**My Antonia is a novel by an American writer Willa Cather. It is the final book of the "prairie trilogy" of novels, preceded by O Pioneers! and The Song of the Lark. The novel tells the stories of an orphaned boy from Virginia, Jim Burden, and Antonia Shimerda, the daughter of Bohemian immigrants. They are both became pioneers and settled in Nebraska in the end of the 19th century. The first year in the very new place leaves strong impressions in both children, affecting them lifelong. The narrator and the main character of the novel My Antonia, Jim grows up in Black Hawk, Nebraska from age 10 Eventually, he becomes a successful lawyer and moves to New York City.**

**From the author of the New York Times bestseller The Inevitable— a sweeping vision of technology as a living force that can expand our individual potential In this provocative book, one of today's most respected thinkers turns the conversation about technology on its head by viewing technology as a natural system, an extension of biological evolution. By mapping the behavior of life, we paradoxically get a glimpse at where technology is headed-or "what it wants." Kevin Kelly offers a dozen trajectories in the coming decades for this near-living system. And as we align ourselves with technology's agenda, we can capture its colossal potential. This visionary and optimistic book explores how technology gives our lives greater meaning and is a must-read for anyone curious about the future.**

*The Clean Water Act (CWA) requires that wetlands be protected from degradation*

*because of their important ecological functions including maintenance of high water quality and provision of fish and wildlife habitat. However, this protection generally does not encompass riparian areas—the lands bordering rivers and lakes—even though they often provide the same functions as wetlands. Growing recognition of the similarities in wetland and riparian area functioning and the differences in their legal protection led the NRC in 1999 to undertake a study of riparian areas, which has culminated in Riparian Areas: Functioning and Strategies for Management. The report is intended to heighten awareness of riparian areas commensurate with their ecological and societal values. The primary conclusion is that, because riparian areas perform a disproportionate number of biological and physical functions on a unit area basis, restoration of riparian functions along America's waterbodies should be a national goal. Love Comes Softly introduced the characters of Marty and Clark Davis, whose tragic circumstances brought them to a "marriage of convenience" on the frontier prairies during the mid 1800s. The story of how Clark's patient, caring love mirrored that of the heavenly Father, drawing Marty to faith and to love, has captured the hearts and imaginations of over one million readers on Book One alone!*

***Colliding with and confronting The Tempest and postcolonial identity, the poems in Safiya Sinclair's Cannibal explore Jamaican childhood and history, race relations in America, womanhood, otherness, and exile. She evokes a home no longer accessible and a body at times uninhabitable, often mirrored by a hybrid Eve/Caliban figure. Blooming with intense lyricism and fertile imagery, these full-blooded poems are elegant, mythic, and intricately woven. Here the female body is a dark landscape; the female body is cannibal. Sinclair shocks and delights her readers with her willingness to disorient and provoke, creating a multitextured collage of beautiful and explosive poems.***

Jill Winger, creator of the award-winning blog The Prairie Homestead, introduces her debut The Prairie Homestead Cookbook, including 100+ delicious, wholesome recipes made with fresh ingredients to bring the flavors and spirit of homestead cooking to any kitchen table. With a foreword by bestselling author Joel Salatin, Pioneer Woman Cooks meets 100 Days of Real Food, on the Wyoming prairie.

While Jill produces much of her own food on her Wyoming ranch, you don't have to grow all—or even any—of your own food to cook and eat like a homesteader. She teaches people how to make delicious traditional American comfort food recipes with whole ingredients and shows that you don't have to use obscure items to live this lifestyle. And as a busy mother of three, Jill knows how to make recipes easy and delicious for all ages. "Jill takes you on an insightful and delicious journey of becoming a homesteader. This book is packed with so much easy to follow, practical hands-on information about steps you can take towards integrating homesteading into your life. It is packed full of exciting and mouth-watering recipes and

heartwarming stories of her unique adventure into homesteading. These recipes are ones I know I will be using regularly in my kitchen." - Eve Kilcher These 109 recipes include her family's favorites, with maple-glazed pork chops, butternut Alfredo pasta, and browned butter skillet corn. Jill also shares 17 bonus recipes for homemade sauces, salt rubs, sour cream, and the like—staples that many people are surprised to learn you can make yourself. Beyond these recipes, *The Prairie Homestead Cookbook* shares the tools and tips Jill has learned from life on the homestead, like how to churn your own butter, feed a family on a budget, and experience all the fulfilling satisfaction of a DIY lifestyle.

The story of a frontier family in the Midwest.

From New York Times bestselling author Sam Kean comes incredible stories of science, history, finance, mythology, the arts, medicine, and more, as told by the Periodic Table. Why did Gandhi hate iodine (I, 53)? How did radium (Ra, 88) nearly ruin Marie Curie's reputation? And why is gallium (Ga, 31) the go-to element for laboratory pranksters?\* *The Periodic Table* is a crowning scientific achievement, but it's also a treasure trove of adventure, betrayal, and obsession. These fascinating tales follow every element on the table as they play out their parts in human history, and in the lives of the (frequently) mad scientists who discovered them. *THE DISAPPEARING SPOON* masterfully fuses science with the classic lore

of invention, investigation, and discovery--from the Big Bang through the end of time. \*Though solid at room temperature, gallium is a moldable metal that melts 84 degrees Fahrenheit. A classic science prank is to mold gallium spoons, serve with tea, and watch guests recoil as their utensils disappear.

