

List Of Padma Vibhushan Award Recipients Revolv

19th Century Maharashtra A Reassessment Cambridge Scholars Publishing

Beginning in the late '60s, hundreds of thousands of Westerners descended upon India, disciples of a cultural revolution that proclaimed that the magic and mystery missing from their lives was to be found in the East. An Indian writer who has also lived in England and the United States, Gita Mehta was ideally placed to observe the spectacle of European and American "pilgrims" interacting with their hosts. When she finally recorded her razor sharp observations in Karma Cola, the book became an instant classic for describing, in merciless detail, what happens when the traditions of an ancient and long-lived society are turned into commodities and sold to those who don't understand them. In the dazzling prose that has become her trademark, Mehta skewers the entire Spectrum of seekers: The Beatles, homeless students, Hollywood rich kids in detox, British guilt-trippers, and more. In doing so, she also reveals the devastating byproducts that the Westerners brought to the villages of rural India -- high anxiety and drug addiction among them. Brilliantly irreverent, Karma Cola displays Gita Mehta's gift for weaving old and new, common and bizarre, history and current events into a seamless and colorful narrative that is at once witty, shocking, and poignant.

This is a compendium of the speeches of the Presidents of the Indian Science Congress Association (ISCA) from 1914-2003. Through the years, these Presidents have inspired the Congress by their speeches--some of them visionary, some impassioned in their plea for Science, but all of them with a message that Science must be used for the good of the human race.

This is the first definitive biography of arguably India's most influential and powerful civil servant: P.N. Haksar, Indira Gandhi's alter ego during her period of glory. Educated in the sciences and trained in law, Haksar was a diplomat by profession and a communist-turned-democratic socialist by conviction. He had known Indira Gandhi from their student days in London in the late-1930s, even though family links predated this friendship. They kept in touch, and in May 1967, she plucked him out of his diplomatic career and appointed him secretary in the prime minister's Secretariat. This is when he emerged as her ideological beacon and moral compass, playing a pivotal role in her much-heralded achievements including the nationalization of banks, abolition of privy purses and princely privileges, the Indo-Soviet Treaty, the creation of Bangladesh, rapprochement with Sheikh Abdullah, the Simla and New Delhi Agreements with Pakistan, the emergence of the country as an agricultural, space and nuclear power and, later, the integration of Sikkim with India. This power and influence notwithstanding, Haksar chose to walk away from Indira Gandhi in January 1973. She, however, persuaded him to soon return, first as her special envoy and later as deputy chairman of the Planning Commission where he left his distinctive imprint. Exiting government once and for all in May 1977, he then continued to be associated with a number of academic institutions and became the patron for various national causes like protecting India's secular traditions, propagating of a scientific temper, strengthening the public sector and deepening technological self-reliance. Successive prime ministers sought his counsel and in May 1987, he initiated the reconstruction of India's relations with China. He remained an unrepentant Marxist and one of India's most respected elder statesman and leading public figures till his death in November 1998. Drawing on Haksar's extensive archives of official papers, memos, notes and letters, Jairam Ramesh presents a compelling chronicle of the life and times of a truly remarkable personality who decisively shaped the nation's political and economic history in the 1960s and 1970s that continues to have relevance for today's India as well. Written in Ramesh's inimitable style, this work of formidable scholarship brings to life a man who is fast becoming a victim of collective amnesia.

The Shaping of Indian Science: 1982-2003

Nobel Peace Prize Laureate Norman Borlaug and His Battle to End World Hunger : an Authorized Biography

Faces of Inequality

General Bipin Rawat was the first CDS (Chief of Defence Staff) of India. He and his wife Madhulika Rawat and eleven other army officers died in an unfortunate helicopter crash on 8th December 2021. His helicopter Mi-17V5 crashed near Kannur in Tamil Nadu, in which 12 other persons were also present along with Defence Chief General Bipin Rawat and his wife. 13 people died in this accident. The investigation is being carried out by the Air Force. The helicopter had taken off from Sullur station in Coimbatore and was on its way to Wellington Military Officers Academy with the Defence Chief onboard.

The Man Who Fed the World provides a loving and respectful portrait of one of America's greatest heroes. Nobel Peace Prize recipient for averting hunger and famine, Dr. Norman Borlaug is credited with saving hundreds of millions of lives from starvation-more than any other person in history? Loved by millions around the world, Dr. Borlaug is recognized as one of the most influential men of the twentieth century.

