The New York Times, BusinessWeek, and Wall Street Journal Bestseller that redefined what it means to be a leader. Since it was first published almost a decade ago, Seth Godin's visionary book has helped tens of thousands of leaders turn a scattering of followers into a loyal tribe. If you need to rally fellow employees, customers, investors, believers, hobbyists, or readers around an idea, this book will demystify the process. It's human nature to seek out tribes, be they religious, ethnic, economic, political, or even musical (think of the Deadheads). Now the Internet has eliminated the barriers of geography, cost, and time. Social media gives anyone who wants to make a difference the tools to do so. With his signature wit and storytelling flair, Godin presents the three steps to building a tribe: the desire to change things, the ability to connect a tribe, and the willingness to lead. If you think leadership is for other people, think again—leaders come in surprising packages. Consider Joel Spolsky and his international tribe of scary-smart software engineers. Or Gary Vaynerhuck, a wine expert with a devoted following of enthusiasts. Chris Sharma led a tribe of rock climbers up impossible cliff faces, while Mich Mathews, a VP at Microsoft, ran her internal tribe of marketers from her cube in Seattle. Tribes will make you think—really think—about the opportunities to mobilize an audience that are already at your fingertips. It's not easy, but it's easier than you think.

"Top Ten Business Books For 2017" - Forbes The fully revised and updated edition of the classic book about Nordstrom's extraordinary customer service. In this new edition of the management classic, the authors explore in-depth the core values of the culture that have made Nordstrom synonymous with legendary customer service. These essential values have enabled Nordstrom to survive and adapt to dramatic market shifts regularly since 1901, and the new edition explains how the Nordstrom approach can be emulated by any organization—in any industry—in every corner of the world. This is not a book about selling shoes or clothes or cosmetics or jewelry. It is a book about how underlying values such as respect, trust, compensation and, even fun, are the building blocks of a culture where employees are empowered to consistently deliver a world-class experience to customers. Nordstrom believes that the employee experience determines the customer experience, and that when you attract and reward people who are comfortable in a service-oriented culture, then everyone succeeds—both individually and collectively. No wonder Nordstrom is one of only five companies to make Fortune's "Best Companies to Work For" and "Most Admired" lists every year since those surveys have been taken. With new interviews from senior Nordstrom executives and family members, the book explains how to successfully respond to today's tech-savvy, time-crunched customers who demand a convenient, seamless, painless, personal experience across all channels. Nordstrom gives its frontline people all the digital tools necessary to satisfy the customer—and your organization must do the same, if it wants to adapt. The authors show what it takes to earn brand loyalty, lead through change and uncertainty, and combine extraordinary brick-and-mortar with online experiences. 'The single most important reason we try to provide great service is this: It enables us to sell more,' says co-president Blake Nordstrom, great-grandson of the founder. 'The best way for our company to achieve results is to do what's best for the customer.' In this book, readers will find: Suggestions for becoming the Nordstrom of your industry The ten values that define a customer-driven culture Lessons for providing superior service and experience across all channels

Linchpin by Seth Godin (Summary)

A New York Times, USA Today, and Wall Street Journal bestseller In this iconic bestseller, popular business blogger and bestselling author Seth Godin proves that winners are really just the best quitters. Godin shows that winners quit fast, quit often, and quit without guilt—until they commit to beating the right Dip. Every new project (or job, or hobby, or company) starts out fun...then gets really hard, and not much fun at all. You might be in a Dip—a temporary setback that will get better if you keep pushing. But maybe it's really a Cul-de-Sac—a total dead end. What really sets superstars apart is the ability to tell the two apart. Winners seek out the Dip. They realize that the bigger the barrier, the bigger the reward for getting past it. If you can beat the Dip to be the best, you'll earn profits, glory, and long-term security. Whether you're an intern or a CEO, this fun little book will help you figure out if you're in a Dip that's worthy of your time, effort, and talents. The old saying is wrong—winners do quit, and quitters do win.

