If affirmations are so powerful, why don't they work for most people? In a word, most affirmations are "fake." More specifically, they are fake to you, copy-and-pasted, like someone handing you their keys and sending you off to find a mysterious, hidden treasure. For affirmations to

work, you must create them. This is the only way they become the keys that unlock the hidden treasure in your heart and soul. Affirm Yourself will equip you to write personal affirmations that are authentic to you! It will help you discover the affirmations already inside of you and show you how to make them an integral part of your everyday life. ----- SPECIAL NOTE:

One of the strengths of this book is it is short. Very short! Although the book is 80 pages, the most important content is less than 10 pages long, which means you'll be able to read this content in just a few minutes. Why is it so short?

That's easy. As someone who has authored, co-authored, and contributed to nine non-fiction books including this one, Kent Julian has written long and short books. In each case, there is a specific purpose regarding the book's length. For longer books, the primary purpose is to inform readers. For shorter books, the purpose is for readers to take action. **THIS BOOK IS ABOUT TAKING ACTION.** You don't need to wade through 50 to 75 pages of information before crafting your own personal affirmation statements. What you need to do is **TAKE ACTION**, so the focused content of this book, along with the 30

With new material pertinent to today's business world, readers will receive the blueprint to create their ideal lifestyle and become their own digital nomad. From "not enough money" to "lack of connections" to "not
