## **Liebherr Operating Diesel Engine D 846 Ti**

Die inhaltlichen Schwerpunkte des Tagungsbands zur ATZlive-Veranstaltung Heavy-Duty-, On- und Off-Highway-Motoren 2018 sind unter anderem neue Diesel- und Gasmotoren, Schadstoffreduzierung, Powertrain-Konzepte für den On- und Off-Highway-Bereich, Einspritzung sowie die Komponentenentwicklung im Hinblick auf das System. Die Tagung ist eine unverzichtbare Plattform für den Wissens- und Gedankenaustausch von Forschern und Entwicklern aller Unternehmen und Institutionen, die dieses Ziel verfolgen.

**Increasing complexity and performance and reliability expectations make modeling of automotive system both more difficult and more urgent. Automotive control has slowly evolved from an add-on to classical engine and vehicle design to a key technology to enforce consumption, pollution and safety limits. Modeling, however, is still mainly based on classical methods, even though much**

contributions from global experts focus on management, generation, and retention of heat in after-treatment and exhaust systems for light-off of NO<sub>x</sub>, PM, and PN catalysts during cold start and city cycles as well as operation at ultralow temperatures. This book will be of great interest to those in academia and industry involved in the design and development of advanced diesel and CNG engines satisfying the current and future emission standards.
