

Listening To Hindus

Issue 19 of Engage - daily Bible reading notes for teenagers. This issue looks at Nehemiah, Proverbs, 1 Chronicles and 2 & 3 John. There are also articles on science vs Christianity, church and heaven. Engage exists to help you plug into your Bible. Through Engage's pages we want to plunge into God's awesome word: discovering who God is and what He's like; seeing what God's done for us through Jesus; and exploring practical ways of living for Him. The Bible is packed with amazing stories and life-changing teaching. It's time to dive into the Bible and see God change our lives...

This book draws on extensive fieldwork among Muslims in Nepal to examine the local and global factors that shape contemporary Muslim identity and the emerging Islamic revival movement based in the Kathmandu valley. Nepal's Muslims are active participants in the larger global movement of Sunni revival as well as in Nepal's own local politics of representation. The book traces how these two worlds are lived and brought together in the context of Nepal's transition to secularism, and explores Muslim struggles for self-definition and belonging against a backdrop of historical marginalization and an unprecedented episode of anti-Muslim violence in 2004. Through the voices and experiences of Muslims themselves, the book examines Nepal's most influential Islamic organizations for what they reveal about contemporary movements of revival among religious minorities on the margins—both geographic and social—of the so-called Islamic world. It reveals that Islamic revival is both a complex response to the challenges faced by modern minority communities in this historically Hindu kingdom and a movement to cultivate new modes of thought and piety among Nepal's Muslims.

Mohandas Karamchand Gandhi took pride in calling himself a Sanatani Hindu. He lived by what he professed. Indeed, he spiritualized his entire political existence and his very opinion, world view and discourse was weighted with morality and ethics born of Hindu Dharma. This timely compilation of Mahatma Gandhi's views on Hindu Dharma is a remarkable and systematically arranged compendium of his ideas on every aspect of India's social and political life. Gandhi's views - disseminated through many short essays in Harijan and other journals of his time - on Sanatan Dharma, idol worship, Rama as a God, compulsory teaching of Gita in schools, conversion, cow-slaughter and protection, varnashramas, untouchability and other aspects are presented here in his own words. This volume is indispensable for scholars of Modern South Asian History, Gandhian Thought, Colonialism and Religious Studies. Please note: Taylor & Francis does not sell or distribute the Hardback in India, Pakistan, Nepal, Bhutan, Bangladesh and Sri Lanka

Views on Hindu Dharma by M.K. Gandhi

Christian Missionaries worked hard to convert immigrants. Their first order of business was to denigrate Hinduism, designate Hindus as heathen, and disparage their culture, food and even attire. Immigrants stubbornly resisted, led by the tiny educated elite, including Brhmaas whom we call Brahmins. Conversion was a failure at least up to the end of the 19th century but picked up a self-generating momentum thereafter. The result is that the share of Hindus in Guyana's Indian population declined from 83.5 percent in 1880 to 62.8 percent in 2012. The largest portion of the contraction was lost to Christianity. The loss notwithstanding, even a casual observer would conclude that Guyanese Hindus, at home and in the Diaspora, are a very religious people. Many of us do a jhandi or havan once annually; others do the more elaborate and costlier yajña, where everyone is welcome, once or twice in their lifetime. Most of us do a short daily puja - prayers, offerings, reading the stras and listening to bhajan - in our homes. An important, but perhaps unintended, way immigrants countered conversion to Christianity was an unplanned movement towards a “synthesis” that brought Hindus, regardless of caste or sect, under a “unitary form of Hinduism.” The “synthesis” began around the 1870s and was completed by the 1930s to the 1950s. Guyanese Hindus call the unified corpus of religious beliefs and practices that emerged from the “synthesis” Sanatana Dharma. Ramesh Gampat labels it Plantation Hinduism in this path-breaking book. The book argues that the brand of Hinduism practiced is inconsistent with Sanatana Dharma, called Vednta by the more philosophically inclined. Plantation Hinduism features an extraordinary dependence upon purohits (pandits), which has anaesthetized the Hindu mind and render him unable to think, question and inquire when it comes to Dharma. Rituals and bhakti have been degraded and turned into desire-motivated worship; devats have been misconstrued as Brahman rather than as limited manifestation of the one non-dual pure Consciousness; belief in the multiplicity of gods encourages image worship; and superstitions anchor Guyanese Hindus to tradition and mere belief. Plantation Hinduism is little more than desire-motivated actions, dogmas and superstitions. Absent is the idea that Sanatana Dharma is a spiritual science no less scientific than hard sciences, such as physics and astronomy. The central message of Vednta is the innate divinity of every person and the freedom to realize that divinity through anubhava, direct personal experience of Supreme Reality.