This book discusses the journey of Dr. K Kasturirangan, who shares his experience during his long tenure at ISRO including the Chairmanship of ISRO, subsequently membership of the Rajya Sabha, the Planning Commission and many other responsibilities. Over the past five decades of public and professional service to the nation, Dr. Kasturirangan has graduated from a young researcher in astrophysics working under Vikram Sarabhai to leading India's space program (ISRO), being entrusted by five successive Prime Ministers, besides dealing with several other domains of responsibilities beyond space, all of which have significantly impacted India's development. This book centers around select 12 public invited lectures, Dr. Kasturirangan delivered ranging from developing hi-tech space systems, to managing an organization as intricate as ISRO which was guided by the wisdom of mentors, including Vikram Sarabhai, M G K Menon, Satish Dhawan and U. R. Rao, to tackling multi-faceted socio-economic issues, including India's nuclear deal, report headed by him on the Western Ghats ecosystem, and the new National Education Policy 2020. Scientists, historians, policy makers, management strategists, journalists, or anyone with a keen interest in understanding the processes behind such large-scale science, technology and socio-economic endeavors - right from planning, creating appropriate institutional mechanisms, working with multiple stakeholders to ensure that these programs deliver tangible benefits to society, articulating these benefits with clarity to political leaders to assure public support - will find this book deeply instructive and illuminating. It will be of interest to the scientific, education and management community as well as to policy makers and researchers affiliated with multifaceted developmental issues.

The Life and Art of M.S. Subbulakshmi

An Encyclopedia of Life in the Republic

General Knowledge February 2020 eBook

The father of fiber optics, Narinder Singh Kapany was far more than your typical multi-hyphenate. Inventor, art collector, sculptor, farmer, entrepreneur, teacher, and a successful businessman, Dr Kapany was what Fortune magazine in its 1999 issue called, 'one of the seven unsung heroes of the 20th century'. An insightful and inspirational life story, this memoir chronicles his 90 remarkable years. Charming, idiosyncratic, and highly engaging, The Man who Bent Light serves up enough variety and verve to celebrate the lives of a half-dozen individuals. But there is only one Narinder Singh Kapany, and his life, illuminated in his singular memoir, is a life like no other.

Amid the talks of a five trillion dollar Indian economy, there is still an India where people struggle to arrange two square meals a day. Many strive hard for basic needs of food, health and education. Often unheard and ignored, these voiceless people mostly don't matter to the mainstream media. This book, through various ground reports over a decade and a half, captures the stories of the most marginalised people of society. All the reports should serve as a warning bell till the time another man dies of starvation, an HIV positive woman is thrown out of her house, a girl is raped in brick kilns of Andhra Pradesh or a poor child is forced to work in the cotton fields of Gujarat. These are not mere real-life stories but a chronicle of policy and governance failures. The reports analyse the systemic causes of such failures. But all is not lost. Still, there are rays of hope amid the bleak picture. Many positive stories show us how, with the right policy interventions and community effort, the lives and livelihoods of the marginalised can flourish. Note: This book is a republication of author's selected articles published earlier in different newspapers, portals and journals. Author's announcement: 25% of the earnings incurred to the author from the sale of this book will be donated for social causes.

This book explains the advanced but essential concepts of Multivariate Statistics in a practical way while touching the mathematical logic in a befitting manner. The illustrations are based on real case studies from a super specialty hospital where active research is going on.

A Reassessment

An Anthropologist Among the Marxists and Other Essays

General Bipin Rawat

M.S. Subbulakshmi's life was one of extraordinary achievement. Although she was portrayed in many ways - as a musician who sought and achieved an all-India appeal; a philanthropist and supporter of noble causes; an icon of style; a woman of piety and devotion; and a friend and associate of the good and the great - she was first and foremost a classical vocalist of the highest rank, of unmatched gifts, who lives on in the musical history of India. *Of Gifted Voice* looks at her life and times, and the great musical tradition she belonged to and to which she brought so much, against the larger backdrop of the developments in the world of Carnatic music. It describes how music came to be performed in concerts; the impact the gramophone, the radio and the talkie had on music; the decline of the traditional performing families; and the appearance of women on public platforms. The book also delves into Subbulakshmi's brush with films as well as her concert style and that of her celebrated contemporaries. Though her story has often been told, we know little of the woman behind the image and the musician behind the public persona. *Of Gifted Voice* attempts, with warmth and keen-eyed perception, to understand the music, the history, the artist and her incomparable presence.

Inside Every Thinking Indian There Is A Gandhian And A Marxist Struggling For Supremacy Says The Author In The Opening Sentence Of This Wonderfully Readable Book Of Ideas, Opinions And Reflection. A Substantial Portion Of The Book Expands On This Salvo: It Analyses Gandhians And Pseudo-Gandhians Marxists And Anti-Marxists, Nehruvians And Anti-Secularists Democrats And Stalinists, Scientists And Historians Among Other People.

The greatest run-scorer in the history of cricket, Sachin Tendulkar retired in 2013 after an astonishing 24 years at the top. The most celebrated Indian cricketer of all time, he received the Bharat Ratna Award - India's highest civilian honour - on the day of his retirement. Now Sachin Tendulkar tells his own remarkable story - from his first Test cap at the age of 16 to his 100th international century and the emotional final farewell that brought his country to a standstill. When a boisterous Mumbai youngster's excess energies were channelled into cricket, the result was record-breaking schoolboy batting exploits that launched the career of a cricketing phenomenon. Before long Sachin Tendulkar was the cornerstone of India's batting line-up, his every move watched by a cricket-mad nation's devoted followers. Never has a cricketer been burdened with so many expectations; never has a cricketer performed at such a high level for so long and with such style - scoring more runs and making more centuries than any other player, in both Tests and one-day games. And perhaps only one cricketer could have brought together a shocked nation by defiantly scoring a Test century shortly after terrorist attacks rocked Mumbai. His many achievements with India include winning the World Cup and topping the world Test rankings. Yet he has also known his fair share of frustration and failure - from injuries and early World Cup exits to stinging criticism from the press, especially during his unhappy tenure as captain. Despite his celebrity status, Sachin Tendulkar has always remained a very private man, devoted to his family and his country. Now, for the first time, he provides a fascinating insight into his personal life and gives a frank and revealing account of a sporting life like no other.