World of Warcrafters, LARPerS, Settlers of Catan? Weird. Beliebers, Swifties, Directioners? Weirder. Paleos, vegans, carb loaders, ovo-lacto-vegetarians? Pretty weird. Mets fans, Yankees fans, Bears fans? Definitely weird. Face it. We're all weird. So why are companies still trying to build products for the masses? Why are we still acting like the masses even exist? Weird is the new normal. And only companies that figure that out have any chance of survival. This book shows you how. In *The Icarus Deception*, Seth Godin's most inspiring book, he challenges readers to find the courage to treat their work as a form of art. Everyone knows that Icarus's father made him wings and told him not to fly too close to the sun; he ignored the warning and plunged to his doom. The lesson: Play it safe. Listen to the experts. It was the perfect propaganda for the industrial economy. What boss wouldn't want employees to believe that obedience and conformity are the keys to success? But we tend to forget that Icarus was also warned not to fly too low, because seawater would ruin the lift in his wings. Flying too low is even more dangerous than flying too high, because it feels deceptively safe. The safety zone has moved. Conformity no longer leads to comfort. But the good news is that creativity is scarce and more valuable than ever. So is choosing to do something unpredictable and brave: Make art. Being an artist isn't a genetic disposition or a specific talent. It's an attitude we can all adopt. It's a hunger to seize new ground, make connections, and work without a map. If you do those things you're an artist, no matter what it says on your business card. Godin shows us how it's possible and convinces us why it's essential. 'If Seth Godin didn't exist, we'd need to invent him' *Fast Company* 'Seth Godin is a demigod on the web, a bestselling author, highly sought-after lecturer, successful entrepreneur, respected pundit and high-profile blogger' *Forbes* Seth Godin is the author of thirteen international bestsellers that have changed the way people think about marketing, the ways ideas spread, leadership and change including *Permission Marketing*, *Purple Cow*, *All Marketers are Liars*, *The Dip* and *Tribes*. He is the CEO of *Squidoo.com* and a very popular lecturer. His blog, www.sethgodin.typepad.com, is the most influential business blog in the world, and consistently one of the 100 most popular blogs on any subject..

Purple Cow describes something phenomenal, something counterintuitive and exciting and flat-out unbelievable. In his new bestseller, Seth Godin urges you to put a Purple Cow into everything you build, and everything you do, to create something truly noticeable. It's a manifesto for anyone who wants to help create products and services that are worth marketing in the first place.

A typical workplace consists of two teams: management and labor. Traditionally, the management delegates tasks and the labor follows simple instructions to complete those tasks. This was an incredibly efficient way to do business when people worked in factories and their jobs didn't require them to go above and beyond. The problem, however, is that these people were easily replaceable. And while you may not be working in a factory today, are you dispensable? What makes you different from every other employee willing to do your job? Well, today there is a third team in the workplace: the linchpins. These are the people who figure out what to do when there are no instructions to follow. They love their work, pour their best selves into it, challenge their peers, and turn each day into an art. The best part? You have what it takes to become a linchpin too - to become indispensable. As you read, you'll learn the steps you should take to become indispensable, how to discover your inner artist, and why genuine gift-giving is key to becoming indispensable.

#1 Wall Street Journal Bestseller Instant New York Times Bestseller A game-changing approach to marketing, sales, and advertising. Seth Godin has taught and inspired millions of entrepreneurs, marketers, leaders, and fans from all walks of life, via his blog, online courses, lectures, and bestselling books. He is the inventor of countless ideas that have made their way into mainstream business language, from Permission Marketing to Purple Cow to Tribes to The Dip. Now, for the first time, Godin offers the core of his marketing wisdom in one compact, accessible, timeless package. This is Marketing shows you how to do work you're proud of, whether you're a tech startup founder, a small business owner, or part of a large corporation. Great marketers don't use consumers to solve their company's problem; they use marketing to solve other people's problems. Their tactics rely on empathy, connection, and emotional labor instead of attention-stealing ads and spammy email funnels. No matter what your product or service, this book will help you reframe how it's presented to the world, in order to meaningfully connect with people who want it. Seth employs his signature blend of insight, observation, and memorable examples to teach you:

- * How to build trust and permission with your target market.
- * The art of positioning--deciding not only who it's for, but who it's not for.
- * Why the best way to achieve your goals is to help others become who they want to be.
- * Why the old approaches to advertising and branding no longer work.
- * The surprising role of tension in any decision to buy (or not).
- * How marketing is at its core about the stories we tell ourselves about our social status. You can do work that matters for people who care. This book shows you the way.