Hinduism is practised by nearly eighty per cent of India's population, and by some seventy million people outside India. In this Very Short Introduction, Kim Knott offers a succinct and authoritative overview of this major religion, and analyses the challenges facing it in the twenty-first century. She discusses key preoccupations of Hinduism such as the centrality of the Veda as religious texts, the role of Brahmins, gurus, and storytellers in the transmission of divine truths, and the cultural and moral importance of epics such as the Ramayana. In this second edition Knott considers the impact of changes in technology and the flourishing of social media on Hinduism, and looks at the presence of Hinduism in popular culture, considering pieces such as Sita Sings the Blues. She also analyses recent developments in India, and the impact issues such as Hindu nationalism and the politicization of Hinduism have on Hindu worldwide. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

These studies focus on questions of religious interaction and change in India from the sixth century B.C. to the present day. They represent the work of scholars in a range of disciplines and who are resident mostly in Australia

Two poets met, shared, and created over the Internet. One is from India, the other from the United States, one from Buddhist and Hindu cultures, the other from a land of individualism and practicality. What these two poets have in common is that they have learned to pause, to slow life. Through their poetry, they have provided for themselves and for us opportunities to listen and reflect, in the midst of our international sound-byte news days of religious and political competition, ideology, conflict, intolerance, and brutality.

Historical Dictionary of Hinduism

A Contribution to Socio-religious Studies in Hindu Folk-institutions

Hinduism is the world's third largest and most ancient religion. The scope of this book ranges from the ancient history of Hinduism to the contemporary issues that Hindus face today. It explores the Hindu history, society, philosophy, theology, and culture. In addition to Hinduism, this book also touches upon religious traditions with which Hindus have had extensive interaction, such as Jainism, Buddhism, Sikhism, Christianity, Islam, and Zoroastrianism. This second edition of Historical Dictionary of Hinduism contains a chronology, an introduction, and an extensive bibliography. The dictionary section has over 1,000 cross-referenced entries on deities, historical figures, festivals, philosophical terms, ritual implements, and much more. This book is an excellent resource for students, researchers, and anyone wanting to know more about Hinduism.

Have you ever wondered why there is so much religious diversity in the world? How did this story of humanity begin and what ancient wisdom has been lost along the way? Can you believe in God and not be religious? Or simply put, why do human beings have a need to believe in something... anything? This book is a journey through the genesis of faith, the evolution of ancient spiritual practices, the dawn of major world religions and an exploration of the emerging frontiers of New Age spirituality.

The Mystic Test Book of "The Hindu Occult Chambers"

Contains talks and answers to specific questions, themed around the art of listening subject matter. This comprehensive record of Krishnamurti's teachings is an excellent, wide-ranging introduction to the great philosopher's thought. With among others, Jacob Needleman, Alain Naude, and Swami Venkatasananda, Krishnamurti examines such issues as the role of the teacher and tradition; the need for awareness of 'cosmic consciousness; the problem of good and evil; and traditional Vedanta methods of help for different levels of seekers.

