Jean Kinney, Lecturer in Community and Family Medicine at Dartmouth Medical School, was the Associate Director of the Alcohol Counselor Training Program at Dartmouth conducted between 1972 and 1978. That program was the impetus for this text. Upon completion of the Alcohol Counselor Training Program, she became involved with Project Cork, a program established to develop and implement a model curriculum for medical student education and to create materials for health care professionals. She continues to be involved in professional development initiatives in the substance abuse field. In 1999, she was the first recipient of the Harold Hughes Award given annually by the National Institute of Medicine's National Institute on Alcohol Abuse and Alcoholism. It is given in recognition for efforts to assist in the translation of scientific research into clinical practice. *Loosening the Grip* was one of her efforts cited in this award. Accessible and comprehensive, *Loosening the Grip* remains an authoritative source for information about alcohol use and the problems associated with it, while also addressing the relationship between alcohol use and other drug use. This text presents the physical and psychological effects of alcohol alongside the impact of alcohol use on family and society. Special attention is given to addressing the range of responses to alcohol problems, prevention, harm reduction, brief treatment, engagement in treatment and aftercare, and addressing high risk drinking. Along with providing a historical foundation for the discussion of substance use, the book explains the facts about this complex issue in clear, engaging language. *Loosening the Grip* is widely recognized as a useful resource for future and current health care workers - substance abuse clinicians, school counselors, mental health workers, community nurses, and others.

A concise survey of the culture and civilization of mankind, *The Lessons of History* is the result of a lifetime of research from Pulitzer Prize-winning historians Will and Ariel Durant. With their accessible compendium of philosophy and social progress, the Durants take us on a journey through history, exploring the possibilities and limitations of humanity over time. Juxtaposing the great lives, ideas, and accomplishments with cycles of war and conquest, the Durants reveal the towering themes of history and give meaning to our own.

Accessible and comprehensive, Loosening the Grip remains an authoritative source for information about alcohol use and the problems associated with it, while also addressing the relationship between alcohol and other drug use. The text presents the physical and psychological effects of alcohol alongside the impact of its use on the family and society. Special attention is given to range of responses to potential problems or alcohol use, including prevention, harm reduction, assessment, referral and treatment, and the risks for anyone of heavy alcohol use. Along with providing a historical foundation, Loosening the Grip also sets forth basic information on other drugs of abuse, whether street drugs or prescription drugs. NEW FEATURES OF THE 12th Edition: - The phenomenon of vaping, particularly among adolescents, and the serious medical problems. - The advent of for-profit substance abuse treatment programs, chains and issues of substandard clinical care, and failure to represent the standards of the Profession. - The opioid epidemic, sparked by pharmaceutical industry, and how drinking is interwoven into abuse of pharmaceuticals. - The evolution of the Substance Use Profession from what was once virtually an orphaned, isolated, to among the most widely respected of the Human Service Professions. WHAT AN INSTRUCTOR SAYS ABOUT LOOSENING THE GRIP: "Loosening the Grip is, and has been the standard setter in the addiction profession since first publication in 1978. My first experience with the text occurred as a student in 1999, and I literally devoured the text, which was filled with material about alcohol, its effects on the body and mind, and how to best treat the condition of alcohol use disorder. I now am a licensed addiction counselor and addiction educator, and as such utilize this text exclusively in my alcohol course within our accredited addiction counseling and prevention program. This is not only an essential encyclopedia on all things concerning alcohol addiction and recovery, but includes materials about other substances of abuse, along with materials on co-occurring mental health disorders. Students state that they love this book as much as I did in 1999, and this creates a much higher level of retention in our major and minor. I plan to continue using this very engaging, accurate and useful book for many years to come." --John Korkow, LAC, PhD, SAP

Clients who have multiple addictions and disorders are more difficult to engage and treat than clients with a single disorder. Many of the current systems are ill-equipped to address the myriad challenges of these clients—their relapse and recidivism rates are higher, and many of these clients tend to slip through the cracks, often going back and forth among addictions treatment, psychiatric and medical hospitalizations, and incarceration. Too many difficult-to-reach clients are at risk for relapse because their practitioners lack effective, innovative strategies for this unique client base who remain part of a revolving-door syndrome. Now, Certified Alcohol and Drug Addictions Counselor Mark Sanders, LCSW, offers specific strategies to assist therapists and counselors who work with difficult and at-risk populations, including those with: multiple addictions co-occurring disorders adolescents; rural methamphetamine users antisocial personality disorder, criminality, and addiction trauma or grief and chemical dependency history of chronic relapse and recidivism Slipping Through the Cracks is a encyclopedic handbook to specific traits of the difficult-to-reach client, as well as a concise guidebook to effective strategies that will be useful to anyone working with clients in private practice or in treatment programs who have both mental health and substance abuse issues.
