Whether used for the development and support of an existing collection or for the creation of a new collection serving Spanish-speaking young readers, this outstanding resource is an essential tool. Following the same format as the highly praised 1996-1999 edition, Schon presents critical annotations for 1300 books published between 2000 and 2004, including reference, nonfiction, and fiction. One section is devoted to publishers' series, and an appendix lists dealers who carry books in Spanish. Includes author, title, and subject indexes.

E. H. Gombrich's *Little History of the World*, though written in 1935, has become one of the treasures of historical writing since its first publication in English in 2005. The Yale edition alone has now sold over half a million copies, and the book is available worldwide in almost thirty languages. Gombrich was of course the best-known art historian of his time, and his text suggests illustrations on every page. This illustrated edition of the *Little History* brings together the pellucid humanity of his narrative with the images that may well have been in his mind's eye as he wrote the book. The two hundred illustrations—most of them in full color—are not simple embellishments, though they are beautiful. They emerge from the text, enrich the author's intention, and deepen the pleasure of reading this remarkable work. For this edition the text is reset in a spacious

format, flowing around illustrations that range from paintings to line drawings, emblems, motifs, and symbols. The book incorporates freshly drawn maps, a revised preface, and a new index. Blending high-grade design, fine paper, and classic binding, this is both a sumptuous gift book and an enhanced edition of a timeless account of human history.

this book is a more detailed sequence of the book "Los Hijos del Sol" (Children of the Sun), where a deeper follow-up of the Jewish-Christian origin and the archeological data from the Egyptian dynasty XVIII is done, as well as other historical and literary data from the Middle-East, reaching

revealing conclusions that have not being disclosed in 3,500 years approximately. The investigation continues with the writings from the famous Greek philosopher Plato, and his master piece “La República” (The Republic), allowing the reader to identify which is the essential element that this wise man set up, so this regimen could be established, but was ignored by people for a long time. This element is a common denominator between what is established in the legendary Akhenaton City, basis and foundation of the Jewish religion as it was later known. Even though information is known on the genesis of Catholic religion, there is some contradictory data in the Bible and the Christian history, that is why a study of the information left by apostle St. Paul is done, to cover such inconsistence, to have a more objective reference frame, following the steps of the successor of the ancient Christendom until the consolidation of the religion under the mandate of emperor Constantine. This historical process is done up until the Utopia of Thomas Moro, on his vain aim to establish the order that ruled on times where harmony used to govern during the Renaissance, finally arriving to the heroic attempt to carry out such change nowadays. Concluding that the private property and work should be rethought based on what the universe itself shows us in its majesty, as well as to our own micro-universe being our flesh wrapping. The divine justice invoked will be reestablished in our society when we learn to observe our own nature and realize our deity within ourselves. Meditation is only the starting point to initiate some research and prove by this means, what is perceived in this consciousness is valid and logic. All man findings have the same origin, so, what are you waiting for to synchronize and provide to the world what only you can offer? God definitely exists, but it is an experience that all human beings have the opportunity to have; not because a person had such experience you will be released, so that your thirst can be satisfied. You also need to drink the water rising from the universal fountain of love. Probably for some of you this book is going to confront your own beliefs, and it is especially to you I am asking to give the chance to discover something new, and don't be like those that where denying the credibility to the great Genovese admiral, looking for the confidence to start proving the roundness of the place you live in. Give your credibility based on study and analysis and if you find that at the end of this reflection you are able to discover a new world, then we have both reached the same destiny. Releasing this way old prejudices and starting to build the foundations of the golden age that is about to start. If what we have reached until now is the basis of the situation that rules our world, what can you expect from a structure that since the beginning is wrongly founded? So I present you to this book, which gives life to one of the Biggest Masters that has been with us since the evolution and development of our human conscience. And be aware that he will be

with us until the collective conscience will be raised up to its original state.

A Novel

diccionario enciclopédico, publicado bajo la dirección de Claude y Paul Augé

Immaculee Ilibagiza grew up in a country she loved, surrounded by a family she cherished. But in 1994 her idyllic world was ripped apart as Rwanda descended into a bloody genocide. Immaculee's family was brutally murdered during a killing spree that lasted three months and claimed the lives of nearly a million Rwandans. Incredibly, Immaculee survived the slaughter. For 91 days, she and seven other women huddled silently together in the cramped bathroom of a local pastor while hundreds of machete-wielding killers hunted for them. It was during those endless hours of unspeakable terror that Immaculee discovered the power of prayer, eventually shedding her fear of death and forging a profound and lasting relationship with God. She emerged from her bathroom hideout having discovered the meaning of truly unconditional love—a love so strong she was able seek out and forgive her family's killers. The triumphant story of this remarkable young woman's journey through the darkness of genocide will inspire anyone whose life has been touched by fear, suffering, and loss.

Mi primer Larousse de los ¿Por qué?

Este segundo libro de Lucía tuvo nuevamente un algo geminiano, empecé o mejor dicho seguí escribiendo por placer y luego empecé a pensar que debía seguir haciéndolo, por las dudas. Tal vez podría gustar el primero y si fuera así me pregunté ¿no tendría algo más que ofrecer si me lo requirieran? Entonces aquí van otros relatos, algunos son homenajes a personas importantes de mi vida, íntimos, cariñosos, otros pretenden transmitir puntos de vista, pueden ser graciosos y/o pueden considerarse escritos con sarcasmo, superficiales ¿por qué no?

Nuevamente en ninguno de esos relatos lo digo todo y me empeño en que los casos judiciales más crueles sean cortos, porque no es mi intención provocar una gran tristeza en quien lea este libro, extendiéndome en detalles escabrosos –que los hay– sino más bien, que se pueda asomar cada uno a ver cosas que le han ocurrido a otras personas sin sumergirse demasiado en lo que, en muchas ocasiones, resulta hasta inhumano.

El autor de Tocar los libros (un libro que se ha convertido ya en un pequeño objeto de culto para los amantes de los libros) se adentra en Cortázar y los libros en el mundo más íntimo y curioso de Julio Cortázar, el de su biblioteca personal. El rastro de sus libros subrayados, con esquinas dobladas, apostillas y papeles –hojas de calendario, recortes de periódico, un pedazo de cartulina garabateado– dibuja un retrato imaginario sobre el autor de Rayuela que hará las delicias de bibliófilos y bibliópatas.

¿Qué es editar?, ¿cómo y por qué se crea una editorial?, ¿cómo se construye un catálogo?, ¿cuál es la historia de la edición de libros en la Argentina?, ¿podrá sobrevivir el libro en papel al cambio tecnológico digital?, ¿y los editores?, ¿por qué una actividad con tan baja rentabilidad es tan atractiva? Las 21 entrevistas reunidas en Optimistas seriales, realizadas en el programa Leer por Leer que conducen Leandro de Sagastizábal y Luis Quevedo desde 2011 en Radio UBA, recorren estos y muchos otros interrogantes. Las conversaciones con Pablo Alessandrini, Alejandro Archain, Ana María Cabanellas, Alberto Díaz, Carlos Díaz, Daniel Divinsky, Leonora Djament, Fernando Esteves, Luz Henríquez, Leopoldo Kulesz, Víctor Landman, Gloria López Llovet de Rodrigué, Patricia Piccolini, Lola Rubio, Ricardo Sabanes, Jorge Scarfi, Carolina María Schindler, Jorge Sigal, Jorge Vanzulli, Trini Vergara y José Volpogni son un valioso aporte para el mundo de la edición en Argentina y América Latina y un punto de referencia ineludible para sus actores.
