This book tells my circuitous and tragicomic journey through Big Tech, as a startup founder and as an employee. While I appreciate the vast creative potential of new technologies, I critique aspects of the industry that I observed that lose sight of human values in the quest for profits and market share. I hope to empower the public with the information to enable all of us to urge technology firms to use the great financial and cultural power they wield for positive ends.

Tired of her unfulfilled, unfocused life and going-nowhere career selling fake antiques, thirty-something Fleur Bonner joins the other misfits, lonely, and lost individuals of the Battersea Park New Runner's Club to train for the London marathon, but her plans go awry when she becomes a prime suspect in her boss's art forgery scheme. Original. 30,000 first printing.

This book explores the diverse ways in which Holocaust representations have influenced and structured how other genocides are understood and represented in the West. Rebecca Jinks focuses in particular on the canonical 20th century cases of genocide: Armenia, Cambodia, Bosnia, and Rwanda. Using literature, film, photography, and memorialisation, she demonstrates that we can only understand the Holocaust's status as a 'benchmark' for other genocides if we look at the deeper, structural resonances which subtly shape many representations of genocide. Representing Genocide pursues five thematic areas in turn: how genocides are recognised as such by western publics; the representation of the origins and perpetrators of genocide; how western witnesses represent genocide; representations of the aftermath of genocide; and western responses to genocide. Throughout, the book distinguishes between 'mainstream' and other, more nuanced and engaged, representations of genocide. It shows how these mainstream representations - the majority - largely replicate the representational framework of the Holocaust, including the way in which mainstream Holocaust representations resist recognising the rationality, instrumentality and normality of genocide, preferring instead to present it as an aberrant, exceptional event in human society. By contrast, the more engaged representations - often, but not always, originating from those who experienced genocide - tend to revolve around precisely

genocide's ordinariness, and the structures and situations common to human society which contribute to and become involved in the violence.

*An urgent and accessible handbook for peaceful protesters, activists, and community organizers—anyone trying to defend their rights, hold their government accountable, or change the world **Blueprint for Revolution** will teach you how to • make oppression backfire by playing your opponents' strongest card against them • identify the "almighty pillars of power" in order to shift the balance of control • dream big, but start small: learn how to pick battles you can win • listen to what people actually care about in order to incorporate their needs into your revolutionary vision • master the art of compromise to bring together even the most disparate groups • recognize your allies and view your enemies as potential partners • use humor to make yourself heard, defuse potentially violent situations, and "laugh your way to victory"*

*Praise for **Blueprint for Revolution** "The title is no exaggeration. Otpor's methods . . . have been adopted by democracy movements around the world. The Egyptian opposition used them to topple Hosni Mubarak. In Lebanon, the Serbs helped the Cedar Revolution extricate the country from Syrian control. In Maldives, their methods were the key to overthrowing a dictator who had held power for thirty years. In many other countries, people have used what **Canvas** teaches to accomplish other political goals, such as fighting corruption or protecting the environment."—The New York Times "A clear, well-constructed, and easily applicable set of principles for any David facing any Goliath (sans slingshot, of course) . . . By the end of **Blueprint**, the idea that a punch is no match for a punch line feels like anything but a joke."—The Boston Globe "An entertaining primer on the theory and practice of peaceful protest."—The Guardian "With this wonderful book, Srdja Popovic is inspiring ordinary people facing injustice and oppression to use this tool kit to challenge their oppressors and create something much better. When I was growing up, we dreamed that young people could bring down those who misused their power and create a more just and democratic society. For Srdja Popovic, living in Belgrade in 1998, this same dream was potentially a much more dangerous idea. But with an extraordinarily courageous group of students that formed Otpor!, Srdja used imagination, invention, cunning, and lots of humor to create a movement that not only succeeded in toppling the brutal dictator Slobodan Milošević but has become a blueprint for nonviolent revolution around the world. Srdja rules!"—Peter Gabriel "Blueprint for Revolution is not only a spirited guide to changing the world but a breakthrough in the annals of advice for those who seek justice and democracy. It*

asks (and not heavy-handedly): As long as you want to change the world, why not do it joyfully? It's not just funny. It's seriously funny. No joke.—Todd Gitlin, author of *The Sixties and Occupy Nation*

