**MATEMAX is a bilingual schoolbook of mathematical problems written with the premise that one of the fundamental ways of learning mathematics, in addition to being one of the goals of the subject, is to solve problems. The book is designed for children and young teens and aims to teach mathematics in an entertaining way. Problems are based on familiar everyday situations, and helpful hints guide students to develop strategies before diving into calculations, leading to practice in abstract thinking, an essential feature of mathematics. Presented in both English and Spanish it also provides equal access to students, parents and teachers with facility in either or both languages. An online supplement is available upon request at textbooks@ams.org. This companion book provides complete solutions, alternative methods and additional suggestions to complement the short answers contained in the book. In addition, while problems are arranged in the book as they appear naturally in life, the companion text connects the mathematical tools with standard curricula. Here is a sampling of those pages. The first goal is to explore the difference between fairness and justice in language assessment. The authors distinguish internal and external dimensions of the equitable and just treatment of individuals taking language tests which are used as gatekeeping devices to determine access to education and employment, immigrant status, citizenship, and other rights. The second goal is to show how the extent of test fairness can be demonstrated and improved using the tools of psychometrics, in particular the models collectively known as Rasch measurement. "This book will have an enormous impact on the field of language assessment. Using Rasch analysis models to explore and identify sources of unfairness, the authors make a compelling case for fairness in the design and implementation of language assessment instruments and for justice in the interpretation and use of test results. A real strength of the book is that it guides readers through analytical techniques in an accessible way." Dan Douglas, Professor Emeritus, Applied Linguistics Program, Iowa State University.*

It had taken three and a half decades, but the Detroit Tigers were finally crowned the best team in baseball in 1935. Coming on the heels of their hugely disappointing loss in the World Series to the St. Louis Cardinals the year before, the Tigers emerged victorious in a thrilling six-game October showdown against a talented Chicago Cubs team. It was Detroit's first World Series championship. For a city suffering from the Great Depression, it couldn't have come at a better time. The team was led by player-manager Mickey Cochrane, and featured an offense fueled by Hank Greenberg, Charlie Gehringer, and Goose Goslin (dubber the "G-Men"). On the mound were Lynwood Thomas "Schoolboy" Rowe, Tommy Bridges, Elden Auker, and General Crowder. With 93 victories that summer, the Tigers outpaced the New York Yankees by three games, taking their fifth American League title in club history. To commemorate the 80th anniversary of this great team, the Society for American Baseball Research is proud to present the 1935 Detroit Tigers in all their glory. With contributions from over 35 members of the SABR BioProject, this book is a delightful account of one of the most significant teams in sports history. "Navin Field was packed, and when we won Detroit really came alive. As a team we were like a bunch of brothers. Hank, Charlie, Billy, Goose, Schoolboy, Tommy...all of them. I think of those guys often. It was a wonderful time of my life." -Elden Auker Contents: Introduction by Scott Ferkovich Sleeping Giant: Detroit in the 1930s by Gary Gillette The Babe's Loss Was Detroit's Gain: The Cochrane Trade by John Milner The 1935 Season in Review by Greg Erion THE OWNER: Frank Navin by Marc Okkonen & David Jones THE PLAYERS Elden Auker by Robert H. Wolf "I Thought I Never Would Get There": The 1935 World Series by Scott Ferkovich "Texts must be interesting enough for students to want to read them in their own language. Otherwise, how can we expect students to want to read them in English?" This is the authors' golden rule when they choose texts and topics for every level of American English File. It ensures you get material that learners will enjoy reading and will want to talk about. Texts such as "Could you live without money?" really help to generate opinion and discussion. They create a desire to communicate. Having created the desire, American English File then helps you to develop learners' communication skills. One way it does this is with a strong focus on pronunciation. Research shows that poor pronunciation is a major contributor to breakdowns in communication (Jennifer Jenkins: The Phonology of English as an International Language). American English File integrates pronunciation into every lesson - the "little and often" approach. But that's not all. The unique English File Sounds Chart puts a picture to each sound in the phonetic alphabet, so learners find it easier to remember the sounds and, ultimately, improve their pronunciation.
