*The exhilarating story of how London came to be one of the most exciting and influential places on earth—from the city's colorful, witty, and well-known mayor. Once a swampland that the Romans could hardly be bothered to conquer, over the centuries London became an incomparably vibrant metropolis that has produced a steady stream of ingenious, original, and outsized figures who have shaped the world we know. Boris Johnson, the internationally beloved mayor of London, is the best possible guide to these colorful characters and the history in which they played such lively roles. Erudite and entertaining, he narrates the story of London as a kind of relay race. Beginning with the days when "a bunch of pushy Italian immigrants" created Londinium, he passes the torch on down through the famous and the infamous, the brilliant and the bizarre—from Hadrian to Samuel Johnson to Winston Churchill to the Rolling Stones—illuminating with unforgettable clarity the era each inhabited. He also pauses to shine a light on innovations that have contributed to the city's incomparable vibrancy, from the King James Bible to the flush toilet. As wildly entertaining as it is informative, this is an irresistible account of the city and people that in large part shaped the world we know.*

Not illustrated. 1899 edition. Excerpt: ... CHAPTER XXII HOLY MATRIMONY A Dishevelled London. A London that had gone late to bed, and was yet scarcely fit to be seen. A London that blinked at me with eyes but half open. Such was the London that faced me as I waited for the omnibus that should convey me to Westminster, whence another would pass me on to the turning which led to the church whither I was bound. For it was the morning of Boxing day. Christmas day was over; so much you could see by the orange peel; and Boxing day was not yet really begun. A strong wind was blowing; not a cold wind, but a wind that sought out every stray piece of paper, and made it caper and dance and twirl. The street was empty but for myself; the shops were shuttered; and it was altogether rather depressing, until the omnibus lumbered up, and the driver, slowing down, from mere force of habit, lashed the window with his whip. At present I was the only passenger. The conductor clambered on to the roof to take my fare. When he had given me my ticket, he stood for a few moments contemplating the back of the driver. "Bangkoldy, Bill, Bangkoldy! Well, it fair knocks me," he said, jerking his head backwards, with the air of one who finds fortune fall below his hopes. "Bit off, eh?" said the driver, looking over his shoulder. We were not a cheerful party. We had some difficulty, too, in keeping our hats on. "Blows like rain," I remarked. The conductor was swinging himself down again, but he halted on his way, and put a red face over the rail--a face designed for cheerfulness, but depressed by circumstances. "Seems to me," he said, "the majority of people I've sin this mornin' wouldn't be much worse for a dash of cold water." "I'm just going to see a friend married," I said; "I hope the rain will hold off....*

*whatever you do don't mention that, like it never happened. It's the late 1940s. Calm has returned to London and five people are recovering from the chaos of war. In scenes set in a quiet dating agency, a bombed-out church and a prison cell, the stories of these five lives begin to intertwine and we uncover the desire and regret that has bound them together. Sarah Waters's story of illicit love and everyday heroism takes us from a dazed and shattered post-war Britain back into the heart of the Blitz, towards the secrets that are hidden there. Olivier-nominated playwright Hattie Naylor has created a thrilling and theatrically inventive adaptation of a great modern novel. The stage adaptation of *The Night Watch* was premiered at the Royal Exchange Theatre, Manchester, on 16 May 2016. The classic London fogs—thick yellow “pea-soupers”—were born in the industrial age and remained a feature of cold, windless winter days until clean air legislation in the 1960s. Christine L. Corton tells the story of these epic London fogs, their dangers and beauty, and the lasting effects on our culture and imagination of these urban spectacles.*

In May 2018 the Museum of London will launch a major new exhibition showcasing both contemporary and historic imagery that explores the capital after hours. Well-known photographers (such as Bill Brandt) will sit alongside lesser-known artists who explore the dreamy, threatening and shadowy world of the city after the sun goes down. The book will contain essays, poetry and over 100 images from the exhibition that span the genres of architectural, documentary and portrait photography.

