Rain Reign Things Tally is dreading about sixth grade:-- Being in classes without her best friends-- New (scratchy) uniforms-- Hiding her autism Tally isn't ashamed of being autistic -- even if it complicates life sometimes, it's part of who she is. But this is her first year at Kingswood Academy, and her best friend, Layla, is the only one who knows. And while a lot of other people are uncomfortable around Tally, Layla has never been one of them . . . until now. Something is different about sixth grade, and Tally now feels like she has to act "normal." But as Tally hides her true self, she starts to wonder what "normal" means after all and whether fitting in is really what matters most. Inspired by young coauthor Libby Scott's own experiences with autism, this is an honest and moving middle-school story of friends, family, and finding one's place.

Letters The learning process is guided as follows: Letters Every letter is new territory for your child. The first step is to get to know the letter and practice through the correct pen guidance by simply tracing it. This is followed by a word containing the letter you have just learned. So your child learns to put the letter in a word. Encourage your child to read the word aloud to directly practice the corresponding sound. Finally, your child learns to write the letter freely and independently. Numbers To understand the meaning of numbers, your child starts counting picture elements. Then, just as with letters, he or she will have to trace the numbers. As soon as they become more confident, free writing follows the number you have just learned, with guidelines ensuring that the

number is placed at the correct height. In both areas, learning takes place in a meaningful and reliable structure that gives your child security and constantly encourages them to see their own progress. Parents can help their children work through this exercise book and provide the necessary support. After all, writing is not easy for every child.

Parents should keep a special eye on the correct pen position and hand guidance and celebrate every milestone with their child. For both numbers and letters, encourage your child to speak out loud about what he or she has learned. The more senses are involved in the learning process, the faster and easier it is to learn. By completing this exercise book, your child will be able to write the lower and upper case letters from A to Z, as well as

the numbers 0 to 30. It is especially important that your child can work and learn at their own pace. This is the only way to keep the fun and become more confident in writing from letter to letter, or from number to number. A quick look at the most important facts of the book: Suitable for children from ages 3 to 5 Sensible structure that optimally accompanies the learning process Great preparation for pre-school and kindergarten A fun way to learn the numbers from 0 to 30 and the letters A to Z Designed and sensibly structured to suit children Promotes correct pen management and concentration Lots of space for free practice Lovely designs Combine play with learning. Nearly everything we do in life is the result of our habits. The good ones bring peace, joy and power into our lives, and

the bad ones steal our peace and joy and prevent our success. In this book, Joyce Meyer explains how to develop good habits -- the things you really want to do -- and break the bad ones, putting an end to frustration, discouragement and stress that drains your energy. The most important habit comes first: the God habit. Next comes a willingness to work for the results you want. Joyce reminds us that, "if we don't pay the price for freedom, we will end up paying the price for bondage". Next comes the power of our words. Our words and the thoughts that propel them have tremendous power over our actions, and repeated actions are the basis of our habits. There are eleven more habits that Joyce discusses in depth, including the habits of happiness, faith, excellence,

responsibility, generosity, discipline, decisiveness and confidence. "Choose one area and begin," she urges. "Don't feel overwhelmed by all the changes that are needed. One thing at a time, one day at a time is the best plan. Celebrate every day of success, and when you make mistakes, shake off the disappointment and keep going forward." You can transform your life, one habit at a time.

Coquito is an educational and scientific instructional book through which more than 38 million Spanish-speaking children have learned to read, write and think. Coquito is conceived and structured in 54 sequential lessons, with which the child is able to start reading and writing, opening a future of intellectual and emotional potential that raises their awareness and self-

esteem. This provides great satisfaction to teachers and parents because the students' reading comprehension is high. The "Reading by Words Method", created with the book Coquito Clásico, is built on the children's vocabulary and on the unique feature of the Spanish language that is read as it is written and written as it is spoken, unlike other languages, whose phonetic complexity is remarkable. It is therefore not advisable to teach how to read in Spanish using methods from other languages such as English and French because it will extend the learning process up to fifteen months for what can be accomplished in three months using our method. The constant

interest of the author and his team of specialists is to restructure and update the book according to the improvements and suggestions from teachers who use Coquito with remarkable success, exceeding expectations in most Spanish-speaking countries. Coquito Clásico brings graphic colored themes, illustrated with captivating visuals that engage and develop the child's imagination. This initiates the process of oral expression and reading as well as writing and mathematics. We thank the teachers and parents for using our materials, and we guarantee that they have chosen a method of proven quality and excellence that develops mental processes, taking into account