V is for Vulnerable by Seth Godin is a full-color ABC book for grown-ups, with a powerful message about doing great work. V is for Vulnerable looks and feels like a classic picture book. But it's not for kids, it's for hardworking adults. It highlights twenty-six of Seth Godin's principles about treating your work as a form of art, with illustrations by acclaimed cartoonist Hugh MacLeod. A sample: A is for Anxiety, which is experiencing failure in advance. Tell yourself enough vivid stories about the worst possible outcome and you'll soon come to believe them. Worry is not preparation, and anxiety doesn't make you better. F is for Feedback, which can be either a crutch or a weapon. Use it to make your work smaller, safer, and more likely to please everyone (and fail in the long run). Or use it as a lever to further push you to embrace what you fear and what you're capable of. This is unlike any previous Godin book and makes a great gift, both for loyal fans and those who've never read him before. In this compelling, accessible and purpose-filled book bestselling business author Seth Godin shows how you have the potential to make a big difference-and make yourself indispensable in the process-wherever you are. Why are some people easily outsourced, downsized, or freelanced into obscurity, while others have their pick of opportunities? In his most powerful book yet, Seth Godin argues that it's more essential than ever to become indispensable - to become a linchpin. Linchpins are the essential building blocks of great organizations: they invent, lead (regardless of title), connect others, make things happen, and create order out of chaos. They love their work and pour their best selves into it and turn each day into a kind of art - and, in today's world, they get the best jobs and the most freedom. Godin shows that the key to being indispensable is overcoming the fears that hold most of us back. If you have you ever found a shortcut that others missed, seen a new way to resolve a conflict, or made a connection with someone others couldn't reach, then you have what it takes to become indispensable. It's time to stop complying with the system and draw your own map.

Most organizations are stuck in a rut. On one hand, they understand all the good things that will come with growth. On the other, they're petrified that growth means change, and change means risk, and risk means death. Nobody wants to screw up and ruin a good thing, so most companies (and individuals) just keep trying to be perfect at the things they've always done. In 2003, Seth Godin's Purple Cow challenged organizations to become remarkable—to drive growth by standing out in a world full of brown cows. It struck a huge chord and stayed on the Business-Week bestseller list for nearly two years. You can hear countless brainstorming meetings where people refer to purple cows and say things like, "That's not good enough. We need to create a big moo!" But how do you create a big moo—an insight so astounding that people can't help but remark on it, like digital TV recording (TiVo) or overnight shipping (FedEx), or the world's best vacuum cleaner (Dyson)? Godin worked with thirty-two of the world's smartest thinkers to answer this critical question. And the team—with the likes of Tom Peters, Malcolm Gladwell, Guy Kawasaki, Mark Cuban, Robyn Waters, Dave Balter, Red Maxwell, and Randall Rothenberg on board—created an incredibly useful book that's fun to read and perfect for groups to share, discuss, and apply. The Big Moo is a simple book in the tradition of Fish and Don't Sweat the Small Stuff. Instead of lecturing you, it tells stories that stick to your ribs and light your fire. It will help you to create a culture that consistently delivers remarkable innovations.

From the bestselling author of Linchpin, Tribes, and The Dip comes an elegant little book that will inspire artists, writers, and entrepreneurs to stretch and commit to putting their best work out into the world. Creative work doesn't come with a guarantee. But there is a pattern to who succeeds and who doesn't. And engaging in the consistent practice of its pursuit is the best way forward. Based on the breakthrough Akimbo workshop pioneered by legendary author Seth Godin, The Practice will help you get unstuck and find the courage to make and share creative

work. Godin insists that writer's block is a myth, that consistency is far more important than authenticity, and that experiencing the imposter syndrome is a sign that you're a well-adjusted human. Most of all, he shows you what it takes to turn your passion from a private distraction to a productive contribution, the one you've been seeking to share all along. With this book as your guide, you'll learn to dance with your fear. To take the risks worth taking. And to embrace the empathy required to make work that contributes with authenticity and joy.