Maharashtra in the nineteenth century exhibits all the characteristics of a society standing at the crossroads of civilization. Western education, press, industrialisation and material changes in production and consumption patterns resulted in fundamental changes in the thinking of the people. The first half of the nineteenth century witnessed the beginning of the Postal Service in 1837, rise and spread of the native press and rudimentary education. The second half witnessed more dramatic events such as the coming of the Railways and the establishment of the Indian National Congress that changed the destiny of the subcontinent forever. The book takes a fresh look at the various aspects of nineteenth century Maharashtra. It includes the critiques and reviews of literature, language, history writing and women's reforms in this period. It argues that the elite attempts at social reform had their own inherent limitations. They could not reach the level of radicality reached by the subalterns whose lived experience of discrimination was the biggest stimulus for reform. Mahatma Phule stands out from among a range of thinkers in this period for his innovative understanding of the Indian reality. Phule was one of the rare thinkers who reconciled the Indian reality with its Universal counterpart.

Encapsulation the essence of the deliberations held by various sessions of the 91st Indian Science Congress at Chandigarh from January 3-7, 2004; includes interviews with leading scientists conducted by the team of NISCAIR scientists.

"Shiva does not spell religion. Shiva spells responsibility -- our ability to take our very life process in our hands." -- Sadhguru 'Shi-va' is 'that which is not', a primordial emptiness; Shiva is the first-ever yogi, Adiyogi, the one who first perceived this emptiness. Adiyogi is symbol and myth, historic figure and living presence, creator and destroyer, outlaw and ascetic, cool and passionate lover, all at once. A book like no other, this extraordinary document is a tribute to Shiva, the Adiyogi, by a living yogi; a chronicle of the progenitor of mysticism by a contemporary mystic. Here science and philosophy merge seamlessly, so do silence and sound, question and answer--to capture the unspeakable enigma of Adiyogi in a spellbinding words and ideas that will leave one entranced, transformed.

The Double-X Factor

Space and Beyond

A Yogi's Guide to Joy

Adiyogi

Memoirs of the author, a doyen of Indian management.

Pramukh Swamiji Maharaj, one of the most inspiring spiritual figures of modern times and the fifth spiritual successor of Bhagwan Swaminarayan, became a friend of the eleventh president of India, Dr A.P.J. Abdul Kalam. Together they created an unparalleled spirituality-science fellowship. In Roohdaar, Dr Kalam and Arun Tiwari map a journey of self-realization reflected in the eyes of Pramukh Swamiji, painting a delightful fusion of spirituality, science and leadership. Through the life of Pramukh Swamiji and the history of the Swaminarayan mission, Dr Kalam traces the great rise of the Indian diaspora across the world. Drawing from the lives of great scientists and creative leaders, the book captures the spiritual essence of all religions and is a tribute to the multi-faith Indian society.

NEW YORK TIMES BESTSELLER • Thought leader, visionary, philanthropist, mystic, and yogi Sadhguru presents Western readers with a time-tested path to achieving absolute well-being: the classical science of yoga. "A loving

invitation to live our best lives and a profound reassurance of why and how we can. ” —Sir Ken Robinson, author of *The Element*, *Finding Your Element*, and *Out of Our Minds: Learning to Be Creative* NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY SPIRITUALITY & HEALTH The practice of hatha yoga, as we commonly know it, is but one of eight branches of the body of knowledge that is yoga. In fact, yoga is a sophisticated system of self-empowerment that is capable of harnessing and activating inner energies in such a way that your body and mind function at their optimal capacity. It is a means to create inner situations exactly the way you want them, turning you into the architect of your own joy. A yogi lives life in this expansive state, and in this transformative book Sadhguru tells the story of his own awakening, from a boy with an unusual affinity for the natural world to a young daredevil who crossed the Indian continent on his motorcycle. He relates the moment of his enlightenment on a mountaintop in southern India, where time stood still and he emerged radically changed. Today, as the founder of Isha, an organization devoted to humanitarian causes, he lights the path for millions. The term guru, he notes, means “ dispeller of darkness, someone who opens the door for you. . . . As a guru, I have no doctrine to teach, no philosophy to impart, no belief to propagate. And that is because the only solution for all the ills that plague humanity is self-transformation. Self-transformation means that nothing of the old remains. It is a dimensional shift in the way you perceive and experience life. ” The wisdom distilled in this accessible, profound, and engaging book offers readers time-tested tools that are fresh, alive, and radiantly new. Inner Engineering presents a revolutionary way of thinking about our agency and our humanity and the opportunity to achieve nothing less than a life of joy.