Serbia, a landlocked country at the crossroads of Central and Southeastern Europe, covers the southern part of the Pannonian plain and the central part of the Balkans. The dominant power in the former Yugoslavia, it has had a bad press in the West. However, the truth is much more nuanced and interesting than that portrayed by the media. Serbia is a country with wonderful scenery, architectural riches, and a vibrant arts scene, waiting to be discovered by Westerners. Serbs are proud, passionate, and generous people with an independent streak. They have always had to fight for survival, first against the Ottoman Turks and then against the Habsburg Empire. Following the First World War, they took the lead in forming independent Yugoslavia. They resisted Hitler heroically. Under Tito's rule Yugoslavia steered an independent course. After his death the multinational state disintegrated amid bitter conflict. The war over the secession of the province of Kosovo saw Serbia bombed by NATO forces for two and a half months. The Serbian people's reaction to their hardline Communist regime was the Bulldozer Revolution—a campaign of civil resistance that returned the country to democracy in 2000. Against this turbulent

backdrop, the visitor to Serbia needs to be well informed and sensitive to people's feelings. Culture Smart! Serbia introduces you to a diverse, complex, and dynamic society. It offers background information on Serbian history and customs, and essential advice on what to expect and how to behave in different circumstances. If you show interest and respect, you will receive a warm welcome and lasting loyalty in return. Lonely Planet's Best in Travel 2019

This guidebook describes a range of 17 day-walks and multi-day treks throughout the mountains of Montenegro. Routes range from short (2km) walks through to multi-day treks throughout this fascinating region. Some routes are circular and some linear, with variants and extensions described so that you can plan a day walk or longer trip. The guide also includes generous background information, covering mountain huts and shelters, travel to and within the country, history and language, as well as what to expect in the various mountains and National Parks the routes explore. The Dinaric Alps are some of the wildest, most spectacular, and least visited in Europe. But they are easily accessible, and many areas have well-marked trails. They present an opportunity to travel through outstandingly beautiful and remarkably unspoilt natural scenery, which sees few visitors.

This annual bestseller ranks the hottest, must-visit countries, regions, cities and best-value destinations for 2019. Drawing on the knowledge and passion of Lonely Planet's staff, authors

and online community, we present a year's worth of inspiration to take you out of the ordinary and into the unforgettable.

This is the first detailed guide to the Bosnian part of the new Via Dinarica hiking trail that carves its way through the Dinaric Alps, one of Europe's least explored mountain ranges and last true wilderness frontiers, connecting the seven nations of Slovenia, Croatia, Bosnia and Herzegovina, Montenegro, Serbia, Kosovo, and Albania. In total, this trail system will span over 1,350km, 333km of which is in Bosnia Herzegovina. The Via Dinarica consists of three routes - White, Green and Blue - and this guide focuses primarily on the White Trail through Bosnia and Herzegovina, following the natural flow of the highest peaks of the Dinaric Alps. Detailed descriptions of each of the 12 stages of the White Trail through Bosnia and Herzegovina are included, along with maps, altitude charts and helpful tips, as well as recommendations for waypoint visits and nearby highlights. Also included are an overview of the flora and fauna of the region, details of accommodation for each step of the way, and information on local public transport, culture, food and language. The natural and cultural wonders of the Dinaric Alps are the best-kept secret of the Balkans, a region with some of the wildest, most impressive natural beauty in the world. All of the countries along the Via Dinarica boast beautiful mountains, alpine lakes, karst caves, forest preserves and pristine rivers that have forged extraordinary canyons and gorges. Here, there is also an abundance of enduring mountain communities that maintain their traditional ways of life and sustainable reliance on the land. Although the Via Dinarica is primarily a hiking trail, there are opportunities for many different outdoor adventure sports along the way, such as rafting, skiing, mountain biking, rock climbing, canyoning, caving, etc. The Via Dinarica White Trail in Bosnia and Herzegovina is 333km long, takes an estimated 125 hours to complete, climbs the highest, often snow-capped mountains of the Dinaric Alps, and passes through or near over 5 national parks and many nature preserves, as well as one of the two remaining European rainforests, the Perucica primeval forest. With this

handy, portably guide, you can discover it all.