Everything in our world, from marketing to technology to distribution to the capital markets, is moving at a faster pace than ever. Yet most companies view change as a threat, and survival as the goal. This book transforms all that. It contains a simple yet revolutionary idea: we can evolve our companies the same way nature evolves a species. Evolution is a fundamental force of nature, and Seth Godin demonstrates how it can be put to work in any organisation. The first step is to eliminate the anti-change reflex that's genetically coded into all of us. Once a company learns to 'zoom' (to change without panicking), it is much more likely to evolve. And a company that evolves can become ever more profitable. For the last five years, bestselling author Seth Godin has repeatedly demonstrated the power of his books by living their advice. He used the tactics in PERMISSION MARKETING to drive the book up the bestseller list. He followed the advice of UNLEASHING THE IDEA VIRUS to turn his treatise into a living example of an ideavirus. Now, as a committed zoomer, he shows his legions of fans how to turn their company into one that can zoom from one change to another. It's a formula for success whether the market is up or down, whether technology is hot or not, in all industries, from retail to tech to services.

What's the secret to being indispensable—a true go-to person—in today's workplace? With new technology, constant change and uncertainty, and far-flung virtual teams, getting things done at work is tougher and more complex than ever. We're in the midst of a collaboration revolution, working with everyone, all the time, across silos and platforms. But sometimes it feels like we're stuck in a no-win cycle—dealing with an overwhelming influx of asks, with unclear lines of communication and authority.

Overcommitment syndrome looms larger than ever before. But even amid the seeming chaos, there's always that indispensable go-to person who thrives on their many working relationships with people all over the organization chart. How do they do it? Go-to people consistently make themselves valuable to others, maintain a positive attitude of service, are creative and tenacious, and take personal responsibility for getting the right things done. In this game-changing yet practical book, talent guru and bestselling author Bruce Tulgan reveals the secrets of the go-to person in our new world of work. Based on an intensive study of people at all levels, in all kinds of organizations, Tulgan shows how go-to people think and behave differently, building up their influence with others—not by trying to do everything for everybody but by doing the right things at the right times for the right reasons, regardless of whether they have the formal authority. This book will teach you to: Understand the peculiar mathematics of real influence Lead from wherever you are—up, down, sideways, and diagonal Know when to say "no" or "not yet," and how to say "yes" Keep getting better and better at working together And much more. The Art of Being Indispensable at Work is the new How to Win Friends and Influence People for an era in which the guardrails of traditional management have been pulled away.

What is a meatball sundae? It's something messy, disgusting and ineffective, the result of combining two perfectly good things that don't go together. Meatballs are the basic staples, the things people need, the stuff that used to be marketed quite well with TV and other mass market techniques. The topping is new marketing: MySpace, websites, YouTube, and all of the magic that CEOs wish would shine atop their companies. The problem? New marketing is lousy at selling meatballs. When confronted with the myriad opportunities presented by new marketing, people usually ask 'How can we make this stuff work for us?' This, as Seth Godin explains in his remarkable new book, is exactly the wrong question. Mapping out 14 trends that are completely remaking what it means to be a marketer – and by extension transforming what we make and how we make it – Godin shows how the question for any thriving 21st century business must be: 'How can we alter our business to become an organization that thrives on new marketing?' Meatball Sundae is an essential guide to the fundamental shift taking place in the marketing and business world, and shows you how to align your business to it.

