Radicals in the Barrio uncovers a long and rich history of political radicalism within the Mexican and Chicano working class in the United States. Chacón clearly and sympathetically documents the ways that migratory workers carried with them radical political ideologies, new organizational models, and shared class experience, as they crossed the border into southwestern barrios during the first three decades of the twentieth-century. Justin Akers Chacón previous work includes No One is Illegal: Fighting Racism and State Violence on the U.S.-Mexico Border (with Mike Davis).

A unique tour of the US: "Who better than a kind-hearted foreigner to help you marvel at our own land and learn something about your fellow Americans?" -Bloomberg Businessweek In 2002 Guillermo Fesser quit his

morning radio talk show in Madrid, and moved with his family to Rhinebeck, NY, for a sabbatical year. Finding himself in a rural community 6,000 miles from home and 100 miles from New York City, Fesser began to discover an America he had never imagined existed. One Hundred Miles from Manhattan is a fresh, funny, positive and affectionate portrait of life in small-town America—and beyond. This book is filled with the stories of the people Fesser met, the places he visited and the things he learned during his year in Rhinebeck, from the German neighbors who welcome in the New Year by jumping back and forth from the couch to the coffee table to a Texan rancher who follows Native American traditions in the raising of bison; from a guide who leads fishing expeditions into Alaska's Kuskokwim Mountains to the engineer responsible for the steam conduction system in Manhattan's underbelly; and from a former follower of Reverend Moon turned track coach to the man who created Big Bird.

By the author of Rosemary's Baby, a horrifying journey into a future only Ira Levin could imagine. Considered one of the great dystopian novels—alongside Anthony Burgess's A Clockwork Orange and Aldous Huxley's Brave New World—Ira Levin's frightening glimpse into the future continues to fascinate readers even forty years after publication. The story is set in a seemingly perfect global society. Uniformity is the defining feature; there is only one language and all

ethnic groups have been eugenically merged into one race called "The Family." The world is ruled by a central computer called UniComp that has been programmed to keep every single human on the surface of the earth in check. People are continually drugged by means of regular injections so that they can never realize their potential as human beings, but will remain satisfied and cooperative. They are told where to live, when to eat, whom to marry, when to reproduce. even the basic facts of nature are subject to the UniComp's will—men do not grow facial hair, women do not develop breasts, and it only rains at night. With a vision as frightening as any in the history of the science fiction genre, This Perfect Day is one of Ira Levin's most haunting novels.

Nowhere does the ceaseless struggle to maintain democracy in the face of political corruption come more alive than in Paul Preston's magisterial history of modern Spain. The culmination of a half-century of historical investigation, *A People Betrayed* is not only a definitive history of modern Spain but also a compelling narrative that becomes a lens for understanding the challenges that virtually all democracies have faced in the modern world. Whereas so many twentieth-century Spanish histories begin with Franco and the devastating Civil War, Paul Preston's magisterial work begins in the late nineteenth century with Spain's collapse as a global power, especially reflected in its humiliating defeat in 1898 at the hands of the United States and its loss of colonial territory. This loss hung over Spain in the early years of the twentieth century, its agrarian economic base standing in stark contrast to the emergence of England, Germany, and France as industrial powers. Looking back to the years prior to 1923, Preston demonstrates how electoral corruption infiltrated almost every sector of Spanish life, thus excluding the masses from organized politics and giving them a bitter choice between apathetic acceptance of a decrepit government or violent revolution. So ineffective was the Republic—which had been launched in 1873—that it paved the way for a military coup and dictatorship, led by Miguel Primo de Rivera in 1923, exacerbating widespread profiteering and fraud. When Rivera was forced to resign in 1930, his

fall brought forth a succession of feeble governments, stoking rancorous tensions that culminated in the tragic Spanish Civil War. With astonishing detail, Preston describes the ravages that rent Spain in half between 1936 and 1939. Tracing the frightening rise of Francisco Franco, Preston recounts how Franco grew into Spain's most powerful military leader during the Civil War and how, after the war, he became a fascistic dictator who not only terrorized the Spanish population through systematic oppression and murder but also enriched corrupt officials who profited from severe economic plunder of Spain's working class. The dictatorship lasted through World War II—during which Spain sided with Mussolini and Hitler—and only ended decades later, in 1975, when Franco's death was followed by a painful yet bloodless transition to republican democracy. Yet, as Preston reveals, corruption and political incompetence continued to have a corrosive effect on social cohesion into the twenty-first century, as economic crises, Catalan independence struggles, and financial scandals persist in dividing the country. Filled with vivid portraits of politicians and army officers, revolutionaries and reformers, and written in the “absorbing” (Economist) style for which Preston is so revered, *A People Betrayed* is the first historical work to examine the continuities of political unrest and national anxiety in Spain up until the present, providing a chilling reminder of just how fragile democracy remains in the twenty-first century.

