These board books explore everyday objects in a way that is different from others. By using patchwork instead of flat drawings, the characters really lift off the page, looking like real nursery creations from times gone by. While drawing in class to avoid listening to a story from his painfully boring teacher at Stagwood School, 12-year old Cal sees a frog staring at him through the window. Odder than that is the fact that this frog happens to be wearing glasses. Cal and his best friend, the tactless but loyal Soy, learn that the frog (who prefers the name Deli) has sought them out for a reason. When a school administrator named Ream reveals himself to be a dragon, the boys discover that fairytales are real, and that there is magic afoot in Stagwood. With Ream on their tail, the trio must unearth a powerful tool protected by riddles and rife (the magic that fuels nightmares) to save the fate of all fairytales past. Their only means of conveyance, Cal's now-flying bed, takes them on a journey beyond the home of the fairies (a cloud floating somewhere over Iceland) to set things right. But, before Cal can defeat Ream and his kidnapped army of fairies, he has to deal with Soy's knack for arguing with magical creatures, discover the truth about Deli's identity, and earn his place as the hero of the story. *The Guardians of Lore* is a middle grade novel that centers around two life-long friends, infusing humor and fantasy-based riddles into a modern fairytale. This is an exceptionally written intriguing piece of work that enthuses and imbues curiosity in young readers to discover the unknown with a spirit of adventure. Ideally, this is a book for children