'Zeppelin Nights is social history at its best... White creates a vivid picture of a city changed forever by war' The Times 2018 marks the centenary of the end of the First World War. In those four decisive years, London was irrevocably changed. Soldiers passed through the capital on their way to the front and wounded men were brought back to be treated in London's hospitals. At night, London plunged into darkness for fear of Zeppelins that raided the city. Meanwhile, women escaped the drudgery of domestic service to work as munitionettes. Full employment put money into the pockets of the poor for the first time. Self-appointed moral guardians seize the chance to clamp down on drink, frivolous entertainment and licentious behaviour. Even against a war-torn landscape, Londoners were determined to get on with their lives, firmly resolved not to let Germans or puritans spoil their enjoyment. Peopled with patriots and pacifists, clergymen and thieves, bluestockings and prostitutes, Jerry White's magnificent panorama reveals a battle-scarred yet dynamic, flourishing city. 'Jerry White's name on a title page is a guarantee of a lively, compassionate book full of striking incidents and memorable images... This is a fast-paced social history that never stumbles... A well-orchestrated polyphony of voices that brings history alive' Guardian

*In Victorian London, filth was everywhere: horse traffic filled the streets with dung, household rubbish went uncollected, cesspools brimmed with "night soil," graveyards teemed with rotting corpses, the air itself was choked with smoke. In this intimately visceral book, Lee Jackson guides us through the underbelly of the Victorian metropolis, introducing us to the men and women who struggled to stem a rising tide of pollution and dirt, and the forces that opposed them. Through thematic chapters, Jackson describes how Victorian reformers met with both triumph and disaster. Full of individual stories and overlooked details--from the dustmen who grew rich from recycling, to the peculiar history of the public toilet--this riveting book gives us a fresh insight into the minutiae of daily life and the wider challenges posed by the unprecedented growth of the Victorian capital.*

*"A rich and exuberant kaleidoscopic portrait of a great, messy, noisy, daunting, inspiring, maddening, enthralling, constantly shifting Rorschach test of a place. . . . Delightful. . . . In Taylor's patient and sympathetic hands, regular people become poets, philosophers, orators." -- New York Times Book Review* Londoners is a fresh and compulsively readable view of one of the world's most fascinating cities—a vibrant narrative portrait of the London of our own time, featuring unforgettable stories told by the real people who make the city hum. Acclaimed writer and editor Craig Taylor has spent years traversing every corner of the city, getting to know the most interesting Londoners, including the voice of the London Underground, a West End rickshaw driver, an East End nightclub doorman, a mounted soldier of the Queen's Life Guard at Buckingham Palace, and a couple who fell in love at the Tower of London—and now live there. With candor and humor, this diverse cast—rich and poor, old and young, native and immigrant, men and women (and even a Sarah who used to be a George)—shares indelible tales that capture the city as never before. Together, these voices paint a vivid, epic, and wholly original portrait of twenty-first-century London in all its breadth, from Notting Hill to Brixton, from Piccadilly Circus to Canary Wharf, from an airliner flying into London Heathrow Airport to Big Ben and Tower Bridge, and down to the deepest tunnels of the London Underground. Londoners is the autobiography of one of the world's greatest cities.

*A Great and Monstrous Thing offers a street-level view of eighteenth-century London, a city of grandeur and glitter, squalor and poverty, risen from the ashes of the Great Fire of 1666 that destroyed half its homes and great public buildings. What emerges is a society fractured by geography, politics, religion, history—and especially by class. “An emotionally stirring account of the single most devastating attack on London during the Blitz... A captivating and important contribution... History that reads like a novel.”—Kirkus The untold story of the massive bombing raid that almost brought Britain to military collapse, The Longest Night reveals just how close the Luftwaffe came to total victory. On the night of May 10, 1941, Nazi Germany sent some five hundred aircraft to drop more than seven hundred tons of explosives on London. This vivid, dramatically told account depicts how fate shifted based on Hitler's mistaken belief that he'd actually lost the air war over Britain, and portrays the unsurpassed, "we-can-take-it" bravery of the British people when they'd been pushed beyond all human endurance. “An excellent book... Gavin Mortimer has interviewed scores of survivors for his gripping narrative.”—Andrew Roberts, The Wall Street Journal*

