TOC Verbal Reasoning, Analytical Reasoning, Non-Verbal Reasoning

ADDA 247 has been consistently working to make the word 'SUCCESS' a true companion to all the banking aspirants. As the year 2019 has just marked its presence, we are delighted to announce that ADDA 247 is launching 'A Complete Book of Puzzles & Seating Arrangement' Second Edition. Puzzles are an important part of Reasoning Section, the one that you cannot escape from. It is the topic that dominates the Reasoning Section of all sorts of banking exams. So many other miscellaneous topics too are now being asked in the form of puzzles. The number of questions being asked on puzzles ranges from 60 to 65 percent of the total number of questions in the Reasoning Section. So it is now very obvious that the strategy of ignoring questions based on puzzles, thereby solving other questions won't be working anymore as neglecting questions on puzzles can risk the likelihood of you clearing the sectional cut off or scoring satisfactory marks in the Reasoning Section. It is already known to all the aspirants that Puzzles & Seating Arrangement form the most important part of the Reasoning Section as they carry the highest weightage among the other topics. So, considering all the significance that these portions carry, this book would provide all the necessary help and guidance in clearing the given sections smoothly.

Well, it's obvious that many of us would like to work in such a reputed organization and make our way in the insurance sector. For this, LIC Assistant Administrative Officer (AAO) exam is a must for those seeking jobs in the insurance sector. This year, LIC invites applicants with a total of 590 vacancies for AAO in various branches all over the country. LIC AAO is quite tough and you should be thoroughly prepared to crack the exam.

Introduction to the Economics and Mathematics of Financial Markets

Competition Power March 2019 Monthly eBook (English Edition)

One of the best books to prepare for Reasoning Questions for Bank Exams

How to Crack Test Of Reasoning- REVISED EDITION

Data Interpretation & Data Sufficiency

An innovative textbook for use in advanced undergraduate and graduate courses; accessible to students in financial mathematics, financial engineering and economics. Introduction to the Economics and Mathematics of Financial Markets fills the longstanding need for an accessible yet serious textbook treatment of financial economics. The book provides a rigorous overview of the subject, while its flexible presentation makes it suitable for use with different levels of undergraduate and graduate students. Each chapter presents mathematical models of financial problems at three different degrees of sophistication: single-period, multi-period, and continuous-time. The single-period and multi-period models require only basic calculus and an introductory probability/statistics course, while an advanced undergraduate course in probability is helpful in understanding the continuous-time models. In this way, the material is given complete coverage at different levels; the less advanced student can stop before the more sophisticated mathematics and still be able to grasp the general principles of financial economics. The book is divided into three parts. The first part provides an introduction to basic securities and financial market organization, the concept of interest rates, the main mathematical models, and quantitative ways to measure risks and rewards. The second part treats option pricing and hedging; here and throughout the book, the authors emphasize the Martingale or probabilistic approach. Finally, the third part examines equilibrium models—a subject often neglected by other texts in financial mathematics, but included here because of the qualitative insight it offers into the behavior of market participants and pricing.

This comprehensive book has mainly and deliberately been designed to cater to the longfelt needs of the students studying in college and universities, including the prospective candidates for competitive exams.

The March 2019 edition of Competition Power e-Magazine brings the highlights of the Current Affairs of February 2019 in detail under the name, "Newsmakers of the Month".
