories is all for furry feline friends. A unique collection of fantastical cat tales.