How to find the soft innovation that will make your product, service, school, church, or career worth talking about. We live in an era of too much noise, too much clutter, too many choices, and too much spam. And as Seth Godin's 200,000-copy bestseller Purple

Cow taught the business world, the old ways of marketing simply don't work anymore. The best way to sell anything these days is through word of mouth and the only real way to get word of mouth is to create something remarkable. Free Prize Inside, the sequel to Purple Cow, explains how to do just that. It's jammed with practical ideas you can use right now to make your product or service remarkable, so that it will virtually sell itself. Remember when cereal came with a free prize inside? Even if you already liked the cereal, it was the little plastic toy that made it irresistible. Godin explains how you can think of a bonus that will make your customers feel just as excited, no matter what business you're in. Consider these free prizes: • The Tupperware party, which turned buying plastic bowls into a social event • Flintstones vitamins, which turned a serious product into something fun • The free change-counting machine at every Commerce Bank branch • The little blue box from Tiffany, which makes people happy before they even open it This book offers a way to create free prizes quickly, cheaply, and reliably and persuade others in your organization to help you bring them to life.

As one of today's most influential business thinkers, Seth Godin helps his army of fans stay focused, stay connected, and stay dissatisfied with the status quo, the ordinary, the boring. His books, blog posts, magazine articles, and speeches have inspired countless entrepreneurs, marketing people, innovators, and managers around the world. Now, for the first time, Godin has collected the most provocative short pieces from his pioneering blog—ranked #70 by Feedster (out of millions published) in worldwide readership. This book also includes his most popular columns from Fast Company magazine, and several of the short e-books he has written in the last few years. A sample: • Bon Jovi And The Pirates • Christmas Card Spam • Clinging To Your Job Title? • How Much Would You Pay to Be on Oprah's Show? • The Persistence of Really Bad Ideas • The Seduction of "Good Enough" • What Happens When It's All on Tape? • Would You Buy Life Insurance at a Rock Concert? Small is the New Big is a huge bowl of inspiration that you can gobble in one sitting or dip into at any time. As Godin writes in his introduction: "I guarantee that you'll find some ideas that don't work for you. But I'm certain that you're smart enough to see the stuff you've always wanted to do, buried deep inside one of these riffs. And I'm betting that once inspired, you'll actually make something happen."

Then you have what it takes to become indispensable, by overcoming the resistance that holds people back. Linchpin will show you how to join the likes of... · Keith Johnson, who scours flea markets across the country to fill Anthropologie stores with unique pieces. · Jason Zimdars, a graphic designer who got his dream job at 37signals without a résumé. · David, who works at Dean and DeLuca coffee shop in New York. He sees every customer interaction as a chance to give a gift and is cherished in return. As Godin writes, "Every day I meet people who have so much to give but have been bullied enough or frightened enough to hold it back. It's time to stop complying with the system and draw your own map. You have brilliance in you, your contribution is essential, and the art you create is precious. Only you can do it, and you must."

"I know that I'll be evaluated in Seattle with wins and losses, as that is the nature of my profession for the last thirty-five years. But our record will not be what motivates me. Years ago I was asked, 'Pete, which is better: winning or competing?' My response was instantaneous: 'Competing. . . because it lasts longer.'" Pete Carroll is one of the most successful coaches in football today. As the head coach at USC, he brought the Trojans back to national prominence, amassing a 97-19 record over nine seasons. Now he shares the championship-winning philosophy that led USC to seven straight Pac-10 titles. This same mind-set and culture will shape his program as he returns to the NFL to coach the Seattle Seahawks. Carroll developed his unique coaching style by trial and error over his career. He learned that you get better results by teaching instead of screaming, and by helping players grow as people, not just on the field. He learned that an upbeat, energetic atmosphere in the locker room can coexist with an unstoppable competitive drive. He learned why you should stop worrying about your opponents, why you should always act as if the whole world is watching, and many other contrarian insights. Carroll shows us how the Win Forever philosophy really works, both in NCAA Division I competition and in the NFL. He reveals how his recruiting strategies, training routines, and game-day rituals preserve a team's culture year after year, during championship seasons and disappointing seasons alike. Win Forever is about more than winning football games; it's about maximizing your potential in every aspect of your life. Carroll has taught business leaders facing tough challenges. He has helped troubled kids on the streets of Los Angeles through his foundation A Better LA. His words are true in any situation: "If you want to win forever, always compete."