A real-life thriller in the vein of *The Devil in the White City*, Kate Winkler Dawson's debut *Death in the Air* is a gripping, historical narrative of a serial killer, an environmental disaster, and an iconic city struggling to regain its footing. London was still recovering from the devastation of World War II when another disaster hit: for five long days in December 1952, a killer smog held the city firmly in its grip and refused to let go. Day became night, mass transit ground to a halt, criminals roamed the streets, and some 12,000 people died from the poisonous air. But in the chaotic aftermath, another

killer was stalking the streets, using the fog as a cloak for his crimes. All across London, women were going missing--poor women, forgotten women. Their disappearances caused little alarm, but each of them had one thing in common: they had the misfortune of meeting a quiet, unassuming man, John Reginald Christie, who invited them back to his decrepit Notting Hill flat during that dark winter. They never left. The eventual arrest of the "Beast of Rillington Place" caused a media frenzy: were there more bodies buried in the walls, under the floorboards, in the back garden of this house of horrors? Was it the fog that had caused Christie to suddenly snap? And what role had he played in the notorious double murder that had happened in that same apartment building not three years before--a murder for which another, possibly innocent, man was sent to the gallows? The Great Smog of 1952 remains the deadliest air pollution disaster in world history, and John Reginald Christie is still one of the most unfathomable serial killers of modern times. Journalist Kate Winkler Dawson braids these strands together into a taut, compulsively readable true crime thriller about a man who changed the fate of the death penalty in the UK, and an environmental catastrophe with implications that still echo today.

Miscast in the media for nearly 130 years, the victims of Jack the Ripper finally get their full stories told in this eye-opening and chilling reminder that life for middle-class women in Victorian London could be full of social pitfalls and peril.

Ronald Blythe's 1969 book *Akenfield* - a moving portrait of English country life told in the voices of the farmers and villagers themselves - is a modern classic. In 2004, writer and reporter Craig Taylor returned to the village in Suffolk on which *Akenfield* was based. Over the course of several months, he sought out locals who had appeared in the original book to see how their lives had changed, he met newcomers to discuss their own views, and he interviewed Ronald Blythe himself, now in his eighties. Young farmers, retired orchardmen and Eastern European migrant workers talk about the nature of farming in an age of computerization and encroaching supermarkets; commuters, weekenders and retirees discuss the realities behind the rural idyll; and the local priest, teacher and more describe the daily pleasures and tribulations of village life. Together, they offer

and blackout curtains that she finds on her arrival were not what she expected. And she certainly never imagined she 'd wind up working at Primrose Hill, a dusty old bookshop nestled in the heart of London. Through blackouts and air raids as the Blitz intensifies, Grace discovers the power of storytelling to unite her community in ways she never dreamed—a force that triumphs over even the darkest nights of the war. “A gorgeously written story of love, friendship, and survival set against the backdrop of WWII-era London.” —JILLIAN CANTOR, author of *In Another Time and Half Life* “A love letter to the power of books to unite us, to hold the world together when it 's falling apart around our ears. What if your roommate is your soul mate? A joyful, quirky romantic comedy, Beth O'Leary's *The Flatshare* is a feel-good novel about finding love in the most unexpected of ways. Tiffy and Leon share an apartment. Tiffy and Leon have never met. After a bad breakup, Tiffy Moore needs a place to live. Fast. And cheap. But the apartments in her budget have her wondering if astonishingly colored mold on the walls counts as art. Desperation makes her open minded, so she answers an ad for a flatshare. Leon, a night shift worker, will take the apartment during the day, and Tiffy can have it nights and weekends. He 'll only ever be there when she 's at the office. In fact, they 'll never even have to meet. Tiffy and Leon start writing each other notes - first about what day is garbage day, and politely establishing what leftovers are up for grabs, and the evergreen question of whether the toilet seat should stay up or down. Even though they are opposites, they soon become friends. And then maybe more. But falling in love with your roommate is probably a terrible idea...especially if you've never met.