This is the first biography, now available in paperback, of Manuel Puig (1932–1990), Argentinian author of *Kiss of the Spider Woman* and pioneer of high camp. Suzanne Jill Levine, his principal English translator, draws upon years of

friendship as well as copious research and interviews

Nine Perfect Strangers now on sale “Here’s the best news you’ve heard all year: Not a single page disappoints....The only difficulty with Truly Madly Guilty? Putting it down.” –Miami Herald “Captivating, suspenseful...tantalizing.” –People Magazine The new novel from Liane Moriarty, the #1 New York Times bestselling author of *The Husband’s Secret*, *Big Little Lies*, and *What Alice Forgot*, about how sometimes we don’t appreciate how extraordinary our ordinary lives are until it’s too late. Six responsible adults. Three cute kids. One small dog. It’s just a normal weekend. What could possibly go wrong? In *Truly Madly Guilty*, Liane Moriarty turns her unique, razor-sharp eye towards three seemingly happy families. Sam and Clementine have a wonderful, albeit, busy life: they have two little girls, Sam has just started a new dream job, and Clementine, a cellist, is busy preparing for the audition of a lifetime. If there’s anything they can count on, it’s

each other. Clementine and Erika are each other's oldest friends. A single look between them can convey an entire conversation. But theirs is a complicated relationship, so when Erika mentions a last minute invitation to a barbecue with her neighbors, Tiffany and Vid, Clementine and Sam don't hesitate. Having Tiffany and Vid's larger than life personalities there will be a welcome respite. Two months later, it won't stop raining, and Clementine and Sam can't stop asking themselves the question: What if we hadn't gone? In *Truly Madly Guilty*, Liane Moriarty takes on the foundations of our lives: marriage, sex, parenthood, and friendship. She shows how guilt can expose the fault lines in the most seemingly strong relationships, how what we don't say can be more powerful than what we do, and how sometimes it is the most innocent of moments that can do the greatest harm.

From Colleen Hoover, the #1 New York Times bestselling author of *It Ends With Us*, a heart-wrenching love story that proves attraction at first sight can be messy. When Tate Collins meets airline pilot Miles Archer, she doesn't think it's love at first sight. They wouldn't even go so far as to consider themselves friends. The only thing Tate and Miles have in common is an undeniable mutual attraction. Once their desires are out in the open, they realize they have the perfect set-up. He doesn't want love, she doesn't have time for love, so that just leaves the sex. The arrangement could be surprisingly seamless, as long as Tate can stick to the only two rules Miles has for her. Never ask about the past. Don't expect a future. They think they can handle it, but realize almost immediately they can't handle it at all. Hearts get infiltrated. Promises get broken. Rules get shattered. Love gets ugly.

Beloved #1 New York Times bestselling author of *It Ends With Us* and *All Your Perfects* returns with an unforgettable love story between a writer and his unexpected muse. Fallon meets Ben, an aspiring novelist, the day before her scheduled cross-country move. Their untimely attraction leads them to spend Fallon's last day in Los Angeles together, and her eventful life becomes the creative inspiration Ben has always sought for his novel. Over time and amidst the various relationships and tribulations of their own separate lives, they continue to meet on the same date every year. Until one day Fallon becomes unsure if Ben has been telling her the truth or fabricating a perfect reality for the sake of the ultimate plot twist. Can Ben's relationship with Fallon—and simultaneously his novel—be considered a love story if it ends in heartbreak?

Laney Keating's senior year of high school sucked. It began with one moment of weakness, one stupid gesture for a hopeless crush. Then the rumors started. Slut, they called her. Queer. Pillhead. Psycho. Mentally ill, messed up, so messed up even her own mom decided she wasn't worth sticking around for.