Josh Jones realizes his family isn't typical, but it's the only life he's ever known. Aunt Lou, Gramps, Uncle Charlie, Grandpa--they all have shaped the young man he has become. But as he grows into manhood, Josh begins to face important questions about life, love, and faith. Three million books sold in the series!

A haunting, original eStory from Jennifer Weiner. When Eleanor Goode meets Gerald King, she's a senior at Wellesley who's won all the writing prizes. He's just published his first novel, *Dirty Blond*, and is well on his way to becoming one of the literary lions of his day. Gerry seduces Ellie, spinning her a fantasy of working with him, two writers, side by side. How could she have known that, in their years together, it would be one typewriter, not two; his words, not hers? How she would become the fetcher of coffee, the holder of trinkets fans would press into his hands after readings, the keeper of his legacy. A Memoir of Grief (Continued) begins with Gerald's death. Ellie, who hasn't written more than a grocery list in decades of marriage, had no intention of writing a memoir. It's not until she realizes how broke he left her that she decides to write a whitewashed account of her life with the Great Man of Letters. *Widow's Walk* spends over a year on the New York Times bestseller list. Critics hail Ellie's talent, the revelatory way she writes about grief, and how to live through it. Ellie enjoys the attention, but happily thinks that'll be the end of her literary career—until her agent starts asking about another book...

***For readers of such crusading works of nonfiction as Katherine Boo's *Beyond the Beautiful Forevers* and Tracy Kidder's *Mountains Beyond Mountains* comes a powerful and captivating examination of two entwined global crises: environmental destruction and human trafficking—and an inspiring, bold plan for how we can solve them. A leading expert on modern-day slavery, Kevin Bales has traveled to some of the world's most dangerous places documenting and battling human trafficking. In the course of his reporting, Bales began to notice a pattern emerging: Where slavery existed, so did massive, unchecked environmental destruction. But why? Bales set off to find the answer in a fascinating and moving journey that took him into the lives of modern-day slaves and along a supply chain that leads directly to the cellphones in our pockets. What he discovered is that even as it destroys individuals, families, and communities, new forms of slavery that proliferate in the world's lawless zones also pose a grave threat to the environment. Simply put, modern-day slavery is destroying the planet. The product of seven years of travel and research, *Blood and Earth* brings us***

***dramatic stories from the world's most beautiful and tragic places, the environmental and human-rights hotspots where this crisis is concentrated. But it also tells the stories of some of the most common products we all consume—from computers to shrimp to jewelry—whose origins are found in these same places. Blood and Earth calls on us to recognize the grievous harm we have done to one another, put an end to it, and recommit to repairing the world. This is a clear-eyed and inspiring book that suggests how we can begin the work of healing humanity and the planet we share. Praise for Blood and Earth “A heart-wrenching narrative . . . Weaving together interviews, history, and statistics, the author shines a light on how the poverty, chaos, wars, and government corruption create the perfect storm where slavery flourishes and environmental destruction follows. . . . A clear-eyed account of man's inhumanity to man and Earth. Read it to get informed, and then take action.”—Kirkus Reviews (starred review) “[An] exposé of the global economy's 'deadly dance' between slavery and environmental disaster . . . Based on extensive travels through eastern Congo's mineral mines, Bangladeshi fisheries, Ghanian gold mines, and Brazilian forests, Bales reveals the appalling truth in graphic detail. . . . Readers will be deeply disturbed to learn how the links connecting slavery, environmental issues, and modern convenience are forged.”—Publishers***

***Weekly “This well-researched and vivid book studies the connection between slavery and environmental destruction, and what it will take to end both.”—Shelf Awareness (starred review) “This is a remarkable book, demonstrating once more the deep links between the ongoing degradation of the planet and the ongoing degradation of its most vulnerable people. It’s a bracing reminder that a mentality that allows throwaway people also allows a throwaway earth.”—Bill McKibben, author of Eearth: Making a Life on a Tough New Planet***

Buy from me gold refined in the fire, so you can become rich. Revelation 3:18 NIV Prospectors throughout the ages have sacrificed everything to search for the gold that would make them rich. For many, this was a fruitless journey. As Christians, we, too, are searching for gold—God ' s priceless gift of grace. Learning to accept God ' s grace is the most important thing you can do to become, grow and mature as a Christian. But first, you must understand every facet of grace. Davis has done a marvelous job of correlating intangible grace with tangible gold—the greatest historical and universally valued commodity. Christians can now grasp the biblical concept of grace in a practical, real and meaningful way. Pure Gold picks and shovels through the mountain of Scripture, leading the seeking Christian, a spiritual prospector, to sift the soil of their soul and discover within the brilliant Rock, God ' s pure gold, grace in Christ Jesus. Possessing the treasure of God ' s grace enables us to live rich lives that give us joy, peace, energy, passion and the ability to rise above our daily burdens.

In the last few years, 9/11, a tsunami, Hurricane Katrina, and many other tragedies have shown us that the vision of God in today's churches in relation to evil and suffering is often frivolous. Against the overwhelming weight and seriousness of the Bible, many Christians are choosing to become more shallow, more entertainment-oriented, and therefore irrelevant in the face of massive suffering. In *Suffering and the Sovereignty of God*, contributors John Piper, Joni Eareckson Tada, Steve Saint, Carl Ellis, David Powlison, Dustin Shramek, and Mark Talbot explore the many categories of God's sovereignty as evidenced in his Word. They urge readers to look to Christ, even in suffering, to find the greatest confidence, deepest comfort,