"A casually wondrous experience; it made me feel like the city was unfolding beneath my feet." —Jia Tolentino, author of *Trick Mirror* In place-names lie stories. That 's the truth that animates this fascinating journey through the names of New York City 's streets and parks, boroughs and bridges, playgrounds and neighborhoods. Exploring the power of naming to shape experience and our sense of place, Joshua Jelly-Schapiro traces the ways in which native Lenape, Dutch settlers, British invaders, and successive waves of immigrants have left their marks on the city 's map. He excavates the roots of many names, from Brooklyn to Harlem, that have gained iconic meaning worldwide. He interviews the last living speakers of Lenape, visits the harbor 's forgotten islands, lingers on street corners named for ballplayers and saints, and meets linguists who study the estimated eight hundred languages now spoken in New York. As recent arrivals continue to find new ways to make New York 's neighborhoods their own, the names that stick to the city 's streets function not only as portals to explore the past but also as a means to reimagine what is possible now.

Poland and Czechoslovakia had already fallen, and the Dunkirk evacuation was just two weeks away. For the next twelve months, Hitler would wage a relentless bombing campaign, killing 45,000 Britons. It was up to Churchill to hold his country together and persuade President Franklin Roosevelt that Britain was a worthy ally--and willing to fight to the end. In *The Splendid and the Vile*, Erik Larson shows, in cinematic detail, how Churchill taught the British people "the art of being fearless." It is a story of political brinkmanship, but it's also an intimate domestic drama, set against the backdrop of Churchill's prime-ministerial country home, Chequers; his wartime retreat, Ditchley, where he and his entourage go when the moon is brightest and the bombing threat is highest; and of course 10 Downing Street in London. Drawing on diaries, original archival documents, and once-secret intelligence reports--some released only recently--Larson provides a new lens on London's darkest year through the day-to-day experience of Churchill and his family: his wife, Clementine; their*

The Splendid and the Vile takes readers out of today's political dysfunction and back to a time of true leadership, when, in the face of unrelenting horror, Churchill's eloquence, courage, and perseverance bound a country, and a family, together.*

Evolutionary studies, palaeoenvironmental analysis, and stratigraphical applications are documented using up-to-date examples supported by overviews of the principles.*

*Winner of the 2021 Brooklyn Public Library Literary Prize A symphony of contemporary New York through the magnificent words of its people—from the best-selling author of Londoners. In the first twenty years of the twenty-first century, New York City has been convulsed by terrorist attack, blackout, hurricane, recession, social injustice, and pandemic. New Yorkers weaves the voices of some of the city's best talkers into an indelible portrait of New York in our time—and a powerful hymn to the vitality and resilience of its people. Best-selling author Craig Taylor has been hailed as “a peerless journalist and a beautiful craftsman” (David Rakoff), acclaimed for the way he “fuses the mundane truth of conversation with the higher truth of art” (Michel Faber). In the wake of his celebrated book Londoners, Taylor moved to New York and spent years meeting regularly with hundreds of New Yorkers as diverse as the city itself. New Yorkers features 75 of the most remarkable of them, their fascinating true tales arranged in thematic sections that follow Taylor's growing engagement with the city. Here are the uncelebrated people who propel New York each day—bodega cashier, hospital nurse, elevator repairman, emergency dispatcher. Here are those who wire the lights at the top of the Empire State Building, clean the windows of Rockefeller Center, and keep the subway running. Here are people whose experiences reflect the city's fractured realities: the mother of a Latino teenager jailed at Rikers, a BLM activist in the wake of police shootings. And here are those who capture the ineffable feeling of New York, such as a balloon handler in the Macy's Thanksgiving Day Parade or a security guard at the Statue of Liberty. Vibrant and bursting with life, New Yorkers explores the nonstop hustle to make it; the pressures on new immigrants, people of color, and the poor; the constant battle between loving the city and wanting to leave it; and the question of who gets to be considered a “New Yorker.” It captures the strength of an irrepressible city that—no matter what it goes through—dares call itself the greatest in the world.*