Each year, neonatal intensive care units (NICUs) in the U.S. and around the world help thousands of sick or premature newborns survive. NICUs are committed to the ideals of family-centered care, which encourages shared decision-making between parents and NICU caregivers. In cases of infants with conditions marked by high mortality, morbidity, or great suffering, family-centered care affirms the right of parents to assist in making decisions regarding aggressive treatment for their infant. Often, these parents' difficult and intimate decisions are shaped profoundly by their religious beliefs. In light of this, what precisely are the teachings of the major world religious traditions about the status and care of the premature or sick newborn? Few studies have grappled with what major religious traditions teach about the care of the newborn or how these teachings may bear on parents' decisions. This volume seeks to fill this gap, providing information on religious teachings about the newborn to the multidisciplinary teams of NICU professionals (neonatologists, advance practice nurses, social workers), as well as to parents of NICU patients, and students of bioethics. In chapters dealing with Judaism, Catholicism, Denominational Protestantism, Evangelical Protestantism, African American Protestantism, Sunni and Shi'a Islam, Hinduism, Buddhism, Navajo religion, and Seventh Day Adventism, leading scholars develop the teachings of these traditions on the status, treatment, and ritual accompaniments of care of the premature or sick newborn. This is an essential book that will serve as a first resort for clinicians who need to understand the religious dynamics influencing anyone making a difficult decision about her sick newborn.

Out of long involvement with adherents of many religions, Shenk dares to assert that one can be profoundly respectful of people of other faith traditions and still retain the integrity of one's own faith. -- from the Foreword by Willbert R. Shenk Can we respect other religions and still view Christ as normative for all? Yes, says Calvin Shenk, Professor Emeritus of Religion at Eastern Mennonite University. How? Answers are not simple. However, biblical perspectives on religions provide reliable starting points for the journey. And placing Christ at the center of the quest yields clarity amid complexity. For Christians, candid commitment to the uniqueness of Christ is to be accomplished by the integrity of Christ. This leads to loving witness that includes truly dialoguing with persons committed to other religions. 'Who Do You Say That I Am?' assesses contemporary theologies of religious pluralism as well as several of the world's major religions, yet remains accessible to all thoughtful Christians.

A Tale Of An Unprecedented Reunion

The late Richard Burghart was an outstanding scholar and a gifted and original anthropologist. The Conditions of Listening is a collection of his essays which makes an important contribution to the study of religion, politics and society in South Asia through a combination of ethnographic finesse, meticulous historical research and the sustained working out of an original theoretical position. The very high quality of Burghart's ethnographic and historical research, and his theoretical argument, were not always recognized in his lifetime because his work was published in the form of articles. By bringing a selection of these within this book, the coherence of Burghart's work can now be properly appreciated.

From one of the world's foremost scholars on Hinduism, a vivid reinterpretation of its history An engrossing and definitive narrative account of history and myth that offers a new way of understanding one of the world's oldest major religions, The Hindus elucidates the relationship between recorded history and imaginary worlds. Hinduism does not lend itself easily to a strictly chronological account: many of its central texts cannot be reliably dated even within a century; its central tenets?karma, dharma, to name just two?arise at particular moments in Indian history and differ in each era, between genders, and caste to caste; and what is shared among Hindus is overwhelmingly outnumbered by the things that are unique to one group or another. Yet the greatness of Hinduism?its vitality, its earthiness, its vividness?lies precisely in many of those idiosyncratic qualities that continue to inspire debate today. Wendy Doniger is one of the foremost scholars of Hinduism in the world. With her inimitable insight and expertise Doniger illuminates those moments within the tradition that resist forces that would standardize or establish a canon. Without reversing or misrepresenting the historical hierarchies, she reveals how Sanskrit and vernacular sources are rich in knowledge of and compassion toward women and lower castes; how they debate tensions surrounding religion, violence, and tolerance; and how animals are the key to important shifts in attitudes toward different social classes. The Hindus brings a fascinating multiplicity of actors and stories to the stage to show how brilliant and creative thinkers?many of them far removed from Brahmin authors of Sanskrit texts?have kept Hinduism alive in ways that other scholars have not fully explored. In this unique and authoritative account, debates about Hindu traditions become platforms from which to consider the ironies, and overlooked epiphanies, of history.

The Westminster Review

'The Life of Hinduism' collects a series of essays that present Hinduism as a vibrant, truly 'lived' religion. The text offers a glimpse into the multifaceted world of Hindu worship, life-cycle rites, festivals, performances, gurus, and castes.

Written by both medical and religious professionals, as well as those who study exclusively the interaction between the two worlds, this text deals with the spiritual and religious care of the chronically ill and dying. Case studies are included throughout.