That's what London constable and sorcerer's apprentice Peter Grant first notices when he examines the corpse of Cyrus Wilkins, part-time jazz drummer and full-time accountant, who dropped dead of a heart attack while playing a gig at Soho's 606 Club. The notes of the old jazz standard are rising from the body—a sure sign that something about the man's death was not at all natural but instead supernatural. Body and soul—they're also what Peter will risk as he investigates a pattern of similar deaths in and around Soho. With the help of his superior officer, Detective Chief Inspector Thomas Nightingale, the last registered wizard in England, and the assistance of beautiful jazz aficionado Simone Fitzwilliam, Peter will uncover a deadly magical menace—one that leads right to his own doorstep and to the squandered promise of a young jazz musician: a talented trumpet player named Richard "Lord" Grant—otherwise known as Peter's dear old dad.*

writers, with a short biography for each. The most famous diarist of all - Samuel Pepys - is there, as well as some of today's finest diarists like Alan Bennett and Chris Mullin. There are coronations and executions, election riots and zeppelin raids, duels, dust-ups and drunken sprees, among everyday moments like Brian Eno cycling in Kilburn or George Eliot walking on Wimbledon Common. Vividly evoking moments in the lives of Londoners in the past, providing snapshots of the city's inhabitants at work, at play, in pursuit of money, sex, entertainment, pleasure and power, *A London Year* is the perfect book for all who live in or love this eternal, ever-changing city.

Both devastating and funny, *The Lonely Londoners* is an unforgettable account of immigrant experience - and one of the great twentieth-century London novels. This Penguin Modern Classics edition includes an introduction by Susheila Nasta. At Waterloo Station, hopeful new arrivals from the West Indies step off the boat train, ready to start afresh in 1950s London. There, homesick Moses Aloetta, who has already lived in the city for years, meets Henry 'Sir Galahad' Oliver and shows him the ropes. In this strange, cold and foggy city where the natives can be less than friendly at the sight of a black face, has Galahad met his Waterloo? But the irrepressible newcomer cannot be cast down. He and all the other lonely new Londoners - from shiftless Cap to Tolroy, whose family has descended on him from Jamaica - must try to create a new life for themselves. As pessimistic 'old veteran' Moses watches their attempts, they gradually learn to survive and come to love the heady excitements of London. Sam Selvon (b. 1923) was born in San Fernando, Trinidad. In 1950 Selvon left Trinidad for the UK where after hard times of survival he established himself as a writer with *A Brighter Sun* (1952), *An Island is a World* (1955), *The Lonely Londoners* (1956), *Ways of Sunlight* (1957), *Turn Again Tiger* (1958), *I Hear Thunder* (1963), *The Housing Lark* (1965), *The Plains of Caroni* (1970), *Moses Ascending* (1975) and *Moses Migrating* (1983). If you enjoyed *The Lonely Londoners*, you might like Jean Rhys's *Voyage in the Dark* or Shiva Naipaul's *Fireflies*, also available in Penguin Modern Classics. 'His *Lonely Londoners* has acquired a classics status since it appeared in 1956 as the definitive novel about London's West Indians' *Financial Times* 'The unforgettable picaresque ... a vernacular comedy of pathos' *Guardian*

A Wonder Woman and bride-to-be finds herself worse for wear at the end of a hen night; a funeral director's love of Manchester United proves unhelpful when talking to the bereaved; two overly-vigilant mothers wrestle with their paranoia in the queue for Santa's Grotto; a widow recounts her disastrous return to the world of dating and a father realises that his son is growing away from him as he helps him tie his football boots. In these snippets of overheard conversations from across the length and breadth of the country, Craig Taylor captures the state we're in with humour and pathos and perfect timing. Laugh-out-loud funny, and sometimes heartbreakingly moving, these tiny plays in which every one of us could have a starring role are little windows into other people's lives that reveal the triumphs, disasters, prejudices, horrors and joys of twenty-first-century life. Hugely entertaining and utterly addictive, this is book that can be dipped into or feasted upon in one sitting. It will change the way you listen to the world around you, and train journeys will never be the same again.
